

December 27, 2013 (78 FR 78807). As required under section 205, a status report of the public comments related to safe harbors received in response to that notice is set forth in Appendix F of OIG's Fall 2014 Semiannual Report.¹ OIG is not seeking additional public comment on the proposals listed in Appendix F at this time. Rather, this notice seeks additional recommendations regarding the development of new or modified safe harbor regulations and new Special Fraud Alerts beyond those summarized in Appendix F.

A detailed explanation of justifications for, or empirical data supporting, a suggestion for a safe harbor or Special Fraud Alert would be helpful and should, if possible, be included in any response to this solicitation.

A. Criteria for Modifying and Establishing Safe Harbor Provisions

In accordance with section 205 of HIPAA, we will consider a number of factors in reviewing proposals for new or modified safe harbor provisions, such as the extent to which the proposals would affect an increase or decrease in:

- Access to health care services,
- the quality of health care services,
- patient freedom of choice among health care providers,
- competition among health care providers,
- the cost to Federal health care programs,
- the potential overutilization of health care services, and
- the ability of health care facilities to provide services in medically underserved areas or to medically underserved populations.

In addition, we will also consider other factors, including, for example, the existence (or nonexistence) of any potential financial benefit to health care professionals or providers that may take into account their decisions whether to (1) order a health care item or service or (2) arrange for a referral of health care items or services to a particular practitioner or provider.

B. Criteria for Developing Special Fraud Alerts

In determining whether to issue additional Special Fraud Alerts, we will consider whether, and to what extent, the practices that would be identified in a new Special Fraud Alert may result in any of the consequences set forth above, as well as the volume and frequency of

the conduct that would be identified in the Special Fraud Alert.

Dated: December 18, 2014.

Daniel R. Levinson,

Inspector General.

SUPPLEMENTARY INFORMATION:

I. Background

DoD, GSA, and NASA are revising the FAR in response to a Government Accountability Office (GAO) report, GAO-14-304, Federal Contracting: *Noncompetitive Contracts Based on Urgency Need Additional Oversight*, dated March 2014. On October 14, 2009, the FAR was amended to implement section 862 of the Duncan Hunter National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2009 (Pub. L. 110-417) which restricted the length of contracts awarded noncompetitively under unusual and compelling urgency circumstances. Such contracts may not exceed one year unless the head of the executive agency determines that exceptional circumstances apply.

GAO found that agencies did not make the required determination for the ten contracts in GAO's sample that had a period of performance of more than one year. As a result, GAO recommended that DoD, U.S. Department of State and U.S. Agency for International Development provide guidance to improve data reliability and oversight for contracts awarded using the urgency exception.

Additionally, GAO recommended that the Director of the Office of Management and Budget, through the Office of Federal Procurement Policy, provide guidance to clarify when determinations of exceptional circumstances are needed when a noncompetitive contract awarded on the basis of unusual and compelling urgency exceeds one year, either at the time of award or because it was modified after contract award.

This rule clarifies that a determination of exceptional circumstances is needed whenever the period of performance of a noncompetitive contract awarded on the basis of unusual and compelling urgency is extended beyond a year.

¹ The OIG Semiannual Report to Congress can be accessed through the OIG Web site at <http://oig.hhs.gov/publications/semiannual.asp>.

II. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

III. Regulatory Flexibility Act

DoD, GSA, and NASA do not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because it only clarifies when determination of exceptional circumstances is needed. However, an Initial Regulatory Flexibility Analysis (IRFA) has been performed and is summarized as follows:

The purpose of this rule is to clarify that a determination of exceptional circumstances is needed when the period of performance, inclusive of options and modifications, of a noncompetitive contract awarded on the basis of unusual and compelling urgency is greater than one year. This rule only impacts the internal procedures of the Federal government.

There are no recordkeeping, reporting, or other compliance requirements associated with the proposed rule. The rule does not duplicate, overlap, or conflict with any other Federal rules.

The Regulatory Secretariat has submitted a copy of the IRFA to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the IRFA may be obtained from the Regulatory Secretariat. DoD, GSA, and NASA invite comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD, GSA, and NASA will also consider comments from small entities concerning the existing regulations in subparts affected by the rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (FAR Case 2014–020), in correspondence.

IV. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).
