

of approximately 60 percent. In order to achieve this response rate, we would recommend a 3-staged approach to data collection:

(1) Mailout of a covering letter, the paper survey questionnaire, and a postage-paid return envelope.

(2) Mailout of a postcard that thanks respondents and reminds the non-respondents to please return their survey.

(3) Mailout of a follow-up covering letter, the paper survey questionnaire, and a postage-paid return envelope.

Through the pilot test, we will determine the response rate that can be achieved using this approach. If it is deemed necessary, additional mailout reminders can be added to the protocol, or a telephone non-response step can be added to the protocol.

Using the 3-step mail approach described above, we anticipate that data collection would occur over an 8 to 10 weeks. This is to say, if the first survey mailing were dropped on May 1, we would anticipate completing data collection at the end of June or early July. Data would then be cleaned, scores would be generated, and data would be delivered to CMS. Through the pilot test, we will determine the precise timing required to achieve an acceptable response rate, but we are aiming to complete sampling, data collection, and scoring within a 12-week period.

Subsequent to the publication of the 60-day **Federal Register** notice (June 10, 2011; 76 FR 34076), the survey instrument has been separated into two surveys. Prior to this action, there was one survey proposed for the Quality of Care and Appeals review types. Once approved by OMB, there will be two survey instruments that will request similar information: one for Quality of Care and one for Appeals. *Form Number:* CMS-10393 (OCN 0938-New); *Frequency:* Once; *Affected Public:* Individuals or households; *Number of Respondents:* 16,010; *Number of Responses:* 16,010; *Total Annual Hours:* 4,002. Since 1999, the Medicare CoPs have mandated that

HHAs use the OASIS data set when evaluating adult non-maternity patients receiving skilled services. The OASIS is a core standard assessment data set that agencies integrate into their own patient-specific, comprehensive assessment to identify each patient's need for home care that meets the patient's medical, nursing, rehabilitative, social, and discharge planning needs. There have not been any changes to the PRA package that is associated with the 60-day **Federal Register** notice that published on December 16, 2011 (76 FR 78264); *Form Number:* CMS-R-245 (OCN 0938-0760); *Frequency:* Occasionally; *Affected Public:* Private Sector (Business or other for-profit and Not-for-profit institutions); *Number of Respondents:* 11,495; *Total Annual Responses:* 16,476,008; *Total Annual Hours:* 16,567,968. Centers for Medicare and Medicaid Services

[Document Identifier: CMS-10428]

Emergency Clearance: Public Information Collection Requirements Submitted to the Office of Management and Budget (OMB)

AGENCY: Centers for Medicare and Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare and Medicaid Services (CMS), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

We are, however, requesting an emergency review of the information collection referenced below. In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we have submitted to the Office of Management and Budget (OMB) the following requirements for emergency review. We are requesting an emergency review to ensure compliance with section 1862(a)(1)(A) of the Social Security Act. We cannot reasonably comply with the normal clearance procedures in that public harm is reasonably likely to result if normal clearance procedures are followed as stated in 5 CFR 1320.13(a)(2)(i).

1. *Type of Information Collection Request:* New collection; *Title of Information Collection:* Pre-Existing Condition Insurance Plan (PCIP) HIPAA Authorization Form; *Use:* Unless permitted or required by law, the Health Insurance Portability and Accountability Act (HIPAA) privacy regulation at 45 CFR 164.508 prohibits CMS' Pre-Existing Condition Insurance Plan (PCIP) program (a HIPAA covered entity) from disclosing an individual's protected health information without a

valid authorization. In order to be valid, an authorization must include specified core elements and statements. CMS will make available to PCIP applicants and enrollees a standard, valid authorization to enable beneficiaries to request the disclosure of their protected health information. CMS will make available to PCIP applicants and enrollees a standard, valid authorization to enable beneficiaries to communicate with PCIP about their personal health information. This is a critical tool because the population the PCIP program serves is comprised of individuals with pre-existing conditions who may be incapacitated and need an advocate to help them apply for or receive benefits from the program. This standard authorization will simplify the process of requesting information disclosure for beneficiaries and minimize the response time for the PCIP program; *Form Number*: CMS-10428 (OMB 0938-New); *Frequency*: Occasionally; *Affected Public*: Private Sector (Business or other for-profit and Not-for-profit institutions); *Number of Respondents*: 2,100; *Total Annual Responses*: 2,100; *Total Annual Hours*: 525.
