SUPPLEMENTARY INFORMATION: The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information

before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The Black Lung Benefits Act, 30 U.S.C. 901 *et seq.*, provides benefits to coal miners who are totally disabled by black lung disease arising out of coal mine employment, and certain dependents and survivors. When a miner applies for benefits, the Division of Coal Mine Workers' Compensation (DCMWC) is required to give the miner an opportunity to establish his or her eligibility by providing a complete pulmonary evaluation, including a chest radiograph (X-ray), physical examination, pulmonary function test (also known as a ventilatory study), and arterial blood gas study. 30 U.S.C. 923(b); 20 CFR 718.101, 725.406. Forms CM-933, 933b, 988, 988a, 1159, and 2907 are used by physicians to report the results of these diagnostic tests. The information collected on these forms is used to determine whether the miner is totally disabled due to black lung disease caused by coal mine employment. The Black Lung Benefits Act, 30 U.S.C. 901 *et seq.*, and implementing regulation, 20 CFR 725.406, authorize this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Written comments will receive consideration, and summarized and included in the request for OMB approval of the final ICR. To help ensure appropriate consideration, comments should mention 1240-0023.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive

statements/information in any comments.

The DOL is particularly interested in comments that:

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
