Abstract: Section 3002 of RCRA requires hazardous waste generators to report, at least every 2 years, the quantity and nature of hazardous waste generated and managed each year. Section 3004 requires treatment, storage, and disposal facilities (TSDFs) to report any waste received. This is mandatory reporting. The information is collected via the Hazardous Waste Report (EPA Form 8700-13 A/B). This form is also known as the "Biennial Report" form.

Section 3010 of RCRA requires any person who generates or transports regulated waste or who owns or operates a facility for the treatment, storage, or disposal of regulated waste to notify the EPA of their activities, including the location and general description of activities and the regulated wastes handled. The entity is then issued an EPA Identification number. Entities use the Notification Form (EPA Form 8700-12) to notify EPA of their hazardous waste activities. This form is also known as the "Notification" form.

Section 3005 of RCRA requires TSDFs to obtain a permit. To obtain the permit, the TSDF must submit an application describing the facility's operation. The RCRA Hazardous Waste Part A Permit Application form (EPA Form 8700-23) defines the processes to be used for treatment, storage, and disposal of hazardous wastes; the design capacity of such processes; and the specific hazardous wastes to be handled at the facility. This form is also known as the "Part A" form.

Form Numbers: 8700-12, 8700-13A/B, and 8700-23.

Respondents/affected entities:

Business or other for-profit, State, Local, or Tribal governments.

Respondent's obligation to respond: Mandatory (RCRA Sections 3002, 3304, 3005, 3010).

Estimated number of respondents: 57,879.

Frequency of response: Biennially.

Total estimated burden: 619,489 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$25,530,368 (per year), includes \$285,329 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is increase of 186,586 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to an increase in the number of projected respondents to the 2015 Hazardous Waste Report vs the 2013 Hazardous Waste Report.

Abstract: The National Listing of Fish Advisories (NLFA) database contains information on the number of advisories issued by each state, territory, or tribe annually. The advisory information collected identifies the waterbody under advisory, the fish or shellfish species and size ranges included in the advisory, the chemical contaminants and residue levels causing the advisory to be issued, the waterbody type (river, lake, estuary, coastal waters), and the target populations to whom the advisory is directed. This information is collected under the authority of section 104 of the Clean Water Act, which provides for the collection of information to be used to protect human health and the environment. The results of the survey

are shared with states, territories, tribes, other federal agencies, and the general public through the NLFA database and the distribution of biennial fish advisory fact sheets. The responses to the survey are voluntary and the information requested is part of the state public record associated with the advisories. No confidential business information is requested.

Form Numbers: None.

Respondents/Affected entities:

Entities potentially affected by this action are Administrators of Public Health and Environmental Quality Programs in state and tribal governments.

Respondent's obligation to respond: Voluntary (Clean Water Act, Section 104).

Estimated number of respondents: 92 total.

Frequency of response: Annual.

Total estimated burden: 1,884 labor hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$73,116 (per year), which includes \$607 annualized operation & maintenance costs. No capital or startup costs are required.

Changes in Estimates: There is a decrease of 1,452 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to a change in program requirements (i.e., the elimination of the State Fish Advisory Program Questionnaire).

California State Nonroad Engine Pollution Control Standards; Portable Diesel-Fueled Engines Air Toxics Control Measure; Request for Confirmation That Amendments Are Within the Scope of Previous Authorization; Opportunity for Public Hearing and Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The California Air Resources Board (CARB) has notified the Environmental Protection Agency (EPA) that it adopted amendments to California's Portable Diesel-Fueled Engines Air Toxics Control Measure

(Portable Engine ATCM) in 2007, 2009, and 2010. By letter dated September 15, 2014, CARB asked that EPA authorize these amendments pursuant to the Clean Air Act (CAA or Act). CARB requested EPA's confirmation that the amendments are within the scope of a prior authorization, or, in the alternative, that the amendments merit full authorization. This notice announces that EPA has tentatively scheduled a public hearing to consider California's request, and that EPA is now accepting written comment on the request.

DATES: EPA has tentatively scheduled a public hearing concerning CARB's request on January 14, 2015 at 10 a.m. ET. EPA will hold a hearing only if any party notifies EPA by December 15, 2014 to express interest in presenting the Agency with oral testimony. Parties that wish to present oral testimony at the public hearing should provide written notice to David Read at the email address noted below. If EPA receives a request for a public hearing, that hearing will be held at the William Jefferson Clinton Building (North), Room 5530 at 1200 Pennsylvania Ave. NW., Washington, DC 20460. If EPA does not receive a request for a public hearing, then EPA will not hold a hearing, and will instead consider CARB's request based on written submissions to the docket. Any party may submit written comments until February 16, 2015.

Any person who wishes to know whether a hearing will be held may call David Read at (734) 214–4367 on or after December 17, 2014.
