[Program Announcement 01112]

Clinical Immunization Safety Assessment Centers (CISA); Notice of Availability of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2001 funds for a cooperative agreement program for Clinical Immunization Safety Assessment Centers (CISA). The term "Immunization Safety" encompasses safety aspects of the vaccine administration process as well as the vaccine itself. This program addresses the following "Healthy People 2010" focus areas of Immunization and Infectious Diseases, Medical Product Safety, Public Health Infrastructure, Maternal, Infant and Child Health, Health Communication and Access to Quality Health Services.

The purpose of the program is to initiate the establishment of a national network of CISA Centers (hereforth called Centers) to improve the scientific understanding of Immunization Safety issues at the individual patient level. Because clinically significant adverse events occur rarely, they are infrequently seen in clinical trials and individual clinicians see them too infrequently to be able to manage them in a standardized fashion. In collaboration with CDC, the Centers will fill this gap by essentially creating a new medical specialty of Immunization Safety.

The Centers will develop and disseminate standardized clinical evaluation protocols to clinicians who may be required to apply them to a patient; they will provide referral and consultation services to health care providers on how to evaluate patients who may have had an adverse reaction to vaccination, which will include how to manage the adverse reaction, as well as advise on continued immunization; and they will undertake outreach and
