

any relatives. An unrelated individual may be the only person living in a house or apartment, or may be living in a house or apartment (or in group quarters such as a rooming house) in which one or more persons also live who are not related to the individual in question by birth, marriage, or adoption. Examples of unrelated individuals residing with others include a lodger, a foster child, a ward, or an employee.

(c) **Household.** As defined by the Bureau of the Census for statistical purposes, a household consists of all the persons who occupy a housing unit (house or apartment), whether they are related to each other or not. If a family and an unrelated individual, or two unrelated individuals, are living in the same housing unit, they would constitute two family units (see next item), but only one household. Some programs, such as the Food Stamp Program and the Low-Income Home Energy Assistance Program, employ administrative variations of the "household" concept in determining income eligibility. A number of other programs use administrative variations of the "family" concept in determining income eligibility. Depending on the precise program definition used, programs using a "family" concept would generally apply the poverty guidelines separately to each family and/or unrelated individual within a household if the household includes more than one family and/or unrelated individual.

(d) **Family Unit.** "Family unit" is not an official U.S. Bureau of the Census term, although it has been used in the poverty guidelines **Federal Register** notice since 1978. As used here, either an unrelated individual or a family (as defined above) constitutes a family unit. In other words, a family unit of size one is an unrelated individual, while a family unit of two/three/etc. is the same as a family of two/three/etc.

Note that this notice no longer provides a definition of "income." This is for two reasons. First, there is no universal administrative definition of "income" that is valid for all programs that use the poverty guidelines. Second, in the past there has been confusion regarding important differences between the statistical definition of income and various administrative definitions of "income" or "countable income." The precise definition of "income" for a particular program is very sensitive to the specific needs and purposes of that program. To determine, for example, whether or not taxes, college scholarships, or other particular types of income should be counted as "income" in determining eligibility for a specific

program, one must consult the office or organization administering the program in question; that office or organization has the responsibility for making decisions about the definition of "income" used by the program (to the extent that the definition is not already contained in legislation or regulations).

Food and Drug Administration

[Docket No. 00D-0218]

Draft "Guidance for Reviewers: Potency Limits for Standardized Dust Mite and Grass Allergen Vaccines: A Revised Protocol;" Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the availability of a draft document entitled "Guidance for Reviewers: Potency Limits for Standardized Dust Mite and Grass Allergen Vaccines: A Revised Protocol" dated January, 2000. The draft guidance document provides information on the revised release limits to be used by the Center for Biologics Evaluation and Research (CBER) for its evaluation of standardized dust mite and grass allergen vaccines submitted to CBER for lot release. The establishment of suitable potency limits for standardized allergen vaccines submitted to CBER for lot release helps to ensure the safety, purity, and potency of these products.

DATES: Written comments may be submitted at any time, however, comments should be submitted by May 15, 2000, to ensure their adequate consideration in preparation of the final document.

ADDRESSES: Submit written requests for single copies of "Guidance for Reviewers: Potency Limits for Standardized Dust Mite and Grass Allergen Vaccines: A Revised Protocol" dated January, 2000 to the Office of Communication, Training, and Manufacturers Assistance (HFM-40),
