SUPPLEMENTARY INFORMATION:

Title: New Markets Tax Credit (NMTC) Program—Allocation Application.

OMB Number: 1559–0016.

Abstract: Title I, subtitle C, section 121 of the Community Renewal Tax Relief Act of 2000 (the Act), as enacted

in the Consolidated Appropriations Act, 2001 (Pub. L. 106–554, December 21, 2000), amended the Internal Revenue Code (IRC) by adding IRC § 45D and created the NMTC Program. The Department of the Treasury, through the CDFI Fund, administers the NMTC Program, which provides an incentive to investors in the form of tax credits over seven years that stimulates private investment capital that, in turn, facilitates economic and community development in low-income communities. In order to receive the tax credit, taxpayers make Qualified Equity Investments (QEIs) in Community Development Entities (CDEs): substantially all of the QEI proceeds must in turn be used by the CDE to provide investments in businesses and real estate developments in low-income communities.

The tax credit provided to the investor totals 39 percent of the amount of the investment and is claimed over a seven-year period. In each of the first three years, the investor receives a credit equal to five percent of the total amount paid for the stock or capital interest at the time of purchase. For the final four years, the value of the credit is six percent annually. Investors may not redeem their investments in CDEs prior to the conclusion of the seven-year period without forfeiting any credit amounts they have received.
