

Use of the Information: The data collected will be used for NSF internal reports, historical data, performance review by peer site visit teams, program level studies and evaluations, and for securing future funding for continued ERC program maintenance and growth.

Estimate of Burden: 150 hours per center for 17 centers for a total of 2,550 hours.

Respondents: Academic institutions.

Estimated Number of Responses per Report: One from each of the 17 ERCs.

Dated: February 22, 2024.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2023-0104]

Information Collection: NRC Form 64, Travel Voucher

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of submission to the Office of Management and Budget; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted a request for renewal of an existing collection of information to the Office of Management and Budget (OMB) for review. The information collection is entitled, "NRC Form 64, Travel Voucher."

DATES: Submit comments by March 29, 2024. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: David Cullison, NRC Clearance Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: Infocollects.Resource@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2023-0104 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- **Federal Rulemaking Website:** Go to <https://www.regulations.gov> and search for Docket ID NRC-2023-0104.
- **NRC's Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. The supporting statement and NRC Form 64 are available under Accession Nos. ML23348A208 and ML23236A454.

- **NRC's PDR:** The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

- **NRC's Clearance Officer:** A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC's Clearance Officer, David C. Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: Infocollects.Resource@nrc.gov.

B. Submitting Comments

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not

routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "NRC Form 64, Travel Voucher." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on October 2, 2023, 88 FR 67825.

1. *The title of the information collection:* NRC Form 64, Travel Voucher.

2. *OMB approval number:* 3150-0192.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* NRC Form 64.

5. *How often the collection is required or requested:* On occasion, to apply for reimbursement for travel.

6. *Who will be required or asked to respond:* Agreement State personnel, State Liaison officers and other representatives traveling in the course of conducting business with and for the NRC. Travelers conduct reviews, inspections, attend conferences, and NRC-sponsored training.

7. *The estimated number of annual responses:* 700.

8. *The estimated number of annual respondents:* 700.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 700.

10. *Abstract:* Agreement State personnel traveling to participate in NRC-sponsored training, participate with the NRC Integrated Materials Performance Evaluation Program, and other business with the NRC, must file travel vouchers on NRC Form 64 in order to be reimbursed for their travel expenses. The information collected

includes the name, address, the amount to be reimbursed, and the traveler's signature. Travel expenses that are reimbursed are confined to those expenses essential to the transaction of official business for an approved trip.

Dated: February 23, 2024.

For the Nuclear Regulatory Commission.

David C. Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-309 and 72-30; NRC-2024-0020]

Maine Yankee Atomic Power Company; Maine Yankee Atomic Power Station; Environmental Assessment and Finding of No Significant Impact

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption in response to the March 31, 2023, request from Maine Yankee Atomic Power Company (MYAPC or Maine Yankee), for the Maine Yankee Atomic Power Station (MYAPS), located in Wiscasset, Maine. The proposed exemption from NRC regulations, if granted, would permit MYAPC to make withdrawals from a segregated account within Maine Yankee's overall nuclear decommissioning trust (NDT), on an annual basis, for spent fuel and Greater than Class C (GTCC) waste management and non-radiological site restoration without prior notification to the NRC. The NRC staff is issuing an environmental assessment (EA) and finding of no significant impact (FONSI) associated with the proposed exemption.

DATES: The EA and FONSI referenced in this document are available on February 28, 2024.

ADDRESSES: Please refer to Docket ID NRC-2024-0020 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- **Federal Rulemaking Website:** Go to <https://www.regulations.gov> and search for Docket ID NRC-2024-0020. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann;

telephone: 301-415-0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- **NRC's Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the "Availability of Documents" section.

- **NRC's PDR:** The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Tilda Liu, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 404-997-4730, email: Tilda.Liu@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

By letter dated March 31, 2023, Maine Yankee submitted a request to the NRC for an exemption from paragraphs 50.82(a)(8)(i)(A) and 50.75(h)(2) of title 10 of the *Code of Federal Regulations* (10 CFR) for the Maine Yankee Independent Spent Fuel Storage Installation (ISFSI).¹

Maine Yankee has established a separate (segregated) account within its over-arching nuclear decommissioning trust (NDT), entitled "ISFSI Radiological Decom," that identifies the funds for

¹ As discussed in the referenced EA, the Maine Yankee ISFSI sits on the former site of the Maine Yankee Atomic Power Station, which MYAPC finished decommissioning in 2005. Although only the Maine Yankee ISFSI remains on the site, Maine Yankee's 10 CFR part 50 license, Facility Operating License No. DPR-36 remains in effect. Because the MYAPC requested an exemption from the requirements of 10 CFR part 50, this would be an exemption for MYAPC's 10 CFR part 50 license rather than for MYAPC's 10 CFR part 72 general license. Therefore, although MYAPC's submission requested an exemption for the Maine Yankee ISFSI, the NRC staff will consider it a request for an exemption for the Maine Yankee Atomic Power Station.

radiological decommissioning of the ISFSI apart from the larger balance of funds in the NDT allocated for ongoing management of spent nuclear fuel and Greater than Class C (GTCC) waste and for non-radiological site restoration activities. Although 10 CFR 50.82 applies to the segregated account, it does not apply to the overall NDT.

If granted, the exemption from 10 CFR 50.82(a)(8)(i)(A) and 50.75(h)(2) would permit MYAPC to make withdrawals from the segregated account, on an annual basis, for spent fuel and GTCC waste management and non-radiological site restoration without prior notification to the NRC. More specifically, with this exemption, MYAPC would be able to annually transfer funds exceeding 110 percent of the inflation-adjusted decommissioning cost estimate, described in 10 CFR 50.75, from the segregated account to its overarching NDT and use those funds for spent fuel and GTCC waste management and non-radiological site restoration.

Maine Yankee Atomic Power Station began commercial operation in December 1972, and shut down in December 1996. Maine Yankee began decommissioning the Maine Yankee Atomic Power Station in 1998. After ceasing reactor operations, MYAPC began transferring spent nuclear fuel (SNF) from the spent fuel pool to the Maine Yankee ISFSI for long-term dry storage. MYAPC completed these activities in 2004 and completed its final decommissioning of the reactor site, except for the ISFSI, which included dismantling and removing all reactor-related facilities, in 2005. As a result, only the ISFSI remains at the old plant site of Maine Yankee Atomic Power Station in Wiscasset, Maine. By letter dated September 30, 2005 (ADAMS Package Accession No. ML052380223), the NRC issued Amendment No. 172 to Facility Operating License No. DPR-36 to allow MYAPC to possess and store SNF at the permanently shut down and decommissioned facility under the provisions of 10 CFR part 72, subpart K, "General License for Storage of Spent Fuel at Power Reactor Sites."

The NRC staff is performing both a safety evaluation and an environmental review to determine whether to grant this exemption request. The NRC staff will prepare a separate safety evaluation report (SER) to document its safety review and analysis. The NRC's SER will evaluate the proposed exemption to ensure reasonable assurance of adequate protection of public health and safety, and the common defense and security. This EA documents the environmental
