### Notice of Lodging of Proposed Consent Decree Under The Clean Air Act

On May 17, 2022, the Department of Justice lodged a proposed consent decree with the United States District Court for the Western District of Pennsylvania in the lawsuit entitled *United States and Allegheny County Health Department v. United States Steel Corporation*, Civil Action No. 2:22-cv-00729-CRE.

The United States and the Allegheny County Health Department jointly filed this lawsuit under the Clean Air Act against United States Steel Corporation, alleging violations at the Edgar Thomson steel mill in Allegheny County, Pennsylvania. The complaint seeks injunctive relief and civil penalties for exceedances of visible emissions opacity standards, as well as violations of requirements to minimize fugitive emissions, maintain and operate equipment to minimize emissions, and comply with the facility's operations and maintenance plan. The consent decree requires the defendant to perform injunctive relief to address the violations and pay a \$1,500,000 civil penalty. The civil penalty will be split evenly between the United States and the Allegheny County Health Department, which will use its portion of the civil penalty to fund a multimodal trail connection for communities near the facility.

### Agency Information Collection Activities; Proposed eCollection; eComments Requested; Extension of a Currently Approved Collection; Departmental Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

**AGENCY:** Department of Justice.

**ACTION:** 60 Day notice.

**SUMMARY:** As part of a Federal Government-wide effort to streamline the process to seek feedback from the public on service delivery, Department of Justice will be submitting a Generic Information Collection Request (Generic ICR): "Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery" to OMB for approval under the Paperwork Reduction Act (PRA).

**DATES:** The purpose of this notice is to allow 60 days for public comment until July 25, 2022.

**FOR FURTHER INFORMATION CONTACT:** If you have additional comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or

additional information, please contact Melody Braswell, Department Clearance Officer, [melody.braswell2@usdoj.gov](mailto:melody.braswell2@usdoj.gov); or the DOJ Clearance Officer at 202-307-0890.

**SUPPLEMENTARY INFORMATION:** Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

### Overview of This Collection

**Title:** Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

**Abstract:** The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful

information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Below we provide the Department of Justice's projected average estimates for the next three years:

*Current Action:* Extension.

*Type of Review:* Extension of a currently approved collection.

*Affected Public:* Individuals and Households, Businesses and Organizations, State, Local or Tribal Government.

*Average Expected Annual Number of Activities:* 42.

*Frequency of Response:* Once per request.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget control number.

If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, 3E.405B, Washington, DC 20530.
