

technical document at this meeting. To assist us in planning for this meeting, please notify us by December 1, 2008 if you are planning to attend. Persons who wish to present oral statements at the meeting should arrange with the FAA in advance for time to do this at the meeting. We should receive requests from persons who wish to present oral statements at the meeting no later than December 1, 2008. Requests to speak should include a written summary of oral remarks to be presented and an estimate of time needed for the presentation. An agenda of speakers will be available at the meeting. The names of those individuals who make their request to present oral statements after the date specified above may not appear on the written agenda. To accommodate as many speakers as possible, the amount of time allocated to each speaker may be less than the amount of time requested. Persons requiring audiovisual equipment should notify the FAA when requesting to be placed on the agenda.

Public Meeting Procedures

The FAA will use the following procedures to facilitate the meeting:

(1) There will be no admission fee or other charge to attend or to participate in the meeting. The meeting will be open to all persons who are scheduled to attend or present statements or who register between 8 a.m. and 9 a.m. on the day of the meeting. While the FAA will make every effort to accommodate all persons wishing to participate, admission will be subject to availability of space in the meeting room. Advising us in advance if you're planning to attend the meeting will help us plan for adequate room to accommodate those who wish to attend. The meeting may adjourn early if scheduled speakers complete their statements in less time than is scheduled for the meeting.

(2) An individual presenting oral remarks, whether speaking in a personal capacity or as a representative of an organization, may be limited to a 10-minute statement. If possible, we will notify the speaker if additional time is available.

(3) We will try to accommodate all speakers. If the available time does not permit this, speakers generally will be scheduled on a first-come-first-served basis. However, the FAA reserves the right to exclude some speakers if necessary to present a balance of viewpoints and issues.

(4) If you need assistance or require a reasonable accommodation for the meeting or meeting documents, please contact Annette Kovite, listed in the **FOR FURTHER INFORMATION CONTACT** section.

Sign and oral interpretation can be made available at the meeting, as well as an assistive listening device, if requested by December 1, 2008.

(5) The committee's Assistant Chair for Transport Airplane and Engine Issues will preside over the meeting. The Designated Federal Official and a panel of FAA personnel involved in this rulemaking will be present to address the technical document and questions and comments presented.

(6) The meeting will be recorded by a court reporter. A transcript of the meeting and any material accepted by the FAA representatives during the meeting will be included in the public docket. Any person who is interested in purchasing a copy of the transcript should contact the court reporter directly. Additional transcript purchase information will be available at the meeting.

(7) The FAA will review and consider all material presented by participants at the meeting. Position papers or material presenting views or arguments related to the rulemaking may be accepted at the discretion of the presiding officer and subsequently placed in the public docket. We request that persons participating in the meeting provide enough copies of all materials for distribution to the committee and FAA representatives; other copies may be provided to the audience at the discretion of the participant.

(8) Statements made by FAA representatives are intended to facilitate discussion of the issues or to clarify issues. Any statement made during the meeting by an FAA representative is not intended to be, and should not be construed as, a position of the FAA.

(9) The meeting is designed to solicit public views and gather additional information on the rulemaking. Therefore, the meeting will be conducted in an informal and non-adversarial manner. No individual will be subject to cross-examination by any other participant; however, FAA representatives may ask questions to clarify a statement and to ensure a complete and accurate record.

Persons interested in being placed on a mailing list for future NPRM's should contact the FAA's Office of Rulemaking, (202) 267-9677, to request a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

The FAA is considering an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71, which would revise Class E airspace at the Edward G. Pitka Airport, in Galena, AK. The intended effect of this proposal is to revise existing Class E airspace upward from 700 ft. and 1,200 ft. above the surface to contain Instrument Flight Rules (IFR) operations at the Edward G. Pitka Airport, Galena, AK.

The FAA Instrument Flight Procedures Production and Maintenance Branch has amended two SIAPs for the Edward G. Pitka Airport. The amended SIAPs are (1) the Area Navigation (RNAV) Global Positioning System (GPS) Runway (RWY) 7, Original, and (2) the RNAV (GPS) RWY 25, Original. Class E controlled airspace extending upward from 700 ft. and 1,200 ft. above the surface in the Edward G. Pitka Airport area would be revised by this action. The proposed airspace is sufficient in size to contain aircraft executing the instrument procedures at the Edward G. Pitka Airport, Galena, AK.

The area would be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as 700/1200 foot transition areas are published in paragraph 6005 in FAA Order 7400.9R, *Airspace Designations and Reporting Points*, signed August 15, 2007, and effective September 15, 2007, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in

Title 49 of the United States Code. Subtitle 1, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart 1, Section 40103, Sovereignty and use of airspace. Under that section, the FAA is charged with prescribing regulations to ensure the safe and efficient use of the navigable airspace. This regulation is within the scope of that authority because it proposes to create Class E airspace sufficient in size to contain aircraft executing instrument procedures at the Edward G. Pitka Airport, AK, and represents the FAA's continuing effort to safely and efficiently use the navigable airspace.

1. The authority citation for 14 CFR part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9R, *Airspace Designations and Reporting Points*, signed August 15, 2007, and effective September 15, 2007, is to be amended as follows:
