

EKPC's Proposed Action, and the subject of the Draft SEIS, is to construct and operate a 278 megawatt circulating fluidized bed electric generating unit (CFB) and associated infrastructure at the existing J.K. Smith Power Station (the Smith Site) in southern Clark County, Kentucky. In addition to the CFB unit, other components of the Proposed Action on the Smith Site include: An approximately one-mile, 345 kV electric transmission line; two (2) beneficial reuse structural fills using coal combustion by-products (CCB); two (2) landfills for the on-site disposal of CCB; an emergency drought water storage reservoir; several soil borrow areas for landfill cover and other site development uses; and a new water intake/outfall structure in the Kentucky River.

The Proposed Action is needed to provide sufficient electric generating capacity to meet the projected baseload electric power needs of EKPC's rural member distribution cooperatives in the year 2013.

As proposed, the project would impact approximately 4.8 acres of jurisdictional wetlands and 75,495 linear feet of jurisdictional streams, including 17,811 linear feet of perennial stream. The construction of the intake/outfall structure would impact the Kentucky River, a navigable waterway. A separate Public Notice has been prepared announcing these proposed "waters of the United States" impacts and the requested DA permit. Construction of the Kentucky River intake structure and the dam and reservoir would result in floodplain impacts. Measures to minimize and mitigate the proposed impacts are included in the Draft SEIS.

The USACE has determined that the construction of this undertaking (Proposed Action) would have an adverse effect on two archaeological properties determined eligible for listing in the National Register of Historic Places. The USACE has consulted with the Kentucky State Historic Preservation Officer (SHPO) in accordance with 36 CFR part 800, has invited tribes with an interest in the area to participate in government-to-government consultation, and is working with the Kentucky SHPO and other interested parties to enter into a memorandum of agreement to address mitigation of the properties that would be affected if the Proposal is implemented.

The Draft SEIS considered 17 technology alternatives; several alternatives that did not include EKPC's construction of a new baseload plant; adding capacity at an existing EKPC facility; and a number of siting

alternatives as means of responding to the identified purpose and need for the project. These alternatives were evaluated in terms of cost-effectiveness, technical feasibility, and environmental soundness. The Draft SEIS analyzes in detail the Proposal, two alternative technologies, IGCC and natural gas combined cycle, and the no action alternative.

Written comments on the Draft SEIS will be accepted for 45 days following publication of the Environmental Protection Agency's notice of availability for the Draft SEIS in the **Federal Register**. The USACE will hold a public hearing at 7 p.m. on June 8, 2010 at the Clark County Extension Service, 1400 Fortune Drive, Winchester KY 40391. The hearing will include a presentation summarizing the proposed project and the findings of the Draft SEIS. Abstract: The Gulf Coast Recovery Grant (GCRG) is a new program authorized in Public Law 111-117—the Consolidated Appropriations Act, 2010. The Act reserves \$12 million for competitive grants to provide funding to local educational agencies (LEA) in counties in Louisiana, Mississippi, and Texas that were designated by the Federal Emergency Management Agency as counties eligible for Individual Assistance due to damage caused by Hurricanes Katrina, Ike, or Gustav. Funds can be used to improve education through such activities as replacing instructional materials and equipment; paying teacher incentives; constructing, modernizing, or renovating school buildings; beginning or expanding Advanced Placement or other rigorous instructional curricula; starting or expanding charter schools, and supporting after-school or extended learning time activities.

The requirements under this grant include information collection activity covered under the Paperwork Reduction Act (PRA). The activity consists of the development of a new application for a LEA to submit to the Department to apply for FY 2010 funds.

This information collection is being submitted under the Streamlined Clearance Process for Discretionary Grant Information Collections (1894-0001). Therefore, the 30-day public comment period notice will be the only public comment notice published for this information collection.
