Extension of Time Limit for Preliminary Results

Because of the complex issues enumerated in the Memorandum from Edward C. Yang to Joseph A. Spetrini, *Extension of Time Limit for the Preliminary Results of Administrative Review of Certain Stainless Steel Sheet and Strip in Coils from Korea*, on file in the Central Records Unit (CRU) of the Main Commerce Building, Room B-099, we find that it is not practicable to complete this review by the scheduled deadline of April 2, 2001. Initiation of Investigations

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are references to the provisions codified at 19 CFR Part 351 (2000).

The Petitions

On December 7, 2000, the Department of Commerce (the Department) received petitions filed in proper form by USEC Inc., and its wholly owned subsidiary, United States Enrichment Corporation. On December 26, 2000, the Department received a letter from USEC amending the petitions to add the Paper, Allied-Industrial, Chemical and Energy Workers International Union, AFL-CIO, CLC, and Local 5-550 and Local 5-689

(collectively PACE) to the petitions as an interested party pursuant to section 771(9)(D) of the Act. In addition, PACE filed its own letter on December 26, 2000, expressing support for and joining the petitions. The Department received from petitioners information supplementing the petitions throughout the 20-day initiation period.

In accordance with section 702(b) of the Act, petitioners allege manufacturers, producers, or exporters of low enriched uranium from France, Germany, the Netherlands, and the United Kingdom received countervailable subsidies within the meaning of section 701 of the Act.

The Department finds that petitioners filed these petitions on behalf of the domestic industry because they are an interested party as defined in sections 771(9)(C) and (D) of the Act and have demonstrated sufficient industry support with respect to each of the countervailing duty investigations that they are requesting the Department to initiate (*see the Determination of Industry Support for the Petitions* section below).

Scope of Investigations

For purposes of these investigations, the product covered is low enriched uranium (LEU). LEU is enriched uranium hexafluoride (UF₆) with a U²³⁵ product assay of less than 20 percent that has not been converted into another chemical form, such as UO₂, or fabricated into nuclear fuel assemblies, regardless of the means by which the LEU is produced (including LEU produced through the down-blending of highly enriched uranium).

Certain merchandise is outside the scope of these investigations. Specifically, these investigations do not cover enriched uranium hexafluoride with a U²³⁵ assay of 20 percent or greater, also known as highly enriched uranium. In addition, fabricated LEU is not covered by the scope of these investigations. For purposes of these investigations, fabricated uranium is defined as enriched uranium dioxide (UO₂), whether or not contained in nuclear fuel rods or assemblies. Natural uranium concentrates (U₃O₈) with a U²³⁵ concentration of no greater than 0.711 percent and natural uranium concentrates converted into uranium hexafluoride with a U²³⁵ concentration of no greater than 0.711 percent are not covered by the scope of these investigations.

The merchandise subject to these investigations is classified in the Harmonized Tariff Schedule of the United States (HTSUS) at subheading 2844.20.0020. Subject merchandise may
