

The criteria by which we determine whether a SIP's motor vehicle emission budgets are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4). Please note that an adequacy review is separate from EPA's completeness review, and it also should not be used to prejudge EPA's ultimate approval of the SIP. Even if we find a budget adequate, the SIP could later be disapproved.

We've described our process for determining the adequacy of submitted SIP budgets in guidance (May 14, 1999 memo titled "Conformity Guidance on Implementation of March 2, 1999 Conformity Court Decision"). We followed this guidance in making our adequacy determination.

Adequacy Status of the Submitted 2007 Attainment Demonstration for the Ozone National Ambient Air Quality Standards for Transportation Conformity Purposes for the New York State Portion of the New York-New Jersey-Connecticut Severe Ozone Nonattainment Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy.

SUMMARY: In this notice, EPA is notifying the public that we have found that the motor vehicle emissions budgets for volatile organic compounds and nitrogen oxides in the submitted 2007 ozone attainment demonstration for the New York State portion of the New York-New Jersey-Connecticut severe nonattainment area for ozone to be adequate for conformity purposes. On March 2, 1999, the D.C. Circuit Court ruled that submitted state implementation plans (SIPs) cannot be used for conformity determinations until EPA has affirmatively found them adequate. As a result of our finding, the New York State portion of the New York-New Jersey-Connecticut severe nonattainment area for ozone can use the motor vehicle emissions budgets for volatile organic compounds and nitrogen oxides from the submitted 2007 attainment demonstration for ozone for

future conformity determinations. These budgets are effective June 26, 2000.

SUPPLEMENTARY INFORMATION:

Background

Today's notice is simply an announcement of a finding that we have already made. EPA Region 2 sent a letter to the New York State Department of Environmental Conservation on May 31, 2000 stating that the motor vehicle emissions budgets in the submitted 2007 attainment demonstration for the New York State portion of the New York-New Jersey-Connecticut severe nonattainment area for ozone are adequate for conformity purposes. This finding will also be announced on EPA's conformity website: <http://www.epa.gov/oms/traq>, (once there, click on the "Conformity" button, then look for "Adequacy Review of SIP Submissions for Conformity").

Transportation conformity is required by section 176(c) of the Clean Air Act. EPA's conformity rule requires that transportation plans, programs, and projects conform state air quality implementation plans (SIPs) and establishes the criteria and procedures for determining whether or not they do. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which we determine whether a SIP's motor vehicle emission budgets are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4). Please note that an adequacy review is separate from EPA's completeness review, and it also should not be used to prejudge EPA's ultimate approval of the SIP. Even if we find a budget adequate, the SIP could later be disapproved.

We've described our process for determining the adequacy of submitted SIP budgets in guidance (May 14, 1999 memo titled "Conformity Guidance on Implementation of March 2, 1999

Conformity Court Decision"). We followed this guidance in making our adequacy determination.
