[Project No. 15059-000]

#### Kinet, Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On December 3, 2020, Kinet, Inc., filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a conventional hydropower project located in Anderson, Woodford, and Mercer Counties, Kentucky. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed Kentucky River Lock and Dam No. 5 Hydroelectric Project would consist of the following: (1) An existing 594-foot-long, 36-foot-high, timber crib dam with concrete overlay connected to a 390-foot-long, and 38-foot-wide abandoned navigation lock, which are owned by the Kentucky River Authority; (2) a reservoir with a surface area of 448 acres and a storage capacity of 7,500 acre-feet; (3) five, proposed, 32-foot-long, 9-foot-diameter penstocks connected to five generating units with a combined capacity of 2.4 megawatts, within the existing lock; (4) a proposed powerhouse/control room adjacent to the lock; (5) a 30-foot-long by 63-foot-wide tailrace; and (6) a 175-foot-long, 12.47 kilo-Volt transmission line. The proposed project would have an estimated annual generation of 16,243 megawatt-hours.
