Under section 12A of the FRA, the FOMC is required to implement regulations relating to the

## FEDERAL RESERVE SYSTEM

### Agency Information Collection

#### Activities: Announcement of Board Approval Under Delegated Authority and Submission to OMB

**AGENCY:** Board of Governors of the Federal Reserve System.

**SUMMARY:** The Board of Governors of the Federal Reserve System (Board) is adopting a proposal to extend, for three years, with revision, the ad hoc clearance for the Survey of Household Economics and Decisionmaking (SHED) (FR 3077; OMB No. 7100–0374). The revisions are effective immediately.

**FOR FURTHER INFORMATION CONTACT:** Federal Reserve Board Clearance Officer—Nuha Elmaghrabi—Office of the Chief Data Officer, Board of Governors of the Federal Reserve System, Washington, DC 20551, (202) 452–3829.

Office of Management and Budget (OMB) Desk Officer—Shagufta Ahmed—Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, 725 17th Street NW, Washington, DC 20503, or by fax to (202) 395–6974.

A copy of the Paperwork Reduction Act (PRA) OMB submission, including the reporting form and instructions, supporting statement, and other documentation will be placed into OMB's public docket files. These documents also are available on the Federal Reserve Board's public website at <https://www.federalreserve.gov/apps/reportforms/review.aspx> or may be requested from the agency clearance officer, whose name appears above.

**SUPPLEMENTARY INFORMATION:** On June 15, 1984, OMB delegated to the Board authority under the PRA to approve and assign OMB control numbers to collections of information conducted or sponsored by the Board. Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. Copies of the PRA Submission, supporting statements, and approved collection of information instrument(s) are placed into OMB's public docket files.

Final Approval under OMB Delegated Authority of the Extension for Three Years, With Revision, of the Following Information Collection:

*Report title:* Survey of Household Economics and Decisionmaking (SHED).

*Agency form number:* FR 3077.

*OMB control number:* 7100–0374.

*Effective Date:* The revisions are effective immediately.

*Frequency:* Annually; On occasion.

*Respondents:* The Board expects that the respondents would include a nationally representative sample of non-institutionalized individuals<sup>1</sup> who are 18 years of age and older. Due to the nature of the third-party vendor's respondent pool, this sample naturally includes repeat respondents, which allows for evaluating changes in respondents' economic conditions, as well as time series analysis.

In 2019, the Board changed how respondents were selected to participate in the SHED questionnaire to more closely reflect a nationally representative sample. Thus, effective with the 2019 questionnaire, the respondent panel no longer contained a

low- and moderate-income oversample. Instead, the same number of respondents were interviewed but those respondents were drawn as a random sample of adults, rather than by attempting to sample a disproportionate share of low- and moderate-income adults. This change was made to obtain a respondent sample that more closely reflects the overall adult population and to reflect that these deviations from a nationally representative sample were no longer necessary for analyses of these populations given the current size of the SHED respondent pool.

Effective with the 2018 SHED questionnaire, the respondent panel also no longer included an explicit sample of repeat respondents. Because approximately one-fifth of the vendor's total online respondent pool for the questionnaire is already comprised of repeat respondents, a substantial fraction of questionnaire respondents are repeat respondents without the need to have an explicit repeat sample.

The Board plans to continue to sample a nationally representative pool of respondents without an oversample of low- and moderate-income individuals and without an explicit repeat sample group.

*Estimated number of respondents:* Quantitative survey, 21,500 respondents; qualitative survey, 30 respondents.

*Estimated average hours per response:* Quantitative survey, 0.35; qualitative survey, 2.

*Estimated annual burden hours:* Quantitative survey, 7,525; qualitative survey, 180.

*General description of report:* The FR 3077 questionnaire is used to collect insightful information from consumers concerning the well-being of U.S. households and how individuals and their families are faring in the economy. The collected information could be used for the Board's Report on the Economic Well-Being of U.S. Households; Board studies or working papers; professional journals; the Federal Reserve Bulletin; testimony and reports to the Congress; or other vehicles. The SHED questionnaire includes such topics as individuals' overall financial well-being, employment experiences, income and savings behaviors, economic preparedness, access to banking and credit, housing and living arrangement decisions, education and human capital, student loans, and retirement planning. The overall content of the SHED questionnaire depends on changing economic, regulatory, or legislative developments as well as changes in the financial services industry.

<sup>1</sup> Non-institutionalized individuals refers to individuals who are not inmates of institutions, such as those who are incarcerated or live in a retirement home, hospital, or other medical institution, as well as active duty military.
