SUPPLEMENTARY INFORMATION: Locations providing Post Office Box service are classified as competitive or market dominant and assigned to fee groups based upon proximity to private sector competitors and other criteria. Competitive locations provide more services than market dominant ones and

have somewhat higher fees. In May 2011, the Postal Service filed a request with the Postal Regulatory Commission (PRC) to transfer approximately 6,800 PO Box locations from market-dominant to competitive fee groups, based on a showing that sufficient competition exists when a private sector alternative exists within five miles or less. PRC Docket No. MC2011-25. Documents pertinent to that proceeding are available at www.prc.gov, Docket No. MC2011-25. At that time, the Postal Service advised the PRC that a **Federal Register** notice would be filed whenever the Postal Service subsequently updates the list of competitive locations by applying the criteria approved in that docket. Since the original filing, the Postal Service updated the list of competitive locations in 2013 to add an additional location, *see* 79 FR 60928-60929 (Oct. 2, 2013), and subsequently updated it again to add 1625 locations effective Aug. 27, 2014, *see* 79 FR 38972-38998 (July 9, 2014). Competitive Post Office Box service includes several enhancements such as: Electronic notification of the receipt of mail, use of an alternate street address format, signature on file for delivery of certain accountable mail, and additional hours of access and/or earlier availability of mail in some locations. Recently, the Postal Service re-applied the Docket No. MC2011-25 criteria to its PO Box locations and determined that an additional 237 locations (out of a total of approximately 32,788 locations) would properly be classified as competitive, based on their proximity to a private sector competitor within five miles. The Postal Service confirms that the 237 locations being reclassified meet all of the criteria that the Commission considered in Docket No. MC2011-25.

The Postal Service used WebBATS and geospatial data to identify and confirm that each post office location is within five miles of a private sector competitor. The Postal Service excluded locations with less than 250 boxes due to the "small customer base" and locations with access constraints. Communications are being sent to the identified Postmasters of the locations; and PO Box customers in the identified 237 Post Office locations will receive an email and/or letter notifying them that their PO Boxes are now competitive locations and will include the additional services. Additional internal and external communications are planned as well. A list of affected locations, with the associated ZIP Codes, is provided in the Appendix to this notice.

Joshua Hofer,*Attorney, Ethics & Legal Compliance.***Appendix****Transfer of Additional Post Office Box Locations to Competitive Fee Group—ZIP Code Listing**

The following is a list of the locations which are described in the Notice above as qualifying for reassignment from market dominant to competitive fee groups. The list is sorted by ZIP Code in ascending numerical order with geographical breaks and headers. As indicated by the column headings, this list provides the ZIP Code of the affected PO Boxes (ZIP), the office name of the location (OFFICE NAME), the city where the PO Boxes are located (CITY), the current market dominant fee group (CFG), and the new competitive fee group (NFG). Please note that there are more ZIP Codes than locations being moved to competitive fee groups, because some locations serve more than one ZIP Code. These locations can be identified whenever multiple ZIP Codes are listed for a single office name.
