

unified PEIS is desirable. The overall anticipated area of study, extending approximately 100 miles south of the Northern Border, remains the same.

CBP is continuing to review the results of the scoping process and, as described in the July 6 notice, will compile a list of comments received to be included in a scoping report. This report will be made available on the project Web site: <http://www.NorthernBorderPEIS.com> and upon written request. Written requests for the scoping report may be made via e-mail to comments@NorthernBorderPEIS.com, subject: Scoping Report, or via mail to CBP Northern Border PEIS (Scoping Report), P.O. Box 3625, McLean, Virginia, 22102. The body of the request should read, "Request a copy of the scoping report for U.S. Customs and Border Protection Northern Border PEIS." CBP anticipates the scoping report will be available in November 2010.

The information gained from the scoping process will aid CBP as it prepares the draft PEIS. This draft PEIS will be followed, after a period of public comment, with a final PEIS. CBP plans to use the information derived from the analysis in the PEIS in management, planning, and decision-making for its mission and its environmental stewardship responsibilities, as well as to establish a foundation for future impact analyses. For complete information, please see the July 6 **Federal Register** notice (75 FR 38822).
