

rules shall be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in municipal securities and municipal financial products, to remove impediments to and perfect the mechanism of a free and open market in municipal securities and municipal financial products, and, in general, to protect investors, municipal entities, obligated persons, and the public interest.<sup>46</sup>

The disclosure of material information about a transaction to investors and the performance of a meaningful suitability analysis are central to the role of a dealer in facilitating municipal securities transactions. Proposed Rule G-47, on time of trade disclosures, codifies current interpretive guidance and protects investors by requiring dealers to make disclosures to customers in connection with purchases and sales of municipal securities. These required disclosures are designed to prevent fraudulent and manipulative acts and practices by dealers, and promote just and equitable principles of trade, by requiring dealers to disclose information about a security and transaction that would be considered significant or important to a reasonable investor in making an investment decision. Similarly, the proposed revisions to Rule G-19, on suitability, further these purposes by requiring dealers and their associated persons to make only suitable recommendations to customers and fosters more efficient regulation by harmonizing the rule with FINRA's suitability rule. The proposed revisions to Rule G-19 are also aligned with a recommendation of the SEC in its 2012 Report on the Municipal Securities Market that the MSRB consider "amending Rule G-19 (suitability) in a manner generally consistent with recent amendments by FINRA to its Rule 2111, including with respect to the scope of the term 'strategy' . . . ." <sup>47</sup> The Commission believes that the proposed rule, which would require a dealer to have a reasonable basis in recommending an investment strategy, enhances investor protection. Specifically, by interpreting the term "investment strategy" broadly, the MSRB will provide important protections to investors who receive this

type of recommendation. Moreover, the Commission believes that the MSRB, through its Response, has addressed commenters' concerns, other than those it determined are outside the scope of the current proposal.

In approving the proposed rule change, the Commission has considered the proposed rule's impact on efficiency, competition and capital formation.<sup>48</sup> The Commission found significant that the proposed changes related to time-of-trade disclosure and SMMPs involve no substantive change to existing requirements. Additionally, the rule changes could ease burdens on dealers and promote competition by clarifying certain core dealer obligations and the reduced obligations when transacting business with SMMPs.

Furthermore, harmonizing MSRB Rule G-19 with the FINRA suitability rule enhances efficiency in the market by enabling those dealers that are dually registered with the MSRB and FINRA to establish and implement one suitability standard.<sup>49</sup> Although one commenter implied that further efficiency could be attained by including suitability guidance relating to 529 plans within proposed Rule G-19, the commenter did not indicate that the proposed rule created inefficiencies. Moreover, the Commission notes that the existing guidance relating to 529 plans continues to apply and understands that the MSRB may determine to propose a separate rule for 529 plans in the future.

The Commission also believes that the MSRB's Response includes certain accommodations that help promote efficiency and do not impede competition. Specifically, the MSRB's retention of its interpretative guidance and the continuing applicability of such guidance to the extent it does not conflict with any MSRB rules or interpretations provides continuity to dealers. Moreover, the MSRB's extension of the implementation period from 60 to 120 days gives additional time, if needed, for dealers to establish or modify their compliance systems.

## V. Conclusion

For the foregoing reasons, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the MSRB, and in particular, Section 15B(b)(2)(C) of the Act. The proposal will become effective 120 days following the date of this order.

*It is therefore ordered*, pursuant to Section 19(b)(2) of the Act,<sup>50</sup> that the proposed rule change (SR-MSRB-2013-07) be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>51</sup>
