

SUPPLEMENTARY INFORMATION:**I. General Information***Does this action apply to me?*

This action is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

II. What action is the Agency taking?

In its May 4, 2023 Cancellation Order for Certain Chlorpyrifos Registrations and Uses, EPA granted Adama's request to terminate food uses and the tobacco use on its three chlorpyrifos products. 88 FR 28541. That order noted that all chlorpyrifos tolerances had been revoked, and thus all use on food, sale, and distribution of existing stocks for the products identified in that order were inconsistent with the purposes of FIFRA, with the following exceptions. Use was permitted for non-food uses consistent with labeling, and existing stocks were permitted to be sold and distributed for export, proper disposal, or in accordance with return agreements approved by EPA.

In addition, on November 6, 2023, EPA granted Adama's request to terminate the food processing and food manufacturing site uses on those same three chlorpyrifos products. *See* Final Cancellation Order for Certain Chlorpyrifos Registrations and Uses, 88 FR 76213 (Nov. 6, 2023). That order contained existing stocks provisions that were similar to the provisions in the May 4, 2023 order.

Subsequent to the issuance of the May 4, 2023 and November 6, 2023 cancellation orders, the U.S. Court of Appeals for the Eighth Circuit vacated EPA's rule revoking all tolerances. (*Red River Valley Sugarbeet Growers Associations, et al. v. Regan*, 85 F.4th 881 (8th Cir. 2023). On February 5, 2024, EPA issued a **Federal Register** notice to amend the Code of Federal Regulations to reflect the court's reinstatement of those tolerances. 89 FR 7625. At this time, all the chlorpyrifos tolerances have been reinstated and are currently in effect. *See* 40 CFR 180.342. Adama requested amendments to the cancellation orders governing disposition of their existing stocks to allow for sale, distribution, and use.

Because the reinstatement of the chlorpyrifos tolerances means that

chlorpyrifos products can be used in accordance with their labeling without concern for adulterated food, EPA is amending the cancellation orders to update the existing stocks language for the following Adama products:

- Pyrinex Chlorpyrifos Insecticide (EPA Reg. No. 11678–58).
- Chlorpyrifos 4E AG (alternate brand name Quali-Pro Chlorpyrifos 4E) (EPA Reg. No. 66222–19).
- Vulcan (EPA Reg. No. 66222–223).

The registrant for all three of the listed products is Adama US, and its address is 3120 Highwoods Boulevard, Suite 100, Raleigh, NC 27604.

III. Provisions for Disposition of Existing Stocks

Existing stocks for the products identified in this document are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to May 4, 2023 (for termination of food uses and tobacco use) and prior to November 6, 2023 (for termination of food processing and food manufacturing uses).

At this time, EPA is amending the existing stocks provisions in the May 4 and November 6 cancellation orders as follows:

- Sale and distribution of existing stocks of Pyrinex Chlorpyrifos Insecticide (EPA Reg. No. 11678–58) is permitted until June 30, 2024.
- Sale and distribution of existing stocks of Chlorpyrifos 4E AG and Quali-Pro Chlorpyrifos 4E (EPA Reg. No. 66222–19) and Vulcan (EPA Reg. Nos. 66222–233) is permitted until April 30, 2025.
- Use of existing stocks of Chlorpyrifos 4E AG, Quali-Pro Chlorpyrifos 4E, and Vulcan on food, food processing sites, and food manufacturing sites must be consistent with the product labeling. Such use is permitted until June 30, 2025. Use of existing stocks Chlorpyrifos 4E AG, Quali-Pro Chlorpyrifos 4E, and Vulcan for non-food purposes is permitted until existing stocks are exhausted, as long as such use is in accordance with the labeling.

After these dates, all respective sale, distribution, and use of existing stocks is prohibited, except for sale and distribution for export consistent with FIFRA section 17 (7 U.S.C. 136o) and for proper disposal.

This document corrects that document by reaffirming the nature of all the decisions announced in that document and by closing the comment period it incorrectly established.

DATES: The comment period established in the **Federal Register** of March 7, 2024, is hereby closed on March 15, 2024.

Estimated Time per Response: 0.50-122 hours.

Frequency of Response: On occasion, one-time, and quarterly reporting requirements; third party disclosure requirements; and recordkeeping requirement.

Total Annual Burden: 22,524 hours.

Needs and Uses: Section 276 of the Communications Act, as amended (the Act), requires that the Federal Communications Commission (Commission or FCC) establish rules ensuring that payphone service providers or PSPs are “fairly compensated” for each and every completed payphone-originated call. The Commission’s Payphone Compensation Rules satisfy section 276 by identifying the party liable for compensation and establishing a mechanism for PSPs to be paid. A 2003 Report and Order (FCC 03-235) established detailed rules (Payphone Compensation Rules) ensuring that payphone service providers or PSPs are “fairly compensated” for each and every completed payphone-originated call pursuant to section 276 of the Communications Act, as amended (the Act), which the Commission revised in a 2018 Report and Order (FCC 18-21). The Payphone Compensation Rules satisfy section 276 by identifying the party liable for compensation and establishing a mechanism for PSPs to be paid. The Payphone Compensation Rules: (1) place liability to compensate PSPs for payphone-originated calls on the facilities-based long distance carriers or switch-based resellers (SBRs) from whose switches such calls are completed; (2) define these responsible carriers as “Completing Carriers” and require them to develop their own system of tracking calls to completion; (3) require Completing Carriers to file with PSPs a quarterly report and also submit an attestation by a company
