

Notices

Federal Register

Vol. 75, No. 230

Wednesday, December 1, 2010

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

AGENCY FOR INTERNATIONAL DEVELOPMENT

Bureau for Democracy, Conflict and Humanitarian Assistance; Office of Food for Peace Announcement of Request for Applications for Title II Non-Emergency Food Aid Programs; Notice

Pursuant to the Food for Peace Act of 2008, notice is hereby given that the Request for Applications for Title II Non-Emergency Food Aid Programs will be available to interested parties for general viewing.

For individuals who wish to review, the Request for Applications for Title II Non-Emergency Food Aid Programs will be available via the Food for Peace Web site: http://www.usaid.gov/our_work/humanitarian_assistance/ffp/progpolicy.html on or about December 6, 2010. Interested parties can also receive a copy of the Request for Applications for Title II Non-Emergency Food Aid Programs by contacting the Office of Food for Peace, U.S. Agency for International Development, RRB 7.06-152, 1300 Pennsylvania Avenue, NW., Washington, DC 20523-7600.

Juli Majernik,

Grants Manager, Policy and Technical Division, Office of Food for Peace, Bureau for Democracy, Conflict and Humanitarian Assistance.

DEPARTMENT OF AGRICULTURE

Forest Service

Medicine Bow-Routt National Forests and Thunder Basin National Grassland; Colorado and Wyoming; Medicine Bow-Routt National Forests and Thunder Basin National Grassland Invasive Plant Management Environmental Impact Statement

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Medicine Bow-Routt National Forests and Thunder Basin National Grassland (MBRTB) will prepare an environmental impact statement (EIS) to continue control of noxious weeds and other invasive plants through the integration of manual, mechanical, biological, and ground and aerial herbicide control methods. "Invasive species" are defined as alien species whose introduction does or is likely to cause economic or environmental harm or harm to human health (Federal Executive Order 13112). Effects analysis of treatments of invasive plants, including cheatgrass (*Bromus tectorum*) and other invasive annual bromes, will be projected over the next 10-15 years.

The agency invites comments and suggestions on the 47scope of the analysis to be included in the draft environmental impact statement (DEIS). In addition, the agency gives notice of this environmental analysis and decision making process so that interested and affected people know how they may participate and contribute to the final decision.

When developing an invasive plant management strategy it is critical to consider all available resources and tools. Integrated pest management (IPM) strategies utilize various invasive plant management options that focus on the most economical and effective control of invasive plants. Anything that weakens the invasive plant, prevents spreading, or prevents seed production can be a valuable tool. Proposed methods to control invasive plants include a combination of ground and aerial application of herbicides, mechanical, biological, and cultural weed treatments.

The MBRTB is currently treating noxious weeds and invasive plants

under decisions made in the 1996 Management of Noxious Weeds Environmental Assessment (EA). However, the EA and subsequent National Environmental Policy Act (NEPA) decisions for invasive plant control on the MBRTB need to be updated since they did not include analysis of the effects of new herbicides, new invasive plant populations, or aerial application of herbicides. This analysis will disclose the effects of the proposed treatments, including the application of an adaptive management strategy that would assess progress and alter management when adequate progress is not being achieved or as new methods of treatment are developed.

DATES: Comments concerning the scope of the analysis must be received by January 18, 2011. The draft environmental impact statement is expected May 2011 and the final environmental impact statement is expected April 2012.

ADDRESSES: Send written comments to Forest Supervisor, Medicine Bow-Routt National Forests and Thunder Basin National Grassland, 2468 Jackson Street, Laramie, Wyoming 82070. Comments may also be sent via e-mail to comments-rocky-mountain-medicine-bow-routt@fs.fed.us or via facsimile to 307-745-2398.

FOR FURTHER INFORMATION CONTACT: Direct questions about the proposed action and the EIS to Bob Mountain, Project Coordinator, 2468 Jackson Street, Laramie, Wyoming 82070, phone (307) 745-2411 or e-mail bmountain@fs.fed.us. Comments are not to be sent to this address; they need to be received as directed above.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday at 1-800-877-8339.

SUPPLEMENTARY INFORMATION: Invasive plants are threatening or dominating areas of the Medicine Bow-Routt National Forests and Thunder Basin National Grassland (MBRTB) with negative impacts on native plant communities, big game winter ranges, sage-grouse habitat, soil and watershed resources, recreation, domestic livestock forage availability and aesthetic values. A shift from native vegetation to invasive plants alters wildlife habitats, decreases wildlife and livestock forage,
