SUPPLEMENTARY INFORMATION:

I. Abstract

The Energy Policy Act of 2005 authorizes the Secretary of the Interior to provide assistance to Indian tribes for energy development and appropriates funds for such projects on a year-to-year basis. *See* 25 U.S.C. 3502. When funding is available, the Office of IEED may solicit proposals for projects for building capacity for tribal energy resource development on Indian land from Indian tribes, including Alaska Native regional and village corporations under the TEDC program. For the purposes of this program, “Indian land” includes: all land within the boundaries of an Indian reservation, pueblo, or rancheria; any land outside those boundaries that is held by the United States in trust for a tribe or individual Indian or by a tribe or individual Indian with restrictions on alienation; and land owned by an Alaska Native regional or village corporation.

Tribes may use the contracting mechanism established by the Indian Self-Determination Act or may receive the money through adjustments to their funding from the Office of Self-Governance. *See* 25 U.S.C. 450 *et seq.* Indian tribes that would like to submit a TEDC project proposal must submit an application that includes certain

information and, once funding is received, must submit reports on how they are using the funding. A complete application must contain the following elements:

- A formal signed resolution of the governing body of the tribe;
- A proposal describing the planned activities and deliverable products; and
- A detailed budget estimate, including contracted personnel costs, travel estimates, data collection and analysis costs, and other expenses.

The project proposal must include information about the tribe sufficient to allow IEED to evaluate the proposal based on the following criteria:

- (a) Energy resource potential;
- (b) Tribe's energy resource development history and current status;
- (c) Tribe's existing energy resource development capabilities;
- (d) Demonstrated willingness of the tribe to develop independent energy resource development business entity;
- (e) Intent to develop and retain energy development capacity within tribal government or business entities; and
- (f) Tribal commitment of staff, training, or monetary resources.

The IEED requires this information to ensure that it provides funding only to those projects that meet the goals of the TEDC and the purposes for which Congress provides the appropriations.

The Paperwork Reduction Act of 1995 provides an opportunity for interested parties to comment on proposed information collection requests. The IEED is proceeding with this public comment period to obtain an information collection clearance from OMB.

II. Request for Comments

The IEED requests your comments on this collection concerning: (a) The necessity of this information collection for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) The accuracy of the agency's estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) Ways we could enhance the quality, utility and clarity of the information to be collected; and (d) Ways we could minimize the burden of the collection of the information on the respondents, such as through the use of automated collection techniques or other forms of information technology.

Please note that an agency may not conduct or sponsor, and an individual need not respond to, a collection of information unless it has a valid OMB Control Number.

It is our policy to make all comments available to the public for review at the location listed in the **ADDRESSES** section. Before including your address, phone number, e-mail address or other personally identifiable information, be advised that your entire comment—including your personally identifiable information—may be made public at any time. While you may request that we withhold your personally identifiable information, we cannot guarantee that we will be able to do so.

III. Data

OMB Control Number: 1076-0XXX.
