

posting a message on their home page, or by providing media notice. Staff estimates the cost of providing notice via website posting to be \$0.08 per breached record, and the cost of providing notice via published media to be \$0.04 per breached record. Applied to the above-stated estimate of 200,000 affected consumers, the estimated total cost of website notice will be \$16,000, and the estimated total cost of media notice will be \$8,000, yielding an estimated total per-breach cost for both forms of notice to consumers of \$24,000. Annualized, this number is approximately \$9,600 per year.

Finally, staff estimates that the cost of providing a toll-free number will depend on the costs associated with T1 lines sufficient to handle the projected call volume and the cost of obtaining a toll-free telephone number. Based on industry research, staff projects that affected entities may need two T1 lines at a cost of \$1,800 for the 90-day period. In addition, staff estimates the cost of obtaining a dedicated toll-free line to be \$100 per month. Accordingly, staff projects that the cost of obtaining two toll-free lines for 90 days will be \$2,400. The total annualized cost for providing a toll-free number will be \$960.

In sum, the total annual estimate for non-labor costs associated with major breaches is \$31,056: \$14,976 (services of a forensic expert) + \$5,520 (cost of mail notifications) + \$9,600 (cost of website and media notice) + \$960 (cost of providing a toll-free number). Negligible non-labor costs are associated with single-person breaches.

The total estimated PRA annual cost burden is \$90,741 for labor costs and \$31,056 for non-labor costs, totaling approximately \$121,797.
