DEPARTMENT OF LABOR

Employment Standards Administration Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR Part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR Part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29

CFR Parts 1 and 5. Accordingly, the applicable decisions, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department.

Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3014, Washington, DC 20210.

NATIONAL COMMUNICATIONS SYSTEM

Proposed Collection; Comment Request

AGENCY: National Communications System (NCS).

ACTION: Notice.

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the National Communications System announces the proposed reinstatement of a public information collection and

seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by November 12, 2003.

ADDRESSES: Written comments and recommendations on the proposed information collection should be sent to National Communications System, Code NC3, Attn: Deborah Bea, 701 South Court House Road, Arlington, VA, 22204-2198.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the above address, or call the Office of Priority Telecommunications at 703-607-4933.

Title; Associated Forms; and OMB Number: Telecommunication Service Priority (TSP) System Revalidation for Service Users, Standard Form 314; OMB Number 0704-0305; Telecommunications Service Priority (TSP) System TSP Request for Service Users, Standard Form 315, OMB Number 0704-0305; Telecommunications Service Priority (TSP) System (TSP) Action Appeal for Service Users, Standard Form 317, OMB Number 0704-0305; Telecommunications Service Priority (TSP) System TSP Service Confirmation for Service Vendors, Standard Form 318, OMB Number 0704-10305; Telecommunications Service Priority (TSP) System TSP Service Reconciliation for Service Vendors, Standard Form 319; OMB Number 0704-0305.

Needs and Use: The Telecommunications Service Priority (TSP) System forms are used to determine participation in the TSP system, facilitate TSP system administrative requirements, and to maintain TSP system database accuracy.

Affected Public: Businesses or other for-profit institutions, not-for-profit institutions, the Federal Government, and State and local governments.

Average Burden Hours: 18,463.
Number of Respondents: 194.
Responses per Respondent: 1,198.
Average Burden per Response: 12.3 hours.

Frequency: On occasion.

SUPPLEMENTARY INFORMATION: The purpose of the TSP system is to provide a legal basis for telecommunications vendors to provide priority provisioning and restoration of telecommunications service supporting national security or emergency preparedness functions. The information gathered via the TSP system forms is the minimum necessary for the NCS to effectively manage the TSP system.

BILLING CODE 500-08-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-285]

Omaha Public Power District, Fort Calhoun Station, Unit 1; Exemption

1.0 Background

The Omaha Public Power District (the licensee) is the holder of Facility Operating License No. DPR-40 which authorizes operation of the Fort Calhoun Station, Unit 1 (FCS). The license provides, among other things, that the facility is subject to all rules, regulations, and orders of the U.S. Nuclear Regulatory Commission (NRC, the Commission) now or hereafter in effect.

The facility consists of a pressurized water reactor located in Washington County in Nebraska.

2.0 Request/Action

Title 10 of the *Code of Federal Regulations* (10 CFR), part 20, section 20.1003 states that the definition of total effective dose equivalent (TEDE) is the sum of the deep-dose equivalent (for external exposures) and the committed effective dose equivalent (for internal exposures). The proposed exemption would change the definition of TEDE to mean the sum of the effective dose equivalent or the deep-dose equivalent (for external exposures) and the committed effective dose equivalent (for internal exposures). The licensee requests the exemption because the current method of calculating TEDE, under certain conditions (such as when there is a non-uniform exposure), can significantly overestimate the dose received.
