

for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before March 3, 2014.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2013-0319, to: (1) EPA online, using www.regulations.gov (our preferred method), or by email to: docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Learia Williams, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; email address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: Owners and operators of petroleum refinery wastewater systems are required to keep records of design and operating specifications of all equipment installed to comply with such standards such as water seals, roof seals, control devices, and other equipment. This information is necessary to ensure that equipment design and operation specifications are met, and the source is in compliance with NSPS subpart QQQ.

Form Numbers: None.

Respondents/affected entities:

Petroleum refinery wastewater systems.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart QQQ)

Estimated number of respondents: 135 (total).

Frequency of response: Initially, occasionally, and semiannually

Total estimated burden: 9,237 hours (per year). "Burden" is defined at 5 CFR 1320.3(b).

Total estimated cost: \$921,126 (per year), includes \$17,550 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in the labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden. The increase in respondent and Agency costs from the most recently approved ICR is due to an adjustment in labor rates. This ICR uses updated labor rates from the Bureau of Labor Statistics to calculate burden costs.

John Moses,

Director, Collection Strategies Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9906-07-OA]

Notification of Three Public Meetings of the Chemical Assessment Advisory Committee (CAAC), the CAAC Augmented for the Review of Ammonia and the CAAC Augmented for the Review of Trimethylbenzenes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA or agency) Science Advisory Board (SAB) Staff Office announces three public meetings. The SAB Chemical Assessment Advisory Committee (CAAC) and additional experts will meet in a plenary session to learn about new enhancements to the EPA's process for developing Integrated Risk Information System (IRIS) health assessments for chemicals. After the

plenary session, there will be two concurrent panel meetings to conduct chemical-specific peer reviews. A panel composed of a subset of CAAC members augmented with subject matter experts will conduct a peer review of the EPA's IRIS *Toxicological Review of Ammonia* (August 2013 Draft). A panel composed of the remaining subset of CAAC members augmented with other subject matter experts will conduct a peer review of the EPA's *Toxicological Review of Trimethylbenzenes* (August 2013 Draft).

DATES: The plenary session will be held on Tuesday February 18, 2014 from 8:30 a.m. to 11:30 a.m. (Eastern Time). The meetings to review the two draft IRIS assessments, *Toxicological Review of Ammonia* (August 2013 Draft) and *Toxicological Review of Trimethylbenzenes* (August 2013 Draft) will be held concurrently on Tuesday February 18, 2014 from 11:30 a.m. to 5:30 p.m. (Eastern Time), Wednesday February 19, 2014 from 8:30 a.m. to 5:30 p.m. (Eastern Time) and Thursday February 20, 2014 from 8:30 a.m. to 5:30 p.m. (Eastern Time).

ADDRESSES: The meetings will be held at the Crowne Plaza Washington National Airport, 1480 Crystal Drive, Arlington, VA, 22202.

FOR FURTHER INFORMATION CONTACT: Members of the public who wish to obtain further information regarding this announcement may contact Dr. Sue Shallal, Designated Federal Officer (DFO) for the CAAC augmented for the Ammonia Review, by telephone/voice mail at (202) 564-2057 or via email at shallal.suhair@epa.gov and Mr. Thomas Carpenter, DFO for the CAAC augmented for the Trimethylbenzenes Review, by telephone/voice mail at (202) 564-4885 or via email at carpenter.thomas@epa.gov. General information concerning the EPA SAB can be found at <http://www.epa.gov/sab>.

Technical Contact for EPA's draft assessments: For information concerning the EPA draft assessments, please contact Dr. Samantha Jones, National Center for Environmental Assessment, Office of Research and Development, U.S. EPA, 1200 Pennsylvania Avenue NW., Mail Code 8601P, Washington, DC 20460, phone (703) 347-8580 or via email at jones.samantha@epa.gov.

SUPPLEMENTARY INFORMATION: *Background:* The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDDAA) codified at 42 U.S.C. 4365, to provide independent scientific and technical peer review, advice,

consultation and recommendations to the EPA Administrator on the technical basis for EPA actions. As a Federal Advisory Committee, the SAB conducts business in accordance with the Federal Advisory Committee Act (FACA) (5 U.S.C. App. 2) and related regulations. Pursuant to FACA and EPA policy, notice is hereby given that the SAB Chemical Assessment Advisory Committee (CAAC) along with additional experts will hold public meetings to: (1) Learn about the EPA's enhancements to the process for developing Integrated Risk Information System (IRIS) health assessments for chemicals and (2) to conduct peer reviews of two draft IRIS assessments, *Toxicological Review of Ammonia* (August 2013 Draft) and *Toxicological Review of Trimethylbenzenes* (August 2013 Draft). The SAB committee and panels will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

EPA's Office of Research and Development has requested that the SAB conduct peer reviews of two draft documents, *Toxicological Review of Ammonia* (August 2013 Draft) and *Toxicological Review of Trimethylbenzenes* (August 2013 Draft). The EPA SAB Staff Office augmented the SAB CAAC with subject matter experts to provide advice through the chartered SAB regarding these IRIS assessments. The SAB Staff Office previously requested public nominations of experts to serve as chemical-specific experts for these peer reviews in a **Federal Register** notice published on August 28, 2013 (78:167 pp. 53144-46). Information about the formation of the SAB CAAC augmented for the Ammonia peer review can be found on the SAB Web site at <http://yosemite.epa.gov/sab/sabproduct.nsf/02ad90b136fc21ef85256eba00436459/2fe334e0bec7a3cf85257b65005c5500b?OpenDocument&TableRow=2.1#2>. Information about the formation of the SAB CAAC augmented for the Trimethylbenzenes peer review can be found on the SAB Web site at <http://yosemite.epa.gov/sab/sabproduct.nsf/02ad90b136fc21ef85256eba00436459/ee1e280e77586de985257b65005d37e7?OpenDocument&TableRow=2.1#2>.

Prior to the beginning of their peer review activities, the augmented CAAC panels will meet in a plenary session to receive EPA briefings on the enhancements to the process for developing IRIS health assessments for chemicals.

Availability of the review materials: Information about these public meetings will be available on the SAB Web site

(<http://www.epa.gov/sab>) prior to the meetings. Meeting materials can be accessed by using the "calendar" link in the blue navigation sidebar and then clicking on the date corresponding to the meeting date.

Procedures for Providing Public Input: Public comments for consideration by EPA's federal advisory committees and panels have a different purpose from public comments provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit relevant comments pertaining to the committee's charge, meeting materials and/or the group conducting the activity. Input from the public to the SAB will have the most impact if it consists of comments that provide specific scientific or technical information or analysis for the SAB committee to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should contact the Designated Federal Officer for the relevant advisory committee directly.

Oral Statements: In general, individuals or groups requesting an oral presentation will be limited to five minutes per speaker. Interested parties wishing to provide comments regarding the IRIS process enhancements or the SAB's review of the agency's *Toxicological Review of Ammonia* (August 2013 Draft) should contact Dr. Suhair Shallal, DFO, and interested parties wishing to provide comments regarding the *Toxicological Review of Trimethylbenzenes* (August 2013 Draft) should contact Mr. Thomas Carpenter, DFO in writing (preferably via email), at the contact information noted above, by February 10, 2014 to be placed on the list of public speakers for the meeting.

Written Statements: Written statements should be received in the SAB Staff Office by February 10, 2014 so that the information can be made available to the SAB Committee for consideration. Written statements should be supplied to the appropriate DFO in electronic format via email (acceptable file formats: Adobe Acrobat PDF, WordPerfect, MS Word, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format). It is the SAB Staff Office general policy to post written comments on the Web page for the advisory meeting or teleconference. Submitters are requested to provide an unsigned version of each document

because the SAB Staff Office does not publish documents with signatures on its Web sites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB Web site. Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Sue Shallal or Mr. Thomas Carpenter at the phone number or email address noted above, preferably at least ten days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: January 23, 2014.

Christopher S. Zarba,

Director, EPA Science Advisory Board Staff Office.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control

number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before April 1, 2014. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0751.

Title: Contracts and Concessions, 47 CFR 43.51.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents/Responses: 10 respondents; 40 responses.

Estimated Time per Response: 6–8 hours.

Frequency of Response: Annual reporting requirement; on occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in 47 U.S.C. 154, 211, 219 and 220.

Total Annual Burden: 300 hours.

Annual Cost Burden: None.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: This collection will be submitted as an extension (no change in reporting or recordkeeping requirements) after this 60-day comment period to the Office of Management and Budget (OMB) in order to obtain the full three year clearance.

The Commission has determined that the authorized resale of international private lines interconnected to the U.S. public switched network would tend to divert international message telephone service (IMTS) traffic from the settlements process and increase the U.S. net settlements deficit. The information will be used by the Commission in reviewing the impact, if any, that end-user private line

interconnections have on the Commission's international settlements policy. The data will also enhance the ability of both the Commission and interested parties to monitor the unauthorized resale of international private lines that are interconnected to the U.S. public switched network.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary, Office of Managing Director.
