

parties' goals, objectives, budgets, financial plans, and related matters and income statements and sources and use of funds statements for the previous three years, and, for any contract exceeding five years or which includes a management fee of more than 30 percent, justification that the capital investment required and income projections for the gaming operation require the longer duration or the additional fee. Under 25 CFR part 535, the Chairman may approve a modification to a management contract or an assignment of that management contract based on information similar to that required under part 533. The part also specifies that the Chairman may void a previous management contract approval and allows the parties the opportunity to submit information relevant to that determination. 25 CFR part 537 specifies the requirements for submission of background information in amplification of the statutory requirement for obtaining information on persons and entities having a direct financial interest in or management responsibility for a management contract. Finally, 25 CFR part 539 permits appeals to the Commission from a decision of the Chairman to disapprove a management contract and allows the Indian tribe and the management company an opportunity to provide information relevant to that appeal. The NIGC will use the information collected to either approve or disapprove the contract or, in the case of an appeal, to grant or deny the appeal.

Estimated Burden: The reporting burden for this collection of information is estimated to be 80 hours per response for approval of a new management contract, 40 hours for approval of a management contract amendment, and 40 hours per response for an individual financial background investigation.

Estimated Annual Responses: 228.

Estimated Total Annual Burden Hours: 9,720.
