

g. To ensure fair and open competition, EPA will respond to questions submitted by e-mail up to January 20, 2005.

(12) Page 57703 Part II Section VIII. 7. Attachment should now read: All state, tribal, territorial agencies/departments and state/territorial/tribal or regional (e.g. the asthma coalition of the greater metropolitan area of Smallville) asthma coalitions who intend to apply should complete this Letter of Intent information and return it to EPA via e-mail to fletcher.bettina@epa.gov by November 15, 2004.

(13) Page 57703 Part II Section VIII. 7. Section 4 should now read: Indicate below whether your organization would like to participate in the November 30, 2004 optional Pre-proposal Assistance Call IF YOUR LETTER OF INTENT IS FOUND TO BE ELIGIBLE. Questions and answers from the November 30, 2004 Pre-proposal Assistance Call will be posted by December 7, 2004 at: <http://yosemite.epa.gov/ochp/ochpweb.nsf/content/grants.htm>.

☐ Yes, I would like to participate in the November 30, 2004 Pre-proposal Assistance Call IF my Letter of Intent is found by EPA to be eligible.

☐ No, I decline to participate in the November 30, 2004 Pre-proposal Assistance Call if my Letter of Intent is found by EPA to be acceptable.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-2004-0307; FRL-7680-6]

Chlorimuron ethyl; Tolerance Reassessment Decision for Low Risk Pesticide; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's Tolerance Reassessment Decision (TRED) for the pesticide chlorimuron ethyl, and opens

a public comment period on this document, related risk assessments, and other support documents. EPA has reviewed the low risk pesticide chlorimuron ethyl through a modified, streamlined version of the public participation process that the Agency uses to involve the public in developing pesticide tolerance reassessment and reregistration decisions. Through the tolerance reassessment program, EPA is ensuring that all pesticides meet current health and food safety standards.

DATES: Comments, identified by docket Identification number OPP-2004-0307, must be received on or before November 19, 2004.

ADDRESSES: Comments may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit I. of the **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT:

Diane Sherman, Special Review and Reregistration Division (7508C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-0128; fax number: (703) 308-8041; e-mail address: sherman.diane@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket ID number OPP-2004-0307. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information

whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket ID number.

Certain types of information will not be placed in the EPA Dockets. Information claimed as CBI and other information whose disclosure is restricted by statute, which is not included in the official public docket, will not be available for public viewing in EPA's electronic public docket. EPA's policy is that copyrighted material will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. To the extent feasible, publicly available docket materials will be made available in EPA's electronic public docket. When a document is selected from the index list in EPA Dockets, the system will identify whether the document is available for viewing in EPA's electronic public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. EPA intends to work towards providing electronic access to all of the publicly available docket materials through EPA's electronic public docket.

For public commenters, it is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EPA's electronic public docket as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. When EPA

identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EPA's electronic public docket. The entire printed comment, including the copyrighted material, will be available in the public docket.

Public comments submitted on computer disks that are mailed or delivered to the docket will be transferred to EPA's electronic public docket. Public comments that are mailed or delivered to the docket will be scanned and placed in EPA's electronic public docket. Where practical, physical objects will be photographed, and the photograph will be placed in EPA's electronic public docket along with a brief description written by the docket staff.

C. How and to Whom Do I Submit Comments?

You may submit comments electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket ID number in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments. If you wish to submit CBI or information that is otherwise protected by statute, please follow the instructions in Unit I.D. Do not use EPA Dockets or e-mail to submit CBI or information protected by statute.

1. *Electronically.* If you submit an electronic comment as prescribed in this unit, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. *EPA Dockets.* Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EPA Dockets at <http://www.epa.gov/edocket/>, and follow the online instructions for submitting comments. Once in the system, select "search," and then key in docket ID number OPP-2004-0307. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

ii. *E-mail.* Comments may be sent by e-mail to opp-docket@epa.gov, Attention: Docket ID number OPP-2004-0307. In contrast to EPA's electronic public docket, EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly to the docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

iii. *Disk or CD ROM.* You may submit comments on a disk or CD ROM that you mail to the mailing address identified in Unit I.C.2. These electronic submissions will be accepted in WordPerfect or ASCII file format. Avoid the use of special characters and any form of encryption.

2. *By mail.* Send your comments to: Public Information and Records Integrity Branch (PIRIB) (7502C), Office of Pesticide Programs (OPP), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001, Attention: Docket ID number OPP-2004-0307.

3. *By hand delivery or courier.* Deliver your comments to: Public Information and Records Integrity Branch (PIRIB), Office of Pesticide Programs (OPP), Environmental Protection Agency, Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA, Attention: Docket ID number OPP-2004-0307. Such deliveries are only accepted during the docket's normal hours of operation as identified in Unit I.B.1.

D. How Should I Submit CBI to the Agency?

Do not submit information that you consider to be CBI electronically through EPA's electronic public docket or by e-mail. You may claim information that you submit to EPA as CBI by marking any part or all of that information as CBI (if you submit CBI

on disk or CD ROM, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket and EPA's electronic public docket. If you submit the copy that does not contain CBI on disk or CD ROM, mark the outside of the disk or CD ROM clearly that it does not contain CBI. Information not marked as CBI will be included in the public docket and EPA's electronic public docket without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person listed under **FOR FURTHER INFORMATION CONTACT.**

E. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at your estimate.
5. Provide specific examples to illustrate your concerns.
6. Offer alternatives.
7. Make sure to submit your comments by the comment period deadline identified.
8. To ensure proper receipt by EPA, identify the appropriate docket ID number in the subject line on the first page of your response. It would also be helpful if you provided the name, date, and **Federal Register** citation related to your comments.

II. Background

A. What Action is the Agency Taking?

EPA has reassessed the uses of chlorimuron ethyl, reassessed two existing tolerances or legal residue limits, and reached a tolerance reassessment decision for this low risk pesticide. The Agency is issuing for comment the resulting Report on Food Quality Protection Act (FQPA) Tolerance Reassessment Progress and Risk Management Decision for Chlorimuron Ethyl, known as a TRED,

as well as the related risk assessment and technical support documents.

Chlorimuron ethyl is a sulfonylurea class herbicide that inhibits acetolactate synthase, which regulates plant growth. It is registered for use on soybeans and peanuts. Chlorimuron ethyl may be applied to soybean crops at the preplant, preemergence, postemergence, or postharvest stages and may be applied to peanut crops at the foliar stage. It may also be applied to non-crop land at the foliar stage. There are no residential uses for chlorimuron ethyl. Fifteen end-use products in water dispersible granular formulations have been identified, and one pending registration exists for a granular formulation. Based on the hazard profile and exposure assessment for chlorimuron ethyl, the Agency has determined that neither acute nor chronic aggregate dietary (including both food and drinking water) exposure is a concern. No acute dietary endpoint was identified for chlorimuron ethyl, and the chronic dietary risk estimates for the general U.S. and all population subgroups are less than 1% of the cPAD.

EPA developed the chlorimuron ethyl TRED through a modified, streamlined version of its public process for making tolerance reassessment and reregistration eligibility decisions. Through these programs, the Agency is ensuring that pesticides meet current standards under the Federal Food, Drug, and Cosmetic Act (FFDCA) and the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended by FQPA. EPA must review tolerances and tolerance exemptions that were in effect when the FQPA was enacted, to ensure that these existing pesticide residue limits for food and feed commodities meet the safety standard

established by the new law. Tolerances are considered reassessed once the safety finding has been made or a revocation occurs. EPA has reviewed and made the requisite safety finding for the chlorimuron ethyl tolerances included in this notice.

EPA is applying the principles of public participation to all pesticides undergoing reregistration and tolerance reassessment. The Agency's Pesticide Tolerance Reassessment and Reregistration; Public Participation Process, published in the **Federal Register** on May 14, 2004, explains that in conducting these programs, the Agency is tailoring its public participation process to be commensurate with the level of risk, extent of use, complexity of issues, and degree of public concern associated with each pesticide. EPA can expeditiously reach decisions for pesticides like chlorimuron ethyl, which pose no risk concerns, have low use, affect few stakeholders, and require no risk mitigation. Once EPA assesses uses and risks for such pesticides, the Agency may go directly to a decision and prepare a document summarizing its findings. The Agency therefore, is issuing the low-risk Chlorimuron Ethyl TRED, risk assessments, and related documents simultaneously for public comment.

The tolerance reassessment program is being conducted under Congressionally mandated time frames, and EPA recognizes the need both to make timely decisions and to involve the public in finding ways to effectively mitigate pesticide risks. Chlorimuron ethyl, however, poses no risks that require mitigation. The Agency therefore, is issuing the Chlorimuron Ethyl TRED, its risk assessments, and

related support documents simultaneously for public comment. The comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the TRED. All comments should be submitted using the methods in Unit I. of the **SUPPLEMENTARY INFORMATION**, and must be received by EPA on or before the closing date. These comments will become part of the Agency Docket for chlorimuron ethyl. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

EPA will carefully consider all comments received by the closing date and will provide a Response to Comments Memorandum in the Docket and electronic EDOCKET. If any comment significantly affects the document, EPA also will publish an amendment to the TRED in the **Federal Register**. In the absence of substantive comments requiring changes, the decisions reflected in the TRED will be implemented as presented. These decisions may be supplemented by further risk mitigation measures when EPA concludes its cumulative assessment of the pesticides.

B. What is the Agency's Authority for Taking this Action?

Section 408(q) of the FFDCA, 21 U.S.C. 346a(q), requires EPA to review tolerances and exemptions for pesticide residues in effect as of August 2, 1996, to determine whether the tolerance or exemption meets the requirements of section 408(b)(2) or (c)(2) of FFDCA. This review is to be completed by August 3, 2006.

BILLING CODE 6560-50-S

ENVIRONMENTAL PROTECTION AGENCY

[OPP-2003-0291; FRL-7681-7]

Tributyltin Methacrylate and Bis(tributyltin) Oxide; Product Cancellation Order; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; correction.

SUMMARY: EPA issued a notice in the **Federal Register** of March 17, 2004 (OPP-2004-0012; FRL-7346-8), announcing the cancellation of registrations for all manufacturing-use tributyltin methacrylate products used to formulate antifouling paints and one end-use tributyltin methacrylate antifouling paint registration. The notice also announced EPA's approval of amendments to terminate the use of manufacturing-use product registrations containing bis(tributyltin) oxide for formulating antifouling paints. These actions comprise the cancellation or termination of all uses of tributyltin manufacturing-use products for the formulation of antifouling paints. This notice announces amendments to the March 17, 2004 cancellation order to correct the effective date of the amendments to registrations announced in that notice.

FOR FURTHER INFORMATION CONTACT: Jill Bloom, Special Review and Reregistration Division (7508C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (703) 308-8019; e-mail address: bloom.jill@epa.gov.

SUPPLEMENTARY INFORMATION:**I. General Information***A. Does this Action Apply to Me?*

This action is directed to the public in general. Although this action may be of particular interest to persons who produce or use pesticides, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the information in this notice,

consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket identification (ID) number OPP-2003-0291. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket ID number.

II. What Does this Correction Do?

The original cancellation orders for manufacturing-use products containing tributyltin methacrylate and labeled for use in formulating antifouling paints, and for the one end-use antifouling paint product containing tributyltin methacrylate, and for approval of the amendments to terminate the use of certain manufacturing-use products containing bis(tributyltin) oxide for formulating antifouling paints were published in the **Federal Register** on March 17, 2004; OPP-2004-0012; (FRL-7346-8). Today's notice corrects statements in Units II. and IV. of that cancellation order (on pages 12657 and 12658) to amend the effective date of cancellation consistent with the registrants' requests for use termination. The effective date of the use

terminations cited in the March 17, 2004 notice was the date of publication of that notice (or March 17, 2004); the corrected effective date is April 15, 2004. The effective date of the registration cancellations where no use termination was requested remains as stated in the previous notice. The registrations affected by this correction and the effective date of the use terminations are listed in the table below.

Registrations subject to amendments to terminate the use of manufacturing-use products containing bis(tributyltin) oxide for formulating antifouling paints.

EPA Registration No.	Product Name	Effective Date of Use Terminations
5204-1	Biomet TBTO	April 15, 2004
8898-17	Eurotin TBTO	April 15, 2004

FR Doc. E4-557 published in the **Federal Register** of March 17, 2004, (69 FR 12655) (FRL-7346-8) is corrected as follows:

1. On page 12657, in the first column, the second sentence immediately following Table 2, which now reads: "The cancellations and amendments to terminate a use are effective upon the date of publication of this document," is corrected to read, "The cancellations are effective upon the date of publication of this document, and amendments to terminate a use are effective April 15, 2004."

2. On page 12658, in Unit IV.2. *Registrations amended to delete terminated uses (Table 2 in Unit II.)*, the first two sentences following the paragraph heading which now read: "The effective date of the cancellation effectuating the use terminations is the date of publication of this document. As of the date of publication of this document, Atofina and Crompton may not sell, distribute, or use the products listed in Table 2 bearing labels allowing the use which is the subject of the use termination request," are corrected to read: "The effective date of the use terminations is April 15, 2004. As of April 15, 2004, Atofina and Crompton may not sell, distribute, or use any product listed in Table 2 which bears a label allowing the use of the product for formulating antifouling paints."
