

research portfolio and will inform recommendations for future research investments and strategic direction. We will conduct 20 semi-structured, in-depth interviews by telephone that will last approximately one hour each. Three of the 20 participants are NIOSH employees and are excluded from the burden estimate. The burden estimate is based on the 17 respondents who are not NIOSH employees.

Specific topics to be addressed in the interviews will include:

- Stakeholder views on key findings from a large systematic review of WTC-related research conducted in a separate part of this evaluation.
- Adherence of WTCHP-supported research to key principles of translational research: Relevance, transparency, and usefulness of the research.
- Examples of use of the research.

- Impact of the research on program outcomes as defined by the Research-to-Care logic model.

- Opportunities for future directions for the WTCHP, which is funded through 2090.

OMB approval is requested for one year. Participation is voluntary, and there are no costs to respondents other than their time. The total estimated annualized burden is 17 hours.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Principal Investigators of WTCHP-Funded Research.	Interview Discussion Guide and Brief Demographic Survey.	4	1	1
Leadership from WTC Clinical Centers of Excellence.	Interview Discussion Guide and Brief Demographic Survey.	3	1	1
WTC Health Registry staff	Interview Discussion Guide and Brief Demographic Survey.	1	1	1
Clinicians Caring for WTCHP Members	Interview Discussion Guide and Brief Demographic Survey.	2	1	1
WTCHP Responders and Survivors (State/local govt).	Interview Discussion Guide and Brief Demographic Survey.	3	1	1
WTCHP Responders and Survivors (private citizens).	Interview Discussion Guide and Brief Demographic Survey.	4	1	1

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled Million Hearts® Hospital/Health System Recognition Program to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on April 2, 2019 to obtain comments from the public and affected agencies. CDC received one non-substantive comment. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to omb@cdc.gov. Direct written comments and/or suggestions regarding the items contained in this

notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Million Hearts® Hospital/Health System Recognition Program—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Million Hearts® is pleased to announce the upcoming launch of the Million Hearts® Hospital/Health System Recognition Program, a program that recognizes institutions working to systematically improve the cardiovascular health of the population and communities they serve through the priority areas of Keeping People Healthy, Optimizing Care, Improving Outcomes for Priority Populations, and Innovating for Health. Heart disease, stroke and other cardiovascular diseases (CVDs) kill over 800,000 Americans each year, accounting for one in every three deaths. CVD is the nation's number one killer among both men and women and the leading cause of health disparities across the population. Million Hearts®, a national, public-private initiative co-led by the Centers

for Disease Control and Prevention (CDC) and the Centers for Medicare & Medicaid Services (CMS), was established to address this issue. The Million Hearts® Hospital/Health System Recognition Program engages, equips, and supports leading clinical institutions across the country to excel in cardiovascular health and care. Hospitals and health systems are critical to population health, given their direct connection to people at risk for CVD, as

well as those who have had a cardiac or cerebrovascular event and remain at risk for having a subsequent event. Hospitals are also the largest component of the health care sector, and in total employ over 5.4 million people—the second largest source of private sector jobs. Whether migrating towards value-based reimbursement or simply striving for a significant impact in reducing the devastation of heart attacks and strokes, hospitals and health systems are

positioned to improve the health of the population they serve by implementing high-impact, evidence-based strategies. Achieving a Million Hearts® Hospital/Health System designation signals a commitment to not only clinical quality, but population health overall.

CDC is requesting approval for 297 annual burden hours. There are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Medical & Health Service Manager	Recognition Program Application	100	1	160/60
Medical & Health Service Manager	Interview Guide	60	1	30/60

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-19-1178; Docket No. CDC-2019-0065]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled Comprehensive HIV Prevention and Care for Men Who Have Sex with Men of Color. This study is designed to support state and local health departments to develop and implement demonstration projects for provision of comprehensive human immunodeficiency virus (HIV) prevention and care services for men

who have sex with men (MSM) of color by creating a collaborative with community based organizations (CBOs), clinics and other health care providers, and behavioral health and social services providers in their jurisdiction. **DATES:** CDC must receive written comments on or before October 15, 2019.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2019-0065 by any of the following methods:

- *Federal eRulemaking Portal:* *Regulations.gov.* Follow the instructions for submitting comments.
- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS-D74, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to *Regulations.gov.*

Please note: Submit all comments through the Federal eRulemaking portal (regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS-D74, Atlanta, Georgia 30329; phone: 404-639-7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct

or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

5. Assess information collection costs.

Proposed Project

Comprehensive HIV Prevention and Care for Men Who Have Sex With Men of Color (OMB Control No. 0920-1178, Exp. 4/30/2020)—Extension—National
