II. What Action is the Agency Taking?

Section 6(f)(1) of FIFRA provides that a registrant of pesticide products may at any time request that any of its pesticides registrations be cancelled. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

This notice announces receipt by the Agency of request from registrants to cancel certain product registrations. These registrations are listed in the following Table 1 by registration number, product name, and active ingredient.

TABLE 1.—REGISTRATIONS REQUESTED TO BE CANCELLED

Registration No.	Product Name	Active Ingredients
8660-85	Green Up Kerb WB 50	Pronamide
23566-17	673 Black Co-Poly Crab Pot Paint	Tributyltin methacrylate

Note: EPA companies number 8660 and 23566 have waived the 180 day comment period for registrations listed.

Users of these products who desire continued use of the products being cancelled should contact the applicable registrant before [insert date 30 days from date of publication in Federal Register] unless indicated otherwise, to discuss withdrawal of the application for amendment. This 30-day period also permits interested members of the public to intercede with the registrant prior to the Agency's approval of the deletion.

Summary of Petition

The petitioner summary of the pesticide petition is printed below as required by section 408(d)(3) of the FFDCA. The summary of the petition was prepared by the petitioner and represents the view of the petitioner. The petition summary announces the availability of a description of the analytical methods available to EPA for the detection and measurement of the pesticide chemical residues or an explanation of why no such method is needed.

Interregional Research Project Number 4

PP 5E4575

EPA has received an amended pesticide petition PP 5E4575 from Interregional Research Project Number 4 (IR-4), proposing pursuant to section 408(d) of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a(d), to amend 40 CFR 180.1206 to extend the temporary exemption from tolerance for residues of the non-aflatoxin-producing microbial pesticide *Aspergillus flavus* AF 36 in/on cotton. This amended petition is filed by IR-4, New Jersey Agricultural Experiment Station, Technology Center of New Jersey, Technology Centre of New Jersey, 681 U. S. Highway #1 South, North Brunswick, NJ 08902-3390 on behalf of the USDA/ARS Southern Regional Center, 1100 Robert E. Lee Blvd., New Orleans, LA 70179-0687. The amendment seeks to extend the current temporary exemption from tolerance to include cotton treated with *A. flavus* AF36 in 9 counties in Texas. They propose to continue trials to collect research data, in accordance with Experimental Use Permit 69224-EUP-1, in both Arizona and Texas until

December 31, 2005. (See 64 FR 8358, February 19, 1999) (FRL-6057-3)

The EUP currently allows for application of 200,000 pounds (90,179 kg) of the microbial pesticide to a total of 20,000 acres of commercial cotton fields in 5 counties in Arizona including Yuma, LaPaz, Maricopa, Mohave and Pinal counties. In addition to the 20,000 acres in AZ, they propose to apply a total of 20,000 pounds (9,018 kg) of the microbial pesticide on 2,000 acres of commercial cotton fields in 9 counties in Texas (Nueces, San Patricio, Bee, Calhoun, Jackson, Wharton, Hidalgo, Cameron, and Willacy counties).

Pursuant to section 408(d)(2)(A)(i) of the FFDCA, as amended, IR-4 and USDA ARS Southern Regional Center have submitted summaries of information, data, and arguments in support of their pesticide petition, to comply with the Food Quality Protection Act of 1996. The database was evaluated by EPA and a final rule published in the **Federal Register** on May 26, 1999 (Volume 64, Number 101) Page 28371. The temporary exemption from tolerance and the EUP were extended until December 30, 2003, as published in the **Federal Register** on May 23, 2001 (Volume 66, Number 100) Page 28383-28386. *Aspergillus flavus* AF36 is an atoxigenic strain which is proposed to displace the toxic aflatoxin-producing strains of *A. flavus* as discussed in the aforementioned final rule.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collections Approved by Office of Management and Budget

March 18, 2002.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number. For further information contact Shoko B. Hair, Federal Communications Commission, (202) 418-1379.

Federal Communications Commission

OMB Control No.: 3060-1005.

Expiration Date: 07/31/2002.

Title: Numbering Resource Optimization—Phase 3.

Form No.: N/A.

Respondents: Business or other for-profit; State, Local or Tribal Government.

Estimated Annual Burden: 53 respondents; 63.7 hour per response (avg.); 3380 total annual burden hours (for all collections under this control number).

Estimated Annual Reporting and Recordkeeping Cost Burden: \$12,000.

Frequency of Response: On occasion; Third Party Disclosure.

Description: In the Communications Act of 1934, as amended by the Telecommunications Act of 1996, the Federal Communications Commission (Commission) was given "exclusive jurisdiction over those portions of the North American Numbering Plan that pertain to the United States." Pursuant to that authority, the Commission conducted a rulemaking that, among other things, addressed regular reporting on numbering use by United States carriers. In the Third Report and Order and Second Order on Reconsideration in CC Docket No. 96-98 and CC Docket No. 99-200 (Third Report and Order), the Commission addresses the federal cost recovery mechanism, including the requirement for price cap carriers to file tariffs reflecting recovery through an exogenous recovery adjustment for a two-year period beginning April 2, 2002.

A. Reporting Requirements for Federal Cost Recovery

Section 251(e)(2) of the Act requires that "[t]he cost of establishing telecommunications numbering administration arrangements and number portability shall be borne by all telecommunications carriers on a competitively neutral basis as determined by the Commission." This statutory provision applies both to the costs of numbering administration and to the costs of Local Number Portability (LNP). In the Third Report and Order, the Commission establishes a federal cost recovery mechanism under which price cap LECs may recover their extraordinary carrier-specific costs directly related to thousands-block number pooling through an exogenous adjustment to access charges. However, because thousands-block number pooling may actually reduce network costs, in order for carriers to qualify for the exogenous adjustment to access charges, the Commission requires them to demonstrate that pooling results in a net cost increase rather than a cost reduction.
