III. Summary of Public Comments Received and Agency Response to Comments

During the public comment period provided, EPA received no comments in response to the January 6, 2010 notice announcing the Agency's receipt of the request for voluntary cancellation of the product listed in Table 1.

IV. Cancellation Order

Pursuant to FIFRA section 6(f), EPA hereby approves the requested cancellation of the maneb registration identified in Table 1. Accordingly, the Agency orders that the product registration identified in Table 1 is hereby canceled. Any distribution, sale, or use of existing stocks of the product identified in Table 1 in a manner inconsistent with any of the Provisions for Disposition of Existing Stocks set forth in Unit VI. will be considered a violation of FIFRA.

V. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its

pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Due to a delay in the publication of the section 6(f)(1) notice, dated January 6, 2010, the date allowed to sell or distribute existing stocks of the maneb technical will be changed from February 10, 2010 (as stated in the section 6(f) receipt notice) to until February 26, 2010. EPA is allowing sale, distribution and use in the cancellation order as described below.

1. The registrant will be allowed to sell or distribute existing stocks of the maneb technical product identified in Table 1, until February 26, 2010.
2. The registrant will be allowed to use existing stocks to formulate end-use products from the maneb technical product identified in Table 1, until March 10, 2010.
3. Persons other than the registrant may use the maneb end use products until exhausted. Any use of existing stocks must be in a manner consistent with the previously approved labeling for that product.

Product Cancellation Order for Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations, voluntarily requested by the registrants and

accepted by the Agency, of products containing the pesticides listed in Table 1, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows a December 18, 2009 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 1 to voluntarily cancel these product registrations. These are not the last products containing these pesticides registered for use in the United States. In the December 18, 2009 Notice (74 FR 67211), EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests within this period. The Agency did not receive any comments on the notice. Further, the registrants did not withdraw their requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective February 24, 2010.

III. Summary of Public Comments Received and Agency Response to Comments

During the public comment period provided, EPA received no comments in response to the December 18, 2009 **Federal Register** notice announcing the Agency's receipt of the requests for voluntary cancellations of products listed in Table 1.

IV. Cancellation Order

Pursuant to FIFRA section 6(f), EPA hereby approves the requested cancellations of registrations identified in Table 1. Accordingly, the Agency orders that the product registrations identified in Table 1 are hereby canceled. Any distribution, sale, or use of existing stocks of the products identified in Table 1 in a manner

inconsistent with any of the Provisions for Disposition of Existing Stocks set forth in Unit VI. will be considered a violation of FIFRA.

V. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

VI. Provisions for Disposition of Existing Stocks

EPA's existing stocks policy published in the **Federal Register** of June 26, 1991 (56 FR 29362) (FRL-3846-4) provides that: "If a registrant requests to voluntarily cancel a registration where the Agency has identified no particular risk concerns, the registrant has complied with all applicable conditions of reregistration, conditional registration, and data call ins, and the registration is not subject to a Registration Standard, Label Improvement Program, or reregistration decision, the Agency will generally permit a registrant to sell or distribute existing stocks for 1 year after the cancellation request was received. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted."

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The effective date of this cancellation is February 24, 2010. The cancellation order that is the subject of this notice includes the following existing stock provisions:

The registrant may sell and distribute existing stocks of product(s) listed in Table 1 until February 24, 2010. Persons other than the registrant may sell and distribute existing stocks of product(s) listed in Table 1 until exhausted. Use of the products listed in Table 1 may continue until existing stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled product(s).
