

implications.” “Policies that have federalism implications” is defined in the Executive Order to include regulations that have “substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.”

Under Section 6 of Executive Order 13132, we may not issue a regulation that has federalism implications, that imposes substantial direct compliance costs, and that is not required by statute, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by State and local governments, or we consult with State and local officials early in the process of developing the proposed regulation. We also may not issue a regulation that has federalism implications and that preempts State law, unless we consult with State and local officials early in the process of developing the proposed regulation.

This final rule does not have federalism implications. The rule will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132. Today’s action does not create a mandate on State, local or tribal governments. The amendments to the rule do not impose any new or additional enforceable duties on these entities. Thus, the requirements of section 6 of the Executive Order do not apply to this rule.

G. Executive Order 13045: Protection of Children From Environmental Health Risks and Safety Risks

Executive Order 13045 applies to any rule that the EPA determines (1) economically significant as defined under E.O. 12866, and (2) the environmental health or safety risk addressed by the rule has a disproportionate effect on children. If the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children and explain why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the Agency. These amendments to the State and Federal operating permits program are not subject to E.O. 13045, entitled Protection of Children from Environmental Health Risks and Safety Risks (62 FR 19885, April 23, 1997), because it is not an economically significant regulatory action as defined

by E.O. 12866, and the amendments do not address an environmental health or safety risk that would have a disproportionate effect on children.

H. Executive Order 13084: Consultation and Coordination With Indian Tribal Governments

Under Executive Order 13084, we may not issue a regulation that is not required by statute, that significantly or uniquely affects the communities of Indian tribal governments, and that imposes substantial direct compliance costs on those communities, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by the tribal governments, or EPA consults with those governments. If we comply by consulting, Executive Order 13084 requires us to provide to the Office of Management and Budget, in a separate identified section of the preamble to the rule, a description of the extent of our prior consultation with representatives of affected tribal governments, a summary of the nature of their concerns, and a statement supporting the need to issue the regulation. In addition, Executive Order 13084 requires us to develop an effective process permitting elected officials and other representatives of Indian tribal governments “to provide meaningful and timely input in the development of regulatory policies on matters that significantly or uniquely affect their communities.” These amendments to parts 70 and 71 do not significantly or uniquely affect the communities of Indian tribal governments. The amendments to the rule do not impose any new or additional enforceable duties on these entities. Accordingly, the requirements of section 3(b) of Executive Order 13084 do not apply to this action.

J. National Technology Transfer and Advancement Act

Under section 12(d) of the National Technology Transfer and Advancement Act (NTTAA), Public Law 104–113 (March 7, 1996), we are required to use voluntary consensus standards in its regulatory and procurement activities unless to do so would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., materials specifications, test methods, sampling procedures, business practices, etc.) which are adopted by voluntary consensus standard bodies. Where we do not use available and potentially applicable voluntary consensus standards, the NTTA requires us to provide Congress, through OMB,

an explanation of the reasons for not using such standards. This action does not involve technical standards. Therefore, we are not considering the use of any voluntary consensus standards.

47 CFR Part 73

[DA 01–445; MM Docket No. 99–233; RM–9662 & RM–9828]

Radio Broadcasting Services; Graham, TX

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; dismissal.

SUMMARY: Graham Tollway Broadcasting Company proposed the allotment of Channel 253A at Graham, Texas. *See* 64 FR 36322, July 6, 1999. The proposal for Graham has been withdrawn with no other interest expressed in an allotment at Graham. A counterproposal was filed by North Texas Radio Group, L.P., proposing changes at Bridgeport, Bonham, Palestine, Price, Range and Stephenville, Texas and Ardmore, Lawton, Tecumseh and Fort Towson, Oklahoma (RM–9828). Although the counterproposal was placed on public notice, it was found to be technically unacceptable and has been dismissed. Therefore, the petition and counterproposal have been dismissed, with no action taken with respect to the above-listed communities.
