SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on June 6, 2023 (88 FR 37093). No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility.
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used.
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected.
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying

information from public review, we cannot guarantee that we will be able to do so.

Abstract: This collection is authorized by Section 101(b) of the National Historic Preservation Act, as amended (54 U.S.C. 302301), which specifies the role of States, Tribes, and local governments in the Historic Preservation Program (HPP). This information collection has an impact on State, Tribal, and local governments that wish to participate formally with the National Park Service in the HPP. Information is also requested to meet grant management and monitoring responsibilities for States, Tribes, local government, and other eligible grant recipients under 54 U.S.C. 300101 *et seq.* and 2 CFR 200.

Each year Congress directs the NPS to use part of the annual appropriation from the Historic Preservation Fund (HPF) for the State grant program and the Tribal grant programs to assist States and Tribes in carrying out their statutory role in the HPP. Through competitive grant programs, Congress also directs NPS to provide financial assistance to a variety of eligible grant recipients to support the broad cultural resource mandates of the National Historic Preservation Act and for other purposes.

We use these information collections to manage our statutory partnerships and for managing grants (usually to those same partners). We are requesting to update the name of this collection from “*Procedures for State, Tribal, and Local Government Historic Preservation Programs*” to “*Procedures for State, Tribal, and Local Government Historic Preservation Programs & Management of Historic Preservation Fund Grants*.” This change is to clarify our roles in managing our statutory partnerships and competitive (project) grants and formula grants.

The information from this collection is required to determine if State, Tribal, and local governments meet minimum standards and requirements for participation in the HPP and to meet program-specific requirements as well as government-wide requirements for Federal grant programs. We propose to discontinue the HPF Online Closeout/EOY (State Sources of Non-federal Matching Share Report). The extra reporting effort is redundant and is not useful in evaluating grantee performance or compliance.

The NPS uses the information collected to ensure compliance with the National Historic Preservation Act, as well as government-wide grant requirements issued and implemented through 43 CFR 12 and 2 CFR 200.
