Background

On December 3, 1999, the Kingpin Act was signed into law by the President of the United States. The Kingpin Act provides a statutory framework for the President to impose sanctions against significant foreign narcotics traffickers and their organizations on a worldwide basis, with the objective of denying their businesses and agents access to the U.S. financial system and to the benefits of trade and transactions involving U.S. persons and entities.

The Kingpin Act blocks all property and interests in property, subject to U.S. jurisdiction, that is owned or controlled by significant foreign narcotics traffickers, as identified by the President. In addition, the Secretary of the Treasury consults with the Attorney General, the Director of the Central Intelligence Agency, the Director of the Federal Bureau of Investigation, the Administrator of the Drug Enforcement Administration, the Secretary of Defense, the Secretary of State, and the Secretary of Homeland Security when designating and blocking the property or interests in property, subject to U.S. jurisdiction, of persons or entities who are found to be: (1) Materially assisting in, or providing financial or technological support for or to, or providing goods or services in support of, the international narcotics trafficking activities of a person designated pursuant to the Kingpin Act; (2) owned, controlled, or directed by, or acting for or on behalf of, a person designated pursuant to the Kingpin Act; and/or (3) playing a significant role in international narcotics trafficking.

On October 19, 2010, OFAC removed from the SDN List the individual listed below, whose property and interests in

property were blocked pursuant to the Kingpin Act.

TENNESSEE VALLEY AUTHORITY

Final Supplemental Environmental Impact Statement, Single Nuclear Unit at the Bellefonte Plant Site, Jackson County, AL

AGENCY: Tennessee Valley Authority (TVA).

ACTION: Notice; correction.

SUMMARY: TVA published a record of decision (ROD) for the *Final Supplemental Environmental Impact Statement for a Single Nuclear Unit at the Bellefonte Plant Site* (final SEIS) on September 9, 2010. The location of the proposed nuclear plant site was stated incorrectly in the heading of the ROD.

TVA prepared the final SEIS to update the extensive environmental information and analyses that exist respecting the Bellefonte site and the construction and operation of a nuclear power plant on that site. The ROD documents the August 20, 2010, TVA Board of Directors' (TVA Board) approval to spend \$248 million for engineering, design, and licensing activities needed to maintain Unit 1 as a viable alternative to meet the projected need for base load generation on the TVA system in 2018-2020. Bellefonte Unit 1 is a partially completed 1,260-megawatt Babcock and Wilcox-designed pressurized light water reactor. It is anticipated that the TVA Board will be asked to approve completion and operation of Unit 1 next year, depending on the results of a new TVA Integrated Resource Plan, which is scheduled for completion in spring 2011.
