SUPPLEMENTARY INFORMATION:

I. Abstract

The BIA owns, operates, and maintains three electric power utilities that provide a service to the end user. The BIA also owns, operates, and maintains 15 irrigation projects that provide a service to the end user. To be able to properly bill for the services provided, the BIA must collect customer information to identify the individual responsible for repaying the government

the costs of delivering the service, and billing for those costs. Additional information necessary for providing the service is the location of the service delivery. The Debt Collection Improvement Act of 1996 (DCIA) requires that certain information be collected from individuals and businesses doing business with the government. This information includes the taxpayer identification number for possible future use to recover delinquent debt. To implement the DCIA requirement to collect customer information, the BIA has included a section concerning the collection of information in its regulations governing its electrical power utilities (25 CFR 175) and in its regulations governing its irrigation projects (25 CFR 171). A request for comments on this information collection request appeared in the **Federal Register** on May 19, 2009 (74 FR 23428). No comments were received regarding these information collections in response to the announcement.

II. Request for Comments

You are invited to send your comments on these information collections to the two locations listed in the **ADDRESSES** section. Your comments should address:

(a) The necessity of this information collection for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) The accuracy of the agency's estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used;

(c) Ways we could enhance the quality, utility and clarity of the information to be collected; and

(d) Ways we could minimize the burden of the collection of the information on the respondents, such as through the use of automated collection techniques or other forms of information technology.

Please note that an agency may not sponsor or request, and an individual need not respond to, a collection of information unless it has a valid OMB Control Number.

OMB has up to 60 days after publication of this document in the **Federal Register** to make a decision on the submission for renewal, but may make the decision after 30 days. Therefore, to receive the best consideration of your comments, you should submit them during the first 30-day period.

Before including your address, phone number, e-mail address or other

personally identifiable information, be advised that your entire comment—including your personally identifiable information—may be made public at any time. While you may request that we withhold your personally identifiable information, we cannot guarantee that we will be able to do so.
