**SUPPLEMENTARY INFORMATION:**

**Title:** Importation of Horses, Ruminants, Swine, and Dogs; Inspection and Treatment for Screwworm.

**OMB Number:** 0579-0165.

**Type of Request:** Extension of approval of an information collection.

**Abstract:** Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) regulates the importation and interstate movement of certain animals and animal products to prevent the introduction into or dissemination within the United States of pests and diseases of livestock.

The regulations in 9 CFR part 93 prohibit or restrict the importation of certain animals into the United States to prevent the introduction of communicable diseases of livestock and poultry. Subparts C, D, E, and F of the regulations govern the importation of horses, ruminants, swine, and dogs, respectively, and include provisions for the inspection and treatment of these animals if imported from any region of the world where screwworm is considered to exist. Screwworm is a pest native to tropical areas of South America, the Indian subcontinent, Southeast Asia, tropical and sub-Saharan Africa, and the Arabian peninsula. Screwworm causes extensive damage to livestock and other warmblooded animals.

These regulations involve the use of information collection activities, including an Application for Import or In Transit Permit for horses, ruminants, and swine and a certificate for horses, ruminants, swine, and dogs signed by a full-time salaried veterinary official of the exporting region stating that the animal has been inspected, under certain conditions, and found free of screwworm and, as appropriate, that the animal was treated for screwworm.

We are asking the Office of Management (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

**Estimate of burden:** The public reporting burden for this collection of information is estimated to average 0.2543103 hours per response.

**Respondents:** Full-time salaried veterinary officials of exporting regions; importers of horses, ruminants, swine, and dogs.

**Estimated annual number of respondents:** 83.

**Estimated annual number of responses per respondent:** 2.7951807.

**Estimated annual number of responses:** 232.

**Estimated total annual burden on respondents:** 59 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 28<sup>th</sup> day of May 2010.

**SUPPLEMENTARY INFORMATION:**

**Title:** Importation of Mangoes from the Philippines.

**OMB Number:** 0579-0172.

**Type of Request:** Extension of approval of an information collection.

**Abstract:** The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in "Subpart—Fruits and Vegetables" (7 CFR 319.56-1 through 319.56-50).

Under these regulations, mangoes from Guimaras Island in the Republic of

the Philippines may be imported into the United States only under certain conditions to prevent the introduction of plant pests into the United States. The regulations require information collection activities, including box labeling, phytosanitary certificates with an additional declaration, trust fund agreements, and import permits.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:
