

SUPPLEMENTARY INFORMATION: The primary purpose of the GMT working meeting is to plan the GMT's annual schedule and strategies to effectively aid the Council in managing 2003 West Coast groundfish fisheries and Council initiatives expected to arise in 2003. Additionally, the GMT will discuss groundfish management measures in place for the winter and spring months, respond to assignments relating to implementation of the Council's groundfish strategic plan, consider technical aspects of draft stock rebuilding plans and analyses, and address other assignments relating to groundfish management.

Although nonemergency issues not contained in this agenda may come before the GMT for discussion, those issues may not be the subject of formal GMT action during this meeting. GMT action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice requiring emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the GMT's intent to take final action to address the emergency.

Special Accommodations

The meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Carolyn Porter at 503-820-2280 at least 5 days prior to the meeting date.

Dated: January 13, 2003.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 011303B]

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The Pacific Fishery Management Council's (Council) Salmon Technical Team (STT) and Scientific and Statistical Committee (SSC) Salmon Subcommittee will hold a joint work session, which is open to the

public, to review proposed salmon methodology changes.

DATES: The work session will be held Wednesday, February 5, 2003, from 8:30 a.m. to 5 p.m.

ADDRESSES: The work session will be held at the Holiday Inn Portland Airport Hotel, 8439 NE Columbia Boulevard, Portland, OR 97220; (503) 256-5000.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 200, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Mr. Chuck Tracy, Staff Officer for Salmon and Pacific Halibut, Pacific Fishery Management Council; (503) 820-2280.

SUPPLEMENTARY INFORMATION: The purpose of the work session is to brief the STT and SSC on changes made to or proposed for the chinook and coho Fishery Regulation Assessment Models (FRAM), review the scientific bases for those changes, and compare results from the updated model with those from the previous version.

Although nonemergency issues not contained in the meeting agendas may come before the STT and the SSC subcommittee for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Carolyn Porter at (503) 820-2280 at least 5 days prior to the meeting date.

Dated: January 13, 2003.

BILLING CODE 3510-22-S

CONSUMER PRODUCT SAFETY COMMISSION

Submission for OMB Review; Comment Request—Flammability Standards for Children's Sleepwear

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In the **Federal Register** of October 29, 2002 (67 FR 65958), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) to announce the agency's intention to seek extension of approval of collections of information in the flammability standards for children's sleepwear and implementing regulations. No comments were received in response to that notice. By publication of this notice, the Commission announces that it has submitted to the Office of Management and Budget (OMB) a request for extension of approval of those collections of information without change for three years from the date of approval.

The standards and regulations are codified as the Flammability Standard for Children's Sleepwear: Sizes 0 Through 6X, 16 CFR part 1615; and the Flammability Standard for Children's Sleepwear: Sizes 7 Through 14, 16 CFR part 1616. The flammability standards and implementing regulations prescribe requirements for testing and recordkeeping by manufacturers and importers of children's sleepwear subject to the standards. The information in the records required by the regulations allows the Commission to determine if items of children's sleepwear comply with the applicable standard. This information also enables the Commission to obtain corrective actions if items of children's sleepwear fail to comply with the applicable standard in a manner which creates a substantial risk of injury.

Additional Information About the Request for Reinstatement of Approval of Collections of Information

Agency address: Consumer Product Safety Commission, Washington, DC 20207.

Title of information collection: Standard for the Flammability of Children's Sleepwear: Sizes 0 Through 6X, 16 CFR Part 1615; Standard for the Flammability of Children's Sleepwear: Sizes 7 Through 14, 16 CFR Part 1616.

Type of request: Extension of approval without change.

General description of respondents: Manufacturers and importers of children's sleepwear in sizes 0 through 14.

Estimated number of respondents: 53.
Estimated average number of hours per respondent: 6,000 per year.

Estimated number of hours for all respondents: 318,000 per year.

Estimated cost of collection for all respondents: \$9,550,000 per year.

Comments: Comments on this request for extension of approval of information collection requirements should be submitted by February 18, 2003, to (1) the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for CPSC, Office of Management and Budget, Washington, DC 20503; telephone: (202) 395-7340, and (2) the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207. Written comments may also be sent to the Office of the Secretary by facsimile at (301) 504-0127 or by e-mail at cpsec@cpsec.gov.

Copies of this request for extension of the information collection requirements and supporting documentation are available from Linda Glatz, Management and Program Analyst, Office of Planning and Evaluation, Consumer Product Safety Commission, Washington, DC 20207; telephone: (301) 504-0416, ext. 2226.

Dated: January 13, 2003.

Todd A. Stevenson,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-P

DEPARTMENT OF DEFENSE

Department of the Army

Armed Forces Epidemiological Board; Meeting

AGENCY: Department of the Army, DoD.

ACTION: Notice of partially-closed meeting.

SUMMARY: In accordance with section 10(a)(2) of Public Law 92-463, The Federal Advisory Committee Act, announcement is made of the following meeting:

Name of Committee: Armed Forces Epidemiological Board (AFEB).

Dates: February 18, 2003. February 19, 2003 (Partially-closed meeting).

Times: 7:30 a.m.—16:30 p.m. (February 18, 2003); 7:30 a.m.—17:30 p.m. (February 19, 2003).

Location: The Phillips Space Conference Center, Building 201, 1750 Kirtland Drive, Kirtland Air Force Base, Albuquerque, New Mexico 87117.

Agenda: The purpose of the meeting is to address pending and new Board issues, provide briefings for Board members on topics related to ongoing and new Board issues, conduct subcommittee meetings, and conduct an executive working session.

FOR FURTHER INFORMATION CONTACT: Colonel James R. Riddle, Executive

Secretary, Armed Forces Epidemiological Board, Skyline Six, 5109 Leesburg Pike, Room 682, Falls Church, Virginia 22041-3258, (703) 681-8012/3.

SUPPLEMENTARY INFORMATION: This meeting will be partially-closed to the public. Open sessions of the meeting will be limited by space accommodations. The meeting will be open to the public in accordance with Section 522b(c) of Title 5, U.S.C., specifically subparagraph 91) thereof and Title 5, U.S.C., appendix 1, subsection 10(d). Any interested person may attend, appear before or file statements with the committee at the time and in the manner permitted by the committee.

Luz D. Ortiz,

Army Federal Register Liaison Officer.

BILLING CODE 3710-08-M

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Intent To Prepare a Draft Environmental Impact Statement for the Mid-Chesapeake Bay Island, MD, Environmental Restoration Feasibility Study

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: The Baltimore District, U.S. Army Corps of Engineers (Corps) in partnership with the State of Maryland Department of Transportation, Maryland Port Administration has initiated an environmental restoration feasibility study for the restoration of island habitat in the Mid-Chesapeake Bay region. The study focuses on restoring hundreds of acres of aquatic and wildlife island habitat in the Mid-Chesapeake Bay region through the beneficial use of dredged materials from the Port of Baltimore channel system. As part of this study and in accordance with the National Environmental Policy Act (NEPA) of 1969, an Environmental Impact Statement (EIS) will be prepared to document the plan formulation process and recommendations of this study.

FOR FURTHER INFORMATION CONTACT:

Questions or information about the proposed action and draft EIS can be addressed to Ms. Michele (Mimi) Bistany, U.S. Army Corps of Engineers, ATTN: CENAB-PL, 10 South Howard Street, P.O. Box 1715, Baltimore, MD

21203-1715, telephone 410-962-4934; e-mail address: michele.a.bistany@usace.army.mil.

SUPPLEMENTARY INFORMATION: The Mid-Chesapeake Bay study area is defined by the confluence of the Chester River south to the confluence of the Potomac River with the Chesapeake Bay, Maryland.

Land subsidence, rising sea level, and wave action have caused valuable island habitats to be lost through erosion throughout the Chesapeake Bay. Through the beneficial use of dredged material, a restored island can be constructed to replace hundreds of acres of wetland and upland habitat. Therefore, the goal for this feasibility study is to restore valuable aquatic and terrestrial resting, foraging, and nursery habitat that has been lost in the Chesapeake Bay for many migratory birds, fish, and wildlife species through the beneficial use of dredged material. This habitat will afford improved productivity to the surrounding area, while providing an environmentally sound method for the use of dredged material removed from Bay channels.

Corps feasibility studies are conducted using a six-stage planning approach that incorporates the NEPA process: (1) Identify problems, opportunities, goals, and objectives; (2) Inventory baseline conditions; (3) Formulate alternatives; (4) Evaluate effects of the alternatives; (5) Compare alternatives; and (6) Select a recommended plan or set of alternative plans that are environmentally, economically, and engineering sound.

The project delivery team is actively seeking public opinion, participation, and advice to be incorporated into the planning process and the selection of an island for restoration. At this time, the islands that are under consideration within the Mid-Chesapeake Bay region include Barren, Bloodsworth, James, Holland, Lower Eastern Neck, Parson's and Sharp's islands. The team is open to any additional islands for consideration in the Mid-Bay region. As part of the initial phase of the study, an objective screening criteria will be developed based on information obtained for the State of Maryland's Dredged Material Management Program, public and agency input, available data, and best professional judgment. Following the Corps and NEPA processes, once the island is selected for restoration, a detailed analysis of the current existing conditions will be undertaken; alternative restoration plans will be developed, analyzed and compared; the impacts of those plans
