

1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Title: The Effectiveness of the Alabama Mathematics, Science and Technology Initiative (AMSTI).

Frequency: Monthly; Annually, Trainer log.

Affected Public: State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 2,233.

Burden Hours: 746.

Abstract: This study is a group randomized controlled trial by the Regional Educational Laboratory for the Southeast and its subcontractors to test the effectiveness of the Alabama Mathematics, Science and Technology Initiative (AMSTI). This study is needed so that the Alabama State Department of Education (ALSDE), following the requirements of NCLB, can make decisions about this initiative based on scientific data regarding the program's effectiveness at improving student achievement. The evidence from this experiment will be used by ALSDE and the Alabama legislature as a consideration in deciding about program continuation, expansion, and improvement.
