

the compliance times specified, unless the actions have already been done.

Inspection and Corrective Actions

(g) Within 30 days after the effective date of this AD, do a general visual inspection for missing pipes, or distortions or holes, of the fuel drain pipes of the LAPF, and if no missing pipes, distortions, and holes are found, do a general visual inspection to determine the length and part number of the drain pipe attachment screws on the LAPF on the left-hand and right-hand pylons, in accordance with the Accomplishment Instructions of Airbus Mandatory Service Bulletin A300–54A6039, Revision 01, dated March 11, 2010 (for Model A300–600 series airplanes); or A310–54A2040, Revision 02, dated June 10, 2010 (for Model A310 series airplanes).

(1) If missing pipes, distortions, or holes of the fuel drain pipes are detected during any inspection required by paragraph (g) of this AD, before further flight, replace the drain pipe, in accordance with the Accomplishment Instructions of Airbus

Mandatory Service Bulletin A300–54A6039, Revision 01, dated March 11, 2010 (for Model A300–600 series airplanes); or A310–54A2040, Revision 02, dated June 10, 2010 (for Model A310 series airplanes); or contact Airbus for repair instructions and do the repair.

(2) If screw length is outside the measurement specified in the Accomplishment Instructions of Airbus Mandatory Service Bulletin A300–54A6039, Revision 01, dated March 11, 2010 (for Model A300–600 series airplanes); or A310–54A2040, Revision 02, dated June 10, 2010 (for Model A310 series airplanes); or screws having incorrect part numbers are found during any inspection required by paragraph (g) of this AD, before further flight, replace the screws with screws having part number (P/N) NAS1102E3–10, NAS1102E3–12, or NAS560HK3–2, as applicable to location and airplane (engine) configuration, in accordance with the Accomplishment Instructions of Airbus Mandatory Service Bulletin A300–54A6039, Revision 01, dated March 11, 2010 (for Model A300–600 series

airplanes); or A310–54A2040, Revision 02, dated June 10, 2010 (for Model A310 series airplanes).

(h) As of the effective date of this AD, do not install screws on the LAPF, other than screws having P/N NAS1102E3–10, NAS1102E3–12, or NAS560HK3–2, as applicable to location and airplane (engine) configuration, in accordance with the Accomplishment Instructions of Airbus Mandatory Service Bulletin A300–54A6039, Revision 01, dated March 11, 2010 (for Model A300–600 series airplanes); or A310–54A2040, Revision 02, dated June 10, 2010 (for Model A310 series airplanes).

Credit for Actions Accomplished in Accordance with Previous Service Information

(i) Actions accomplished before the effective date of this AD in accordance with the service bulletins identified in Table 1 of this AD are considered acceptable for compliance with the corresponding actions specified in this AD.

TABLE 1—CREDIT SERVICE BULLETINS

For Model—	Airbus mandatory service bulletin—	Revision—	Dated—
A300–600 series airplanes	A300–54A6039	Original	January 19, 2010.
A310 series airplanes	A310–54A2040	Original	January 19, 2010.
A310 series airplanes	A310–54A2040	01	March 11, 2010.

No Reporting

(j) Although Airbus Mandatory Service Bulletins A300–54A6039, Revision 01, dated March 11, 2010; and A310–54A2040, Revision 02, dated June 10, 2010; specify to submit certain information to the manufacturer, this AD does not include that requirement.

FAA AD Differences

Note 1: This AD differs from the MCAI and/or service information as follows: Although the MCAI or service information tells you to submit information to the manufacturer, paragraph (j) of this AD does not require that information.

Other FAA AD Provisions

(k) The following provisions also apply to this AD:

(1) *Alternative Methods of Compliance (AMOCs):* The Manager, International Branch, ANM–116, Transport Airplane Directorate, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. Send information to *ATTN:* Dan Rodina, Aerospace Engineer, International Branch, ANM–116, Transport Airplane Directorate, FAA, 1601 Lind Avenue SW., Renton, Washington 98057–3356; telephone (425) 227–2125; fax (425) 227–1149. Before using any approved AMOC on any airplane to which the AMOC applies, notify your principal maintenance inspector (PMI) or principal avionics inspector (PAI), as appropriate, or lacking a principal inspector, your local Flight Standards District Office.

The AMOC approval letter must specifically reference this AD.

(2) *Airworthy Product:* For any requirement in this AD to obtain corrective actions from a manufacturer or other source, use these actions if they are FAA-approved. Corrective actions are considered FAA-approved if they are approved by the State of Design Authority (or their delegated agent). You are required to assure the product is airworthy before it is returned to service.

Related Information

(l) Refer to MCAI European Aviation Safety Agency Airworthiness Directive 2010–0085, dated May 3, 2010; Airbus Mandatory Service Bulletin A300–54A6039, Revision 01, dated March 11, 2010; and Airbus Mandatory Service Bulletin A310–54A2040, Revision 02, dated June 10, 2010; for related information.

Issued in Renton, Washington, on December 2, 2010.

Jeffrey E. Duven,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

[Docket No. FAA–2010–0997; Notice No. 10–14]

RIN 2120–AJ38

Safety Management System for Certificated Airports; Extension of Comment Period

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM); extension of comment period.

SUMMARY: This action extends the comment period for an NPRM that was published on October 7, 2010. In that document, the FAA proposed to require each certificate holder to establish a safety management system (SMS) for its entire airfield environment (including movement and non-movement areas) to improve safety at airports hosting air carrier operations. Several associations representing airports and other aviation industry segments have requested that the FAA extend the comment period closing date to allow time to adequately analyze the NPRM and prepare comments.

DATES: The comment period for the NPRM published on October 7, 2010, closing on January 5, 2011, is extended until March 7, 2011.

ADDRESSES: You may send comments identified by docket number FAA–2010–0997 using any of the following methods:

- **Federal eRulemaking Portal:** Go to <http://www.regulations.gov> and follow the online instructions for sending your comments electronically.

- **Mail:** Send comments to Docket Operations, M–30; U.S. Department of Transportation (DOT), 1200 New Jersey Avenue, SE., Room W12–140, West Building Ground Floor, Washington, DC 20590–0001.

- **Hand Delivery or Courier:** Take comments to Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue, SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

- **Fax:** Fax comments to Docket Operations at (202) 493–2251.

Privacy: The FAA will post all comments it receives, without change, to <http://www.regulations.gov>, including any personal information the commenter provides. Using the search function of the docket Web site, anyone can find and read the electronic form of all comments received into any FAA dockets, including the name of the individual sending the comment (or signing the comment for an association, business, labor union, etc.). DOT's complete Privacy Act Statement can be found in the **Federal Register** published on April 11, 2000 (65 FR 19477–19478), as well as at <http://DocketsInfo.dot.gov>.

Docket: Background documents or comments received may be read at <http://www.regulations.gov> at any time. Follow the online instructions for accessing the docket or go to Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue, SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:

Sean Denniston, ARM–200, Office of Rulemaking, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591, telephone (202) 267–3380; facsimile (202) 267–5075, e-mail sean.denniston@faa.gov.

SUPPLEMENTARY INFORMATION: See the **Additional Information** section for information on how to comment on this proposal and how the FAA will handle comments received. The “Additional Information” section also contains related information about the docket,

privacy, and the handling of proprietary or confidential business information. In addition, there is information on obtaining copies of related rulemaking documents.

Background

On October 7, 2010, the FAA published Notice No. 10–14, entitled “Safety Management System for Certificated Airports” (75 FR 62008). Comments to that document were to be received on or before January 5, 2011.

By a comment posted to the docket on October 13, 2010, the Experimental Aircraft Association (EAA) requested that the comment period be extended by the same number of days in which it takes the FAA to post a full list of part 139 certificated airports to the Safety Management System for Certificated Airports docket. The Airport Certification Status List was posted to the docket on October 27, 2010. Subsequently, in letters dated November 19, 2010, the Airports Council International, North America (ACI–NA) and the American Association of Airport Executives (AAAE) requested that the FAA extend the comment period for Notice No. 10–14 for 90 days. On December 2, 2010, the Clark County, Nevada Department of Aviation also requested an extension of the comment period for 90 days. All petitioners requested the extension to allow time to adequately assess the impact of the NPRM and prepare comments.

While the FAA concurs with the petitioners' requests for an extension of the comment period on Notice No. 10–14, it does not support a 90-day extension. The FAA finds that providing an additional 60 days is sufficient for commenters to analyze the NPRM and provide meaningful comment to Notice No. 10–14.

Absent unusual circumstances, the FAA does not anticipate any further extension of the comment period for this rulemaking.

Extension of Comment Period

In accordance with § 11.47(c) of title 14, Code of Federal Regulations, the FAA has reviewed the petitions made by the Experimental Aircraft Association (EAA), Airports Council International, North America (ACI–NA), the American Association of Airport Executives (AAAE), and the Clark County, Nevada Department of Aviation for extension of the comment period to Notice No. 10–14. These petitioners have shown a substantive interest in the proposed rule and good cause for the extension. The FAA has determined that extension of the comment period is consistent with the public interest, and

that good cause exists for taking this action.

Accordingly, the comment period for Notice No. 10–14 is extended until March 7, 2011.

Additional Information

A. Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. The agency also invites comments relating to the economic, environmental, energy, or federalism impacts that might result from adopting the proposals in this document. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should send only one copy of written comments, or if comments are filed electronically, commenters should submit only one time.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The agency may change this proposal in light of the comments it receives.

Proprietary or Confidential Business Information: Do not file proprietary or confidential business information in the docket. Such information must be sent or delivered directly to the person identified in the **FOR FURTHER**

INFORMATION CONTACT section of this document, and marked as proprietary or confidential. If submitting information on a disk or CD ROM, mark the outside of the disk or CD ROM, and identify electronically within the disk or CD ROM the specific information that is proprietary or confidential.

Under 14 CFR 11.35(b), when the FAA is aware of proprietary information filed with a comment, the agency does not place it in the docket. It is held in a separate file to which the public does not have access, and the FAA places a note in the docket that it has received it. If the FAA receives a request to examine or copy this information, it treats it as any other request under the Freedom of Information Act (5 U.S.C. 552). The FAA processes such a request under Department of Transportation procedures found in 49 CFR part 7.

B. Availability of Rulemaking Documents

An electronic copy of rulemaking documents may be obtained from the Internet by—

1. Searching the Federal eRulemaking Portal (<http://www.regulations.gov>);
2. Visiting the FAA's Regulations and Policies Web page at http://www.faa.gov/regulations_policies or
3. Accessing the Government Printing Office's Web page at <http://www.gpoaccess.gov/fr/index.html>.

Copies may also be obtained by sending a request to the Federal Aviation Administration, Office of Rulemaking, ARM-1, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 267-9680. Commenters must identify the docket or notice number of this rulemaking.

All documents the FAA considered in developing this proposed rule, including economic analyses and technical reports, may be accessed from the Internet through the Federal eRulemaking Portal referenced in item (1) above.

Issued in Washington, DC, on December 7, 2010.

Pamela Hamilton-Powell,

Director, Office of Rulemaking.

RIN 1400-AC77

Amendment to the International Traffic in Arms Regulations: Revision of U.S. Munitions List Category VII

AGENCY: Department of State.

ACTION: Proposed rule.

SUMMARY: As part of the President's Export Control Reform effort, the Department of State proposes to amend the International Traffic in Arms Regulations (ITAR) to revise Category VII of the U.S. Munitions List. The proposed rule would revise Category VII (tanks and military vehicles) to describe more precisely the defense articles described therein.

DATE: Effective Date: The Department of State will accept comments on this proposed rule until February 8, 2011.

ADDRESSES: Interested parties may submit comments within 60 days of the date of the publication by any of the following methods:

- *E-mail:* DDTCResponseTeam@state.gov with the subject line, "Category VII Revision."
- *Mail:* PM/DDTC, SA-1, 12th Floor, Directorate of Defense Trade Controls, Office of Defense Trade Controls Policy, ATTN: Category VII Revision, Bureau of Political Military Affairs, U.S. Department of State, Washington, DC 20522-0112.

• Persons with access to the Internet may also view this notice by searching for its RIN on the U.S. Government regulations Web site at <http://www.regulations.gov/index.cfm>.

SUPPLEMENTARY INFORMATION: The Directorate of Defense Trade Controls (DDTC), U.S. Department of State, administers the International Traffic in Arms Regulations (ITAR) (22 CFR parts 120-130). The items subject to the jurisdiction of the ITAR, *i.e.*, "defense articles," are identified on the ITAR's U.S. Munitions List (USML) (22 CFR 121.1). With few exceptions, items that are not subject to the export control jurisdiction of the ITAR are subject to the jurisdiction of the Export Administration Regulations (EAR) (15 CFR parts 730 through 774). The Bureau of Industry and Security (BIS), U.S. Department of Commerce, administers the EAR, which include the Commerce Control List (CCL) (15 CFR part 774). The descriptions in many USML categories are general and include design intent as an element of causing an item to be controlled. The

descriptions in most CCL categories are specific and generally include technical parameters as an element for causing an item to be controlled.

Export Control Reform

Both the ITAR and the EAR impose license requirements on exports and re-exports. Items not subject to the ITAR or to the exclusive licensing jurisdiction of any other set of regulations are subject to the EAR. A key part of the Administration's Export Control Reform effort is to review and revise these two lists of controlled items to enhance national security so that they: (1) Are "tiered" consistent with the criteria the U.S. Government is establishing to distinguish the types of items that should be controlled at different levels for different types of destinations, end-uses, and end-users ("Criteria"); (2) create a "bright line" between the two lists to clarify jurisdictional determinations and reduce government and industry uncertainty about whether particular items are subject to the jurisdiction of the ITAR or the EAR; and (3) are structurally "aligned" so that they later can be combined into a single list of controlled items. The Department will seek public comment on the "bright line" methodology by means of a separate **Federal Register** notice. In the process of revising the USML, articles will be screened to determine which items that are currently USML-controlled defense articles should remain on the USML, which items that are currently USML controlled defense articles could be controlled under the CCL, and which items should be subject to the EAR without a specific Export Control Classification Number (ECCN) on the CCL. This proposed rule addresses both the need for "tiering" Category VII and the need for establishing a "bright line" between the USML and the CCL so that, after application of this process to the remaining categories of the USML and meeting the statutory and other requirements of Export Control Reform, the two lists can be combined into a single list of controlled items. Prior to the completion of a single U.S. Government control list, DDTC plans to publish in the existing ITAR a final rule amending Category VII after it has reviewed and considered all comments received on this proposed rule, received interagency input and approval, and satisfied its obligations under section 38(f) of the Arms Export Control Act. The final rule to be published amending Category VII will also take in to account and adjust for internal cross-references to other USML categories that have not yet been reviewed or revised. DDTC will
