

Day	Event/activity
10	Deadline for submitting requests for access to Sensitive Unclassified Non-Safeguards Information (SUNSI) with information: Supporting the standing of a potential party identified by name and address; describing the need for the information in order for the potential party to participate meaningfully in an adjudicatory proceeding.
60	Deadline for submitting petition for intervention containing: (i) Demonstration of standing; (ii) all contentions whose formulation does not require access to SUNSI (+25 Answers to petition for intervention; +7 requestor/petitioner reply).
20	Nuclear Regulatory Commission (NRC) staff informs the requestor of the staff's determination whether the request for access provides a reasonable basis to believe standing can be established and shows need for SUNSI. (NRC staff also informs any party to the proceeding whose interest independent of the proceeding would be harmed by the release of the information.) If NRC staff makes the finding of need for SUNSI and likelihood of standing, NRC staff begins document processing (preparation of redactions or review of redacted documents).
25	If NRC staff finds no "need" or no likelihood of standing, the deadline for requestor/petitioner to file a motion seeking a ruling to reverse the NRC staff's denial of access; NRC staff files copy of access determination with the presiding officer (or Chief Administrative Judge or other designated officer, as appropriate). If NRC staff finds "need" for SUNSI, the deadline for any party to the proceeding whose interest independent of the proceeding would be harmed by the release of the information to file a motion seeking a ruling to reverse the NRC staff's grant of access.
30	Deadline for NRC staff reply to motions to reverse NRC staff determination(s).
40	(Receipt +30) If NRC staff finds standing and need for SUNSI, deadline for NRC staff to complete information processing and file motion for Protective Order and draft Non-Disclosure Affidavit. Deadline for applicant/licensee to file Non-Disclosure Agreement for SUNSI.
A	If access granted: Issuance of presiding officer or other designated officer decision on motion for protective order for access to sensitive information (including schedule for providing access and submission of contentions) or decision reversing a final adverse determination by the NRC staff.
A + 3	Deadline for filing executed Non-Disclosure Affidavits. Access provided to SUNSI consistent with decision issuing the protective order.
A + 28	Deadline for submission of contentions whose development depends upon access to SUNSI. However, if more than 25 days remain between the petitioner's receipt of (or access to) the information and the deadline for filing all other contentions (as established in the notice of hearing or opportunity for hearing), the petitioner may file its SUNSI contentions by that later deadline.
A + 53	(Contention receipt +25) Answers to contentions whose development depends upon access to SUNSI.
A + 60	(Answer receipt +7) Petitioner/Intervenor reply to answers.
>A + 60	Decision on contention admission.

NUCLEAR REGULATORY COMMISSION

[NRC-2010-0002]

Sunshine Federal Register Notice

AGENCY HOLDING THE MEETINGS: Nuclear Regulatory Commission.

DATES: Weeks of May 10, 17, 24, 31, June, 7, 14, 2010.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and closed.

Week of May 10, 2010

Tuesday, May 11, 2010

9:30 a.m. Briefing on Federal and State Materials and Environmental Management Programs (FSME) Programs, Performance, & Future Plans (Public Meeting). (Contact: George Deegan, 301-415-7834).

This meeting will be Webcast live at the Web address—<http://www.nrc.gov>.

Week of May 17, 2010—Tentative

There are no meetings scheduled for the week of May 17, 2010.

Week of May 24, 2010—Tentative

Thursday, May 27, 2010

9:30 a.m. Briefing on the Results of the Agency Action Review Meeting (AARM) (Public Meeting). (Contact: Nathan Sanfilippo, 301-415-3951.)

This meeting will be Webcast live at the Web address—<http://www.nrc.gov>.

Week of May 31, 2010—Tentative

There are no meetings scheduled for the week of May 31, 2010.

Week of June 7, 2010—Tentative

Wednesday, June 9, 2010

1:30 p.m. Meeting with the Advisory Committee on Reactor Safeguards (Public Meeting). (Contact: Cayetano Santos, 301-415-7270).

This meeting will be Webcast live at the Web address—<http://www.nrc.gov>.

Week of June 14, 2010—Tentative

There are no meetings scheduled for the week of June 14, 2010.

*The schedule for Commission meetings is subject to change on short notice. To verify the status of meetings, call (recording)—(301) 415-1292. Contact person for more information: Rochelle Baval, (301) 415-1651.

Additional Information

By a vote of 4-1 on April 29 and 30, 2010, the Commission determined pursuant to U.S.C. 552b(e) and

§ 9.107(a) of the Commission's rules to have a closed meeting—Discussion of Adjudicatory Issues (Closed—Ex. 10) on April 30, 2010, with less than one week notice to the public.

The NRC Commission Meeting Schedule can be found on the Internet at: <http://www.nrc.gov/about-nrc/policy-making/schedule.html>.

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in these public meetings, or need this meeting notice or the transcript or other information from the public meetings in another format (e.g. braille, large print), please notify Angela Bolduc, Chief, Employee/Labor Relations and Work Life Branch, at 301-492-2230, TDD: 301-415-2100, or by e-mail at angela.bolduc@nrc.gov. Determinations on requests for reasonable accommodation will be made on a case-by-case basis.

This notice is distributed electronically to subscribers. If you no longer wish to receive it, or would like to be added to the distribution, please contact the Office of the Secretary, Washington, DC 20555 (301-415-1969), or send an e-mail to darlene.wright@nrc.gov.

Dated: May 6, 2010.

Rochelle C. Bavol,

Office of the Secretary.

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0487]

Notice of Availability of the Models for Plant-Specific Adoption of Technical Specifications Task Force Traveler TSTF-493, Revision 4, "Clarify Application of Setpoint Methodology for LSSS Functions"

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of Availability.

SUMMARY: The NRC is announcing the availability of model applications (with model no significant hazards consideration determinations) and model safety evaluations (SEs) of the options for plant-specific adoption of Technical Specifications Task Force (TSTF) Traveler TSTF-493, Revision 4, "Clarify Application of Setpoint Methodology for LSSS Functions." TSTF-493, Revision 4, and an errata sheet are available in the Agencywide Documents Access and Management System (ADAMS) under Accession Numbers ML100060064 and ML101160026, respectively. The proposed changes revise Standard Technical Specifications (TSs) with respect to limiting safety system settings (LSSSs) assessed during periodic testing and calibration of instrumentation that may have an adverse effect on equipment operability. This model SEs will facilitate expedited approval of plant-specific adoption of TSTF-493, Revision 4.

Documents: You can access publicly available documents related to this notice using the following methods:

NRC's Public Document Room (PDR): The public may examine and have copied for a fee publicly available documents at the NRC's PDR, Public File Area O1 F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland.

NRC's Agencywide Documents Access and Management System (ADAMS): Publicly available documents created or received at the NRC are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this page, the public can gain entry into ADAMS, which provides text and image files of NRC's public documents. If you do not have access to ADAMS or if there are

problems in accessing the documents located in ADAMS, contact the NRC's PDR reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr.resource@nrc.gov.

The model applications (with model no significant hazards consideration determinations) and model SEs of the options for plant-specific adoption of TSTF-493, Revision 4, are available electronically under ADAMS Accession Numbers: ML100710442 and ML100710443. The NRC staff disposition of comments received to the Notice of Opportunity for Comment announced in the **Federal Register** on November 10, 2009 (74 FR 58065-58067), is available electronically under ADAMS Accession Number ML100780154.

Federal Rulemaking Website: Public comments received and supporting materials related to this notice can be found at <http://www.regulations.gov> by searching on Docket ID: NRC-2009-0487.

FOR FURTHER INFORMATION CONTACT: Mr. Carl S. Schulten, Senior Reactor Systems Engineer, Technical Specifications Branch, Mail Stop: O-7 C2A, Division of Inspection and Regional Support, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC, 20555-0001; telephone 301-415-1192 or e-mail at carl.schulten@nrc.gov or Ms. Michelle C. Honcharik, Senior Project Manager, Licensing Processes Branch, Mail Stop: O-12 D1, Division of Policy and Rulemaking, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone 301-415-1774 or e-mail at michelle.honcharik@nrc.gov.

SUPPLEMENTARY INFORMATION:

TSTF-493, Revision 4, is applicable to all nuclear power reactors. Licensees opting to apply for this TS change are responsible for reviewing the NRC staff's model SE, referencing the applicable technical justifications, and providing any necessary plant-specific information. The NRC will process each amendment application responding to this notice of availability according to applicable NRC rules and procedures.

The models do not prevent licensees from requesting an alternate approach or proposing changes other than those proposed in TSTF-493, Revision 4. However, significant deviations from the approach recommended in this notice or the inclusion of additional changes to the license require additional NRC staff review. This may increase the time and resources needed for the review or result in NRC staff rejection of

the license amendment request (LAR). Licensees desiring significant deviations or additional changes should instead submit an LAR that does not claim to adopt TSTF-493, Revision 4.

The NRC staff requests that each licensee applying for the changes proposed in TSTF-493, Revision 4, include documentation regarding the following in their LAR:

Adoption of TSTF-493, Option A With Changes to Setpoint Values

- The licensee must propose to add footnotes to the applicable functions identified in TSTF-493, Revision 4, Appendix A.
- The licensee must provide summary calculations for the revised setpoints as documentation of the plant-specific instrument setpoint methodology for Option A. This includes the calculation basis for the Limiting Trip Setpoint (LTSP), Nominal Trip Setpoint (NTSP), Allowable Value (AV), As-Found Tolerance band, and As-Left Tolerance band, for each change to an automatic protection instrumentation function setpoint value. If multiple similar setpoints are proposed to be revised, a summary calculation for each type of setpoint being changed may be submitted instead of calculations for individual Functions, provided the LAR contains a reasoned quantitative or qualitative analysis, as appropriate, of how the summary calculation(s) represent the type of setpoint values proposed to be changed.

Adoption of TSTF-493, Option A Without Changes to Setpoint Values

- The licensee must add footnotes to all the functions identified in TSTF-493, Revision 4, Appendix A. No changes to any setpoint values are proposed. Since no setpoint changes are being proposed, there is no need to provide the setpoint methodology for review or to provide any full or summary calculations.

Adoption of TSTF-493 With Option B—the Setpoint Control Program Option

- The licensee must provide the plant-specific evaluation for the list of instrument Functions that are described in Setpoint Control Program (SCP) TS 5.5.[18] Paragraph a.
- The licensee must provide the content and application of the plant-specific setpoint methodology required by the SCP TS 5.5.[18] Paragraph b. This includes the calculation basis for the LTSP, NTSP, AV, As-Found Tolerance band, and As-Left Tolerance band for each automatic protection instrumentation function. The licensee must also describe the program methods
