Approximately \$10,000,000 in federal funds will be made available over the next five to six fiscal years. Of that amount, about \$500,000 is expected to be available in fiscal year 2002 to fund one to two awards for the first budget year of the cooperative agreements stemming from this solicitation. DOE anticipates that Phase One of the award will run for approximately two budget periods and will include feasibility assessment, detailed conceptual design, field studies, and environmental approvals. Phase Two will involve construction and testing of the EGS. Phase Three is to construct permanent surface facilities including a power plant. Phase Four is to monitor reservoir and plant performance. During each phase, the Awardee must provide minimum non-federal cost share in the amounts specified as follows: Phase One—20%; Phase Two—40%; Phase Three—80%; Phase Four—100%. Only those who own, have valid leases, or legal access to unproductive geothermal properties in the U. S. and are capable of providing the necessary cost-share may submit proposals. Third party consulting groups may be part of the project team, but they are not eligible to submit proposals. National laboratories will not be eligible for an award under this solicitation. [Docket No. GP02-1-000]

Bowers Drilling Company, Inc.; Notice of Petition for Adjustment

February 14, 2002.

Take notice that on January 3, 2002, Bowers Drilling Company, Inc. (Bowers) filed a petition for adjustment under section 502(c) of the Natural Gas Policy Act of 1978 (NGPA),¹ requesting relief from its obligation to pay Kansas ad valorem tax refunds to Williams Gas Pipelines Central, Inc. (Williams) for the period from 1983 to 1988, as required by the Commission's September 10, 1997 order in Docket No. RP97-369-000, et al.² Bowers' petition is on file with the Commission and open to public inspection.

Bowers' request for relief is based on a March 17, 1992 take-or-pay settlement agreement with Williams. Bowers asserts the settlement agreement includes a release from all claims regarding its contracts with Williams, for all periods prior to 1992, including any Federal Energy Regulatory Commission claims arising out of, or in conjunction with, or relating to its contracts with Williams. In view of this, and because the claim for Kansas ad valorem tax reimbursement was taken into account when Bowers agreed to the settlement amount, Bowers contends that granting relief is warranted.

Any person desiring to be heard or to protest said petition should on or before 15 days after the date of publication in the **Federal Register** of this notice, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.1105 and 385.1106). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to
