

The users of the public employment and payroll program data include Federal agencies, state and local governments and related organizations, public interest groups, and many business, market, and private research organizations.

II. Method of Collection

Approximately 104,000 state agencies, county governments, consolidated city-county governments, independent cities, towns, townships, special district governments, and public school systems designated for the 2012 Census of Governments: Employment Component will either be sent an appropriate form or their data will be collected through a data sharing arrangement between the Census Bureau and the government unit. Approximately 20,800 government units will be sent a form or collected through data sharing arrangements for the 2013 Annual Survey of Public Employment & Payroll.

The Census Bureau developed central collection agreements with state and large local government officials to collect the data from their dependent agencies and report to us as a central respondent. These arrangements eliminate the need for a mail canvass of approximately 3,480 state agencies and 620 school systems. The agreements reduce burden by greatly reducing the number of people who have to complete a form as the data are pulled from a centralized source instead of from multiple sources. Currently, the Census Bureau has central collection agreements with forty-five states, four local school district governments, and ten local governments. The Census Bureau continues to expand the conversion of paper submissions into electronic formats, for both individual units and central collection units.

All form types can be completed on the Internet. For the 2007 Census, approximately 24 percent responded using the Census Bureau's Web site. For the 2010 annual survey, approximately 45 percent of the governments sampled responded using the Census Bureau's Web site.

III. Data

OMB Control Number: 0607-0452.

Form Number: E-1, E-2, E-3, E-4, E-5, E-6, E-7, E-9.

Type of Review: Regular submission.

Affected Public: State, Tribal, or local governments.

Estimated Number of Respondents: 58,572.

Estimated Time per Response: The average for all forms is 49 minutes.

Estimated Total Annual Burden Hours: 47,904.

Estimated Total Annual Cost:

\$1,161,709.

Respondents Obligation: Voluntary.

Legal Authority: Title 13 U.S.C. Section 161 & 182.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: July 26, 2011.

Glenna Mickelson,

Management Analyst, Office of the Chief Information Officer.

Bureau of Industry and Security

Materials Technical Advisory Committee; Notice of Partially Closed Meeting

The Materials Technical Advisory Committee will meet on August 11, 2011, 10 a.m., Herbert C. Hoover Building, Room 3884, 14th Street between Constitution & Pennsylvania Avenues, NW., Washington, DC. The Committee advises the Office of the Assistant Secretary for Export Administration with respect to technical questions that affect the level of export controls applicable to materials and related technology.

Agenda

Open Session

1. Opening Remarks by the Chairman and Introduction.
2. Remarks from the Bureau of Industry and Security Management.
3. Industry Presentations.
4. New Business.

Closed Session

5. Discussion of matters determined to be exempt from the provisions relating to public meetings found in 5 U.S.C. app. 2 10(a)(1) and 10(a)(3).

The open session will be accessible via teleconference to 20 participants on a first come, first serve basis. To join the conference, submit inquiries to Ms. Yvette Springer at Yvette.Springer@bis.doc.gov no later than August 4, 2011.

A limited number of seats will be available during the public session of the meeting. Reservations are not accepted. To the extent time permits, members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting. However, to facilitate distribution of public presentation materials to Committee members, the materials should be forwarded prior to the meeting to Ms. Springer via e-mail.

The Assistant Secretary for Administration, with the concurrence of the delegate of the General Counsel, formally determined on September 27, 2010, pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended, that the portion of the meeting dealing with matters the premature disclosure of which would likely frustrate the implementation of a proposed agency action as described in 5 U.S.C. 552b(c)(9)(B) shall be exempt from the provisions relating to public meetings found in 5 U.S.C. app. 2 10(a)(1) and 10(a)(3). The remaining portions of the meeting will be open to the public.

For more information, call Yvette Springer at (202) 482-2813.

Dated: July 21, 2011.

Yvette Springer,

Committee Liaison Officer.

Polyethylene Terephthalate Film, Sheet and Strip From the United Arab Emirates: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* July 29, 2011.

FOR FURTHER INFORMATION CONTACT: Andrew Huston or Jun Jack Zhao,

Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-4261 and (202) 482-1396, respectively.

Background

On December 28, 2010, the Department of Commerce (the Department) published the initiation of an administrative review of the antidumping duty order on polyethylene terephthalate film, sheet and strip from the United Arab Emirates (UAE) for the period November 01, 2009, through October 31, 2010. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 75 FR 81565, 81570 (December 28, 2010). This review covers one producer and/or exporter of the subject merchandise to the United States: JBF RAK LLC (JBF).

Extension of Time Limit for the Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), and section 351.213(h)(1) of the Department's regulations require the Department to issue the preliminary results of a review within 245 days after the last day of the anniversary month of the order or suspension agreement for which the administrative review was requested, and final results of the review within 120 days after the date on which the notice of the preliminary results is published in the **Federal Register**. However, if the Department determines that it is not practicable to complete the review within the aforementioned specified time limits, section 751(a)(3)(A) of the Act and section 351.213(h)(2) of the Department's regulations allow the Department to extend the 245-day period to 365 days and to extend the 120-day period to 180 days.

The Department requires additional time to evaluate the questionnaire responses from JBF in order to conduct a thorough analysis of all information on the record, in particular the claimed sample sales and JBF's product matching issues. Therefore, the Department finds that it is not practicable to complete the preliminary results of this review by the original deadline of August 2, 2011, and is extending the deadline for completion of the preliminary results of this administrative review from 245 days to 365 days. The revised deadline for the preliminary results of this administrative review is now no later than November 30, 2011.

This notice is issued and published pursuant to sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: July 21, 2011.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Final Results of Antidumping Duty Changed Circumstances Review: Carbon and Certain Alloy Steel Wire Rod From Mexico

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Final Results of Antidumping Duty Changed Circumstances Review: Carbon and Certain Alloy Steel Wire Rod from Mexico.

SUMMARY: On November 3, 2010, the Department of Commerce (Department) published its *Notice of Initiation and Preliminary Results of Antidumping Duty Changed Circumstances Review: Carbon and Certain Alloy Steel Wire Rod from Mexico*, 75 FR 67685 (November 3, 2010) (*Initiation and Preliminary Results Notice*) and preliminarily determined that ArcelorMittal las Truchas, S.A. de C.V. (AMLT) operated as the same business entity as Siderurgica Iazaro Cardenas las Truchas S.A. de C.V. (Sicartsa) for purposes of determining antidumping duty liability. We received comments from interested parties. Based on our analysis, we are now affirming our preliminary results.

DATES: *Effective Date:* July 29, 2011.

FOR FURTHER INFORMATION CONTACT: John Conniff, Office of AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-1009.

Background

On November 3, 2010, the Department published its *Initiation and Preliminary Results Notice*. On April 29, 2011, the Department received case briefs from Nucor Corporation (Nucor) and Gerdau Ameristeel US Inc. and Evraz Rocky Mountain Steel (petitioners) and AMLT. On May 6, 2011, the Department received a rebuttal brief from Nucor and on May 9, 2011, AMLT filed a rebuttal

brief as well. Petitioners did not submit a rebuttal brief.

Scope of the Order

The merchandise subject to this order is certain hot-rolled products of carbon steel and alloy steel, in coils, of approximately round cross section, 5.00 mm or more, but less than 19.00 mm in solid cross-sectional diameter.

Specifically excluded are steel products possessing the above-noted physical characteristics and meeting the Harmonized Tariff Schedule of the United States (HTSUS) definitions for (a) stainless steel; (b) tool steel; (c) high nickel steel; (d) ball bearing steel; and (e) concrete reinforcing bars and rods. Also excluded are (f) free machining steel products (*i.e.*, products that contain by weight one or more of the following elements: 0.03 percent or more of lead, 0.05 percent or more of bismuth, 0.08 percent or more of sulfur, more than 0.04 percent of phosphorus, more than 0.05 percent of selenium, or more than 0.01 percent of tellurium).

Also excluded from the scope are 1080 grade tire cord quality wire rod and 1080 grade tire bead quality wire rod. This grade 1080 tire cord quality rod is defined as: (i) Grade 1080 tire cord quality wire rod measuring 5.0 mm or more but not more than 6.0 mm in cross-sectional diameter; (ii) with an average partial decarburization of no more than 70 microns in depth (maximum individual 200 microns); (iii) having no non-deformable inclusions greater than 20 microns and no deformable inclusions greater than 35 microns; (iv) having a carbon segregation per heat average of 3.0 or better using European Method NFA 04-114; (v) having a surface quality with no surface defects of a length greater than 0.15 mm; (vi) capable of being drawn to a diameter of 0.30 mm or less with 3 or fewer breaks per ton, and (vii) containing by weight the following elements in the proportions shown: (1) 0.78 percent or more of carbon, (2) less than 0.01 percent of aluminum, (3) 0.040 percent or less, in the aggregate, of phosphorus and sulfur, (4) 0.006 percent or less of nitrogen, and (5) not more than 0.15 percent, in the aggregate, of copper, nickel and chromium.

This grade 1080 tire bead quality rod is defined as: (i) Grade 1080 tire bead quality wire rod measuring 5.5 mm or more but not more than 7.0 mm in cross-sectional diameter; (ii) with an average partial decarburization of no more than 70 microns in depth (maximum individual 200 microns); (iii) having no non-deformable inclusions greater than 20 microns and no deformable inclusions greater than 35
