[B-53-2020]

Foreign-Trade Zone (FTZ) 82—Mobile, Alabama Authorization of Production Activity; Aker Solutions, Inc. (Subsea Oil and Gas Systems), Mobile, Alabama

On August 7, 2020, Aker Solutions, Inc., submitted a notification of proposed production activity to the FTZ Board for its facility within FTZ 82, in Mobile, Alabama.

The notification was processed in accordance with the regulations of the FTZ Board (15 CFR part 400), including notice in the **Federal Register** inviting public comment (85 FR 50802, August 18, 2020). On December 7, 2020, the applicant was notified of the FTZ Board's decision that no further review of the activity is warranted at this time. The production activity described in the notification was authorized, subject to the FTZ Act and the FTZ Board's regulations, including Section 400.14.

Dated: December 7, 2020.

Andrew McGilvray,
Executive Secretary.

[Docket No. 201120-0309]

RIN 0694-XC067

Notice of Request for Public Comments by the Titanium Sponge Working Group

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Notice of request for public comments.

SUMMARY: In March of 2019, the Secretary initiated an investigation under Section 232 of the Trade Expansion Act of 1962, as amended, to determine the effects on the national security from imports of titanium sponge. In February of 2020, the President issued a memorandum concurring with the Secretary's findings that titanium sponge imports threatened to impair U.S. national security. The President's concurrence also agreed that actions to adjust imports under Section 232, such as tariffs, should not be taken at this time and established an interagency working group. The work of the Titanium Sponge Working Group has proceeded in exploring measures to ensure access to titanium sponge in the United States for use for national defense and in critical industries during an emergency, and at this time the Bureau of Industry and Security (BIS) is seeking public comments to better inform the deliberations of the working group.

DATES: The due date for filing original comments is January 11, 2021. The due date for rebuttal comments is January 25, 2021. Rebuttal comments may only address issues raised in the original comment it is filed under, which was filed on or before January 11, 2021.

ADDRESSES: *Submissions:* All written comments on the notice must be addressed to the Titanium Sponge Working Group and filed through the Federal eRulemaking Portal: <http://www.regulations.gov>. To submit comments via <http://www.regulations.gov>, enter docket number BIS-2020-0037 on the home page and click "search." The site will provide a search results page listing all documents associated with this docket. Find a reference to this notice and click on the link entitled "Comment Now!" (For further information on using <http://www.regulations.gov>, please consult the resources provided on the website by clicking on "How to Use This Site.")

SUPPLEMENTARY INFORMATION:

Background

On March 4, 2019, in response to a petition, the Secretary initiated an investigation under Section 232 of the Trade Expansion Act of 1962, as amended (19 U.S.C. 1862), to determine the effects on the national security from imports of titanium sponge. This petition led the Bureau of Industry and Security (BIS) to publish a *Notice of Request for Public Comments on Section 232 National Security Investigation of Imports of Titanium Sponge* on March 8, 2019 (84 FR 8503). The March 8, 2019 notice requested comments specific to the status of the titanium sponge industrial base in the United States. While the comments received were pertinent, several developments have occurred since the end of that notice period that warrant this notice of request for additional comments.

On November 29, 2019, the Secretary transmitted to the President a report on the Section 232 investigation in which he found that titanium sponge imports threatened to impair the national security, and stated that there is a risk of the United States being completely dependent on imports of titanium sponge and could therefore lack surge capacity required to support defense and critical industries needs in an extended national emergency. On February 27, 2020, the President issued a memorandum regarding the Section 232 investigation into whether imports of titanium sponge threatened to impair the national security. The President concurred with the Secretary's finding that imports of titanium sponge threatened to impair U.S. national security, and also agreed with the Secretary's recommendation that he not take actions to adjust imports under Section 232 at that time. Instead, the President directed the Secretaries of Commerce and Defense to form a working group, along with other executive departments and agencies that they deemed appropriate, to develop recommended actions.

The Titanium Sponge Working Group (TSWG), established at the President's direction, consists of the following permanent members: The Departments of Commerce, Defense, Interior, and State, which are joined by rotating members from other U.S. Government agencies as needed. The goal of the TSWG is to reach interagency agreement on measures needed to ensure access to titanium sponge in the United States for
