DEPARTMENT OF HEALTH AND **HUMAN SERVICES**

Public Health Service

National Toxicology Program; The **National Toxicology Program (NTP)** Center for the Evaluation of Risks to **Human Reproduction (CERHR), Announces Availability of Draft Expert** Panel Report on Fluoxetine and Expert Panel Meeting on Fluoxetine; Requests **Public Comment on the Draft Report**

SUMMARY: The NTP CERHR announces-

- (1) Availability of sections 1-4 of the draft expert panel report on fluoxetine and solicits written public comments on the report by January 6, 2004.
- (2) The fluoxetine expert panel meeting on March 3-5, 2004 at the Holiday Inn Old Town Select, Alexandria, Virginia and invites the public to present oral comments at this

Questions about the draft expert panel report, submission of public comments, and the expert panel meeting should be directed to Dr. Michael Shelby, CERHR Director (contact information below).

Draft Expert Panel Report On Fluoxetine Available

The CERHR announces the availability of the draft expert panel report on fluoxetine hydrochloride

(Prozac®; SarafemTM, CAS RN 59333-67-4; fluoxetine, CAS RN 54910-89-3). Fluoxetine, an antidepressant, is a widely prescribed drug in the United States. The CERHR selected fluoxetine for evaluation because of (1) sufficient reproductive and developmental studies, (2) human exposure information, (3) changing prescription patterns, and (4) public concern about potential reproductive and/or developmental hazards associated with exposure. Fluoxetine hydrochloride, under the name Sarafem TM, is prescribed to treat premenstrual dysphoric disorder (PMDD), potentially increasing the number of exposures for women of childbearing age. Furthermore, the Food and Drug Administration recently approved Prozac® for use in 7-17 year-olds thereby increasing exposures of children.

Each draft expert panel report has the following sections:

- 1.0 Chemistry, Use, and Human Exposure
- General Toxicological and **Biological Effects**
- 3.0 Developmental Toxicity Data
- Reproductive Toxicity Data 4.0
- Summary, Conclusions, and Critical Data Needs (to be written at expert panel meeting)

Sections 1-4 will be available to the public by the publication date of this notice and can be obtained electronically on the CERHR Web site (http://cerhr.niehs.nih.gov) or in hard copy by contacting Dr. Michael Shelby, Director CERHR [NIEHS, 79 T.W. Alexander Drive, Building 4401, room 103, P.O. Box 12233, MD EC-32, Research Triangle Park, NC 27709, telephone: (919) 541-3455; facsimile: (919) 316-4511; shelby@niehs.nih.gov].

Request for Written Comments on Draft Expert Panel Report

The CERHR invites written public comments on sections 1-4 of the draft expert panel report on fluoxetine. Comments can be submitted in hard copy or electronic format and must be received by the CERHR by January 6, 2004. These comments will be distributed to the expert panel and CERHR staff for consideration in revising the draft report and in preparing for the expert panel meeting. They will be posted on the CERHR website prior to the expert panel meeting. These comments should be sent to Dr. Michael Shelby at the address provided above. Persons submitting written comments are asked to include their name and contact information (affiliation, mailing address,
