#### WTO Agricultural Safeguard Trigger Levels

**AGENCY:** Foreign Agricultural Service, U.S. Department of Agriculture.

**ACTION:** Notice of product coverage and trigger levels for safeguard measures provided for in the World Trade Organization (WTO) Agreement on Agriculture.

**SUMMARY:** This notice lists the updated quantity trigger levels for products which may be subject to additional import duties under the safeguard provisions of the WTO Agreement on Agriculture. This notice also includes the relevant period applicable for the

trigger levels on each of the listed products.

**DATES:** *Effective Date:* May 25, 2012.

**FOR FURTHER INFORMATION CONTACT:** Safeguard Staff, Import Policies and Export Reporting Division, Office of Trade Programs, Foreign Agricultural Service, U.S. Department of Agriculture, Stop 1021, 1400 Independence Avenue SW., Washington, DC 20250-1021; or by telephone at (202) 720-0638, or by email at [itspd@fas.usda.gov](mailto:itspd@fas.usda.gov).

**SUPPLEMENTARY INFORMATION:** Article 5 of the WTO Agreement on Agriculture provides that additional import duties may be imposed on imports of products subject to tariffication as a result of the Uruguay Round, if certain conditions are met. The agreement permits additional duties to be charged if the price of an individual shipment of imported products falls below the average price for similar goods imported during the years 1986-88 by a specified percentage. It also permits additional duties to be imposed if the volume of imports of an article exceeds the average of the most recent 3 years for which data are available by 5, 10, or 25 percent, depending on the article. These additional duties may not be imposed on quantities for which minimum or current access commitments were made during the Uruguay Round negotiations, and only one type of safeguard, price or quantity, may be applied at any given time to an article.

Section 405 of the Uruguay Round Agreements Act requires that the President cause to be published in the

**Federal Register** information regarding the price and quantity safeguards, including the quantity trigger levels, which must be updated annually based upon import levels during the most recent 3 years. The President delegated this duty to the Secretary of Agriculture in Presidential Proclamation No. 6763, dated December 23, 1994, 60 FR 1005 (Jan. 4, 1995). The Secretary of Agriculture further delegated this duty, which lies with the Administrator of the Foreign Agricultural Service (7 CFR 2.43 (a)(2)). The Annex to this notice contains the updated quantity trigger levels.

Additional information on the products subject to safeguards and the additional duties which may apply can be found in subchapter IV of Chapter 99 of the Harmonized Tariff Schedule of the United States (2012) and in the Secretary of Agriculture's Notice of Uruguay Round Agricultural Safeguard Trigger Levels, published in the **Federal Register** at 60 FR 427 (Jan. 4, 1995).

**Notice:** As provided in Section 405 of the Uruguay Round Agreements Act, consistent with Article 5 of the Agreement on Agriculture, the safeguard quantity trigger levels previously notified are superceded by the levels indicated in the Annex to this notice. The definitions of these products were provided in the Notice of Safeguard Action published in the **Federal Register**, at 60 FR 427 (Jan. 4, 1995).

Issued at Washington, DC, this 15th day of May 2012.

**Suzanne E. Heinen,**  
Administrator, Foreign Agricultural Service.

**SUPPLEMENTARY INFORMATION:**

*Title:* Special Use Administration.  
*OMB Number:* 0596-0082.

*Expiration Date of Approval:* October 31, 2012.

*Type of Request:* Extension with Revision.

*Abstract:* The information collection requirements are necessary for the Forest Service to issue and administer special use authorizations that allow the public to use and occupy National Forest System (NFS) lands under these authorities. The information collected is used by Forest Service officials (unless otherwise noted) to ensure that uses of NFS lands are authorized, in the public interest, and compatible with the Agency's mission; and/or record authorization of use granted by appropriate Forest Service officials.

In addition, the Department of the Interior (DOI) statutes for the Bureau of Land Management (BLM), Fish and Wildlife Service (FWS), National Park Service (NPS), and Bureau of Reclamation (BuRec) along with the statute for the U.S. Army Corp of Engineers (USACE) authorize its collection of information and will utilize form SF-299 "Application for Transportation and Utility Systems and Facilities on Federal Lands."

Several statutes authorize the Forest Service to issue and administer authorizations for use and occupancy of NFS lands and collect information from the public for those purposes. The laws authorizing the collection of this information include the Organic Administration Act of 1897 (16 U.S.C. 551); Title V of the Federal Land Policy and Management Act of 1976 (FLPMA, 43 U.S.C. 1761-1771); Act of March 4, 1915 (16 U.S.C. 497); Alaska Term Permit Act of March 30, 1948 (48 U.S.C. 341); Act of September 3, 1954 (68 Stat. 1146; 43 U.S.C. 931c, 931d); National Forest Ski Area Permit Act (16 U.S.C. 497b); section 28 of the Mineral Leasing Act (30 U.S.C. 185); National Forest Roads and Trails Act (FRTA, 16 U.S.C. 532-538); section 7 of the Granger-Thye Act (16 U.S.C. 480d); Act of May 26, 2000 (16 U.S.C. 460-6d); Federal Lands Recreation Enhancement Act (16 U.S.C. 6801-6814); Archeological Resource Protection Act of October 31, 1979 (16 U.S.C. 1996); and the Rural Electrification Act of 1936, as amended.

Forest Service regulations implementing these authorities, found at 36 CFR part 251, Subpart B, contain information collection requirements, including submission of applications, execution of forms, and imposition of terms and conditions that entail information collection requirements, such as the requirement to submit annual financial information, to prepare and update an operating plan; to prepare and update a maintenance plan, and to submit compliance reports and information updates.

The information helps the Agency identify the environmental and social impacts of special uses for purposes of compliance with the National Environmental Policy Act and program administration. In addition, the Agency uses the information to ascertain whether the land use fee(s) charged for special use authorizations are based on market value.

Information collection occurs via application forms, as well as terms and conditions in special use authorizations and operating plans. There are six categories of information collected:

(1) Information required from proponents and applicants to evaluate proposals and applications to use or occupy NFS lands,

(2) Information required from applicants to complete special use authorizations,

(3) Annual financial information required from holders to determine land use fees,

(4) Information required from holders to prepare and update operating plans,

(5) Information required from holders to prepare and update maintenance plans, and

(6) Information required from holders to complete compliance reports and informational updates.

The six categories cover all information collection requirements involved in administration of the Special Uses program, including application and reporting forms; authorization forms; supplemental special use authorization clauses in Forest Service Handbook 2709.11,
