interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act ¹¹ and Rule 19b–4(f)(6) thereunder. ¹²

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act 13 normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)(iii) 14 permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has requested that the Commission waive the 30-day operative delay so that the proposed rule change may become operative upon filing. The Exchange asserts that waiving the operative delay would be consistent with the protection of investors and the public interest because the proposed rule change would respond to investor demand and allow the Exchange to implement the modified rule, which aligns with the rules of other options exchanges, without delay. The Commission believes that the proposal raises no new or substantive issues and that waiver of the 30-day operative delay is consistent with the protection of investors and the public interest. The Commission hereby waives the operative delay and designates the proposed rule change operative upon filing.¹⁵

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.
