

c. On-line Submission

The Office has devised on-line electronic forms for filing both single and joint cable and satellite claims from July 1, 2002 through July 31, 2002. Claimants will be able to access and complete the forms via the Copyright Office website and may submit the forms electronically as provided in the instructions accompanying the forms. Cable forms will be posted on the Office website at "<http://www.copyright.gov/carp/cable/claims.html>". Satellite forms will be posted at "<http://www.copyright.gov/carp/satellite/claims.html>".

Both cable and satellite on-line forms will be available for use during the month of July. It is critically important to follow the instructions in completing the forms before submitting them to the Office. Claims submitted on the wrong form (e.g. a cable claim submitted on a satellite form) will not be accepted. Claimants filing their claims electronically must use these and only these forms. Claims submitted on-line using forms or formats other than those provided at "<http://www.copyright.gov/carp/cable/claims.html>" and "<http://www.copyright.gov/carp/satellite/claims.html>" will not be accepted. Claims filed on-line must be received by the Office no later than 11:59 p.m. E.S.T. on July 31, 2002. Specifically, the completed electronic forms must be received in the Office's server by that time. Any claim received after that time will not be considered timely filed. Claimants will receive an electronic mail message in response stating that the Office has received their submission. Therefore, claimants submitting their claims on-line are strongly urged to submit their claim no later than July 30, 2002 in order to better assure timely receipt by the Office and to allow sufficient time to receive the electronic mail message that the submission has been received.

d. By Mail

Sections 252.4(a)(2) and 257.4(a)(2) direct claimants filing their claims by mail to send the claims to the Copyright Arbitration Royalty Panel, P.O. Box 70977, Southwest Station, Washington, DC 20024. Claimants electing to send their claims by mail are encouraged to send their claims by certified mail return receipt requested, to have the certified mail receipt (PS Form 3800) stamped by the United States Postal Service, and to retain the certified mail receipt in order to provide proof of timely filing, in the event that the claim reaches the Office after the last day in July. In the event there is a question as

to whether the claim was deposited with the United States Postal Service during the month of July, the claimant must produce the certified mail receipt (PS Form 3800) which bears a United States Postal Service postmark, indicating an appropriate date.

As noted above, disruption of the mail service and delivery of incoming mail to an off-site decontamination center have considerably reduced the timeliness of receipt of mail by the Copyright Office. It is conceivable, if not likely, that cable and satellite claims mailed to the Office in July may not arrive until many months thereafter. Such delays will hamper the Office's ability to compile a claimant list, and may dramatically affect the Office's ability to make partial distributions of cable and satellite funds not in controversy.¹ Consequently, claimants are strongly urged not to use the mail as a means of filing their claims to the 2001 cable and satellite royalty funds. Those who do use the mail are advised to send their claims early in the month of July. While the Office is not prohibiting the filing of claims by mail, those who do so assume the risk that their claim will not reach the Office in a timely manner, or at all, and/or that the mail, when received by the Office, will be significantly damaged. Claims sent by mail should be addressed in accordance with §§ 252.4(a)(2) and 257.4(a)(2), and the Office again strongly encourages the claimant to send the claim by certified mail return receipt requested, to have the certified mail receipt (PS Form 3800) stamped by the United States Postal Service, and to retain the certified mail receipt, as it constitutes the only acceptable proof of timely filing of the claim. Claims dated only with a business meter that are received by the Office after July 31, 2002, will be rejected as being untimely filed. Claimants who have ignored this rule have had their claims rejected.

When filing claims by this method, claimants must follow all provisions set forth in 37 CFR part 252 for cable claims and part 257 for satellite claims.

Faxes Not Permitted

Although the Copyright Office permitted the submission of 2001 Digital Audio Recording Technology ("DART") claims via facsimile transmission, the Office has determined that, due to the high volume of cable and satellite claims received by the Office relative to DART claims, it is

¹ The Office also notes that some of the mail it has recently received was damaged due to handling and the decontamination process. Damage or destruction of claims sent by mail could adversely affect a claimant's eligibility for cable or satellite royalties.

impractical to permit the faxing of cable and satellite claims. Consequently, any cable or satellite claims received by the Copyright Office via facsimile transmission will not be accepted.

Waiver of Regulation

The regulations governing the filing of cable and satellite claims require "the original signature of the claimant or of a duly authorized representative of the claimant." § 252.3(b) (cable); § 257.3(b) (satellite). This Notice however, waives these provisions as set forth herein solely for the purpose of filing claims to the 2001 cable and satellite royalty funds. The Office is not waiving the statutory deadline for the filing either cable or satellite claims, a deadline the Office has no power to waive. *See, United States v. Locke*, 471 U.S. 84, 101 (1985). Thus, claimants are still required to file their claims by July 31, 2002.

Waiver of an agency's rules is "appropriate only if special circumstances warrant a deviation from the general rule and such deviation will serve the public interest." *Northeast Cellular Telephone Company v. FCC*, 897 F.2d 1164, 1166 (D.C. Cir. 1990); see also, *Wait Radio v. FCC*, 418 F.2d 1153 (D.C. Cir. 1969), cert. denied, 409 U.S. 1027 (1972). Under ordinary circumstances, the Office is reluctant to waive its regulations. However, the recent disruption in the delivery of the mail constitutes a special—indeed, an extraordinary—circumstance which has forced the Office to deviate from its usual mail processing procedures. Thus, given such uncertainties, the Office believes that the public interest will best be served by waiving, for this filing period only, the requirement that cable and satellite claims bear the original signature of the claimant or of a duly authorized representative of the claimant when, and only when, such claim is filed electronically.

General Counsel.

BILLING CODE 1410-31-P

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 65

[Docket No. FEMA-B-7428]

Changes in Flood Elevation Determinations

AGENCY: Federal Emergency
Management Agency (FEMA).

ACTION: Interim rule.

SUMMARY: This interim rule lists communities where modification of the Base (1-percent-annual-chance) Flood Elevations is appropriate because of new scientific or technical data. New flood insurance premium rates will be calculated from the modified Base Flood Elevations for new buildings and their contents.

DATES: These modified Base Flood Elevations are currently in effect on the dates listed in the table below and revise the Flood Insurance Rate Maps in effect prior to this determination for each listed community.

From the date of the second publication of these changes in a newspaper of local circulation, any person has ninety (90) days in which to request through the community that the Director, Federal Insurance and Mitigation Administration, reconsider the changes. The modified elevations may be changed during the 90-day period.

ADDRESSES: The modified Base Flood Elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Matthew B. Miller, P.E., Chief, Hazards Study Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency 500 C Street SW., Washington, DC 20472, (202) 646-3461, or (e-mail) matt.miller@fema.gov.

SUPPLEMENTARY INFORMATION: The modified Base Flood Elevations are not listed for each community in this interim rule. However, the address of the Chief Executive Officer of the community where the modified Base

Flood Elevation determinations are available for inspection is provided.

Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data.

The modifications are made pursuant to Section 201 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The modified Base Flood Elevations are the basis for the floodplain management measures that the community is required to either adopt or to show evidence of being already in effect in order to qualify or to remain qualified for participation in the National Flood Insurance Program (NFIP).

These modified elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State, or regional entities.

The changes in Base Flood Elevations are in accordance with 44 CFR 65.4.

National Environmental Policy Act. This rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Administrator, Federal Insurance and

Mitigation Administration certifies that this rule is exempt from the requirements of the Regulatory Flexibility Act because modified Base Flood Elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are required to maintain community eligibility in the NFIP. No regulatory flexibility analysis has been prepared.

Regulatory Classification. This interim rule is not a significant regulatory action under the criteria of Section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism. This rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform. This rule meets the applicable standards of Section 2(b)(2) of Executive Order 12778.

FM Broadcasting Services; Northweye, Cuba, Waynesville, Lake Ozark, and Eldon, Missouri; Brookline, Missouri; Ava, Branson, and Mountain Grove, Missouri; and Columbia, Bourbon, Leasburg, Gerald, Dixon, and Cuba, Missouri

AGENCY: Federal Communications Commission.

ACTION: Final rule; application for review denied.

SUMMARY: The Commission denied an application for review filed by Lake Broadcasting, the former licensee, *inter alia*, of Station KBMX(FM), Eldon, Missouri. The Commission held that the staff properly dismissed as moot Lake's petition for reconsideration in MM Docket 89-120, seeking to upgrade the class of the Eldon station, because the license for Station KBMX(FM), as well as the other stations licensed to Lake or controlled by its principal shareholder, Michael Rice, had been revoked and those actions became final and no longer subject to judicial review. *See* 66 FR 58409 (November 21, 2001).
