

gastrointestinal disorders, cancers, inflammation-related disorders, substance abuse associated pathologies, and other conditions using the same. The filed provisional patent application includes extensive descriptions of the exemplary molecules and their various constituents. Therapeutic targets of said molecules include but are not limited to the cannabinoids 1 receptor, the cannabinoid 2 receptor, GPR55, GPR18, or GPR119. The rights pursued claim compounds, pharmaceutical compositions, and methods of use.

Potential Commercial Applications:

- Pharmaceuticals
- Cancer therapy
- Inflammatory and autoimmune disease

Development Stage:

- Early stage

BILLING CODE 4140-01-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA-2008-0010]

Board of Visitors for the National Fire Academy

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Committee management; notice of open Federal Advisory Committee meeting.

SUMMARY: The Board of Visitors for the National Fire Academy (Board) will meet virtually on Tuesday, March 15, 2022. The meeting will be open to the public.

DATES: The meeting will take place on Tuesday, March 15, 2022, 1 p.m. to 3 p.m. ET. Please note that the meeting

may close early if the Board has completed its business.

ADDRESSES: Members of the public who wish to participate in the virtual conference should contact Deborah Gartrell-Kemp as listed in the **FOR FURTHER INFORMATION CONTACT** section by 5 p.m. ET on March 2, 2022, to obtain the call-in number and access code for the March 15, 2022, virtual meeting. For more information on services for individuals with disabilities or to request special assistance, contact Deborah Gartrell-Kemp as soon as possible.

To facilitate public participation, we are inviting public comment on the issues to be considered by the Board as listed in the **SUPPLEMENTARY INFORMATION** section. Participants seeking to have their comments considered during the meeting should submit them in advance or during the public comment segment. Comments submitted up to 30 days after the meeting will be included in the public record and may be considered at the next meeting. Comments submitted in advance must be identified by Docket ID FEMA-2008-0010 and may be submitted by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Electronic Delivery:* Email Deborah Gartrell-Kemp at Deborah.GartrellKemp@fema.dhs.gov no later than March 2, 2022, for consideration at the March 15, 2022 meeting.

Instructions: All submissions received must include the words “Federal Emergency Management Agency” and the Docket ID for this action. Comments received will be posted without alteration at <http://www.regulations.gov>, including any personal information provided.

Docket: For access to the docket and to read background documents or comments received by the National Fire Academy Board of Visitors, go to <http://www.regulations.gov>, click on “Advanced Search,” then enter “FEMA-2008-0010” in the “By Docket ID” box, then select “FEMA” under “By Agency,” and then click “Search.”

FOR FURTHER INFORMATION CONTACT:

Alternate Designated Federal Officer: Stephen Dean, telephone (301) 447-1271, email Stephen.Dean@fema.dhs.gov.

Logistical Information: Deborah Gartrell-Kemp, telephone (301) 447-7230, email Deborah.GartrellKemp@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: The Board will meet virtually on Tuesday, March 15, 2022. The meeting will be open to the public. Notice of this meeting is given under the Federal Advisory Committee Act, 5 U.S.C. Appendix.

Purpose of the Board

The purpose of the Board is to review annually the programs of the National Fire Academy (Academy) and advise the Administrator of the Federal Emergency Management Agency (FEMA), through the United States Fire Administrator, on the operation of the Academy and any improvements therein that the Board deems appropriate. In carrying out its responsibilities, the Board examines Academy programs to determine whether these programs further the basic missions that are approved by the Administrator of FEMA, examines the physical plant of the Academy to determine the adequacy of the Academy's facilities, and examines the funding levels for Academy programs. The Board submits a written annual report through the United States Fire Administrator to the Administrator of FEMA. The report provides detailed comments and recommendations regarding the operation of the Academy.

Agenda

On Tuesday, March 15, 2022, there will be four sessions, with deliberations and voting at the end of each session as necessary:

1. The Board will discuss United States Fire Administration Data, Research, Prevention and Response.
2. The Board will discuss deferred maintenance and capital improvements on the National Emergency Training Center campus and Fiscal Year 2022 and beyond Budget Request/Budget Planning.
3. The Board will deliberate and vote on recommendations on Academy program activities to include developments, deliveries, staffing, admissions and strategic plan.
4. There will also be an update on the Board of Visitors Subcommittee Groups for the Professional Development Initiative Update and the National Fire Incident Report System.

There will be a 10-minute comment period after each agenda item and each speaker will be given no more than 2 minutes to speak. Please note that the public comment period may end before the time indicated following the last call for comments. Contact Deborah Gartrell-Kemp to register as a speaker. Meeting materials will be posted by March 10,

2022, at <https://www.usfa.fema.gov/training/nfa/about/bov.html>.

Eriks J. Gabliks,

*Superintendent, National Fire Academy,
United States Fire Administration, Federal
Emergency Management Agency.*

BILLING CODE 9111-74-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[FWS-R3-ES-2021-0158;
FXES11140300000-212]

Draft Environmental Assessment and Proposed Habitat Conservation Plan; Receipt of an Application for an Incidental Take Permit, Sugar Creek Wind Project, Logan County, Illinois

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of availability; request
for comment and information.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received an application from Sugar Creek Wind One, LLC (applicant), for an incidental take permit (ITP) under the Endangered Species Act, for its Sugar Creek Wind Project (project). The applicant requests the ITP, which would be for a 30-year period, for the take of the federally listed endangered Indiana bat and threatened northern long-eared bat incidental to the otherwise lawful activities associated with the project. The applicant proposes a conservation program to minimize and mitigate for the unavoidable incidental take as described in their habitat conservation plan (HCP). The Service requests public comment on the application, which includes the applicant's proposed HCP, and the Service's draft environmental assessment, prepared pursuant to the National Environmental Policy Act. The Service provides this notice to seek comments from the public and Federal, Tribal, State, and local governments.

DATES: We will accept comments received or postmarked on or before February 25, 2022.

ADDRESSES:

Document availability: Electronic copies of the documents this notice announces, along with public comments received, will be available online in Docket No. FWS-R3-ES-2021-0158 at <http://www.regulations.gov>.

Comment submission: In your comment, please specify whether your comment addresses the proposed HCP, draft EA, or any combination of the aforementioned documents, or other

supporting documents. You may submit written comments by one of the following methods:

- *Online:* <http://www.regulations.gov>. Search for and submit comments on Docket No. FWS-R3-ES-2021-0158.

- *By hard copy:* Submit comments by U.S. mail to Public Comments Processing, Attn: Docket No. FWS-R3-ES-2021-0158; U.S. Fish and Wildlife Service; 5275 Leesburg Pike, MS: PRB/3W; Falls Church, VA 22041-3803.

FOR FURTHER INFORMATION CONTACT:

Kraig McPeck, Field Supervisor, Illinois-Iowa Ecological Services Field Office, U.S. Fish and Wildlife Service, 1511 47th Ave., Moline, IL 61265; telephone: 309-757-5800, extension 202; or Andrew Horton, Regional HCP Coordinator, U.S. Fish and Wildlife Service—Interior Region 3, 5600 American Blvd. West, Suite 990, Bloomington, MN 55437-1458; telephone: 612-713-5337.

Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 1-800-877-8339 for TTY assistance.

SUPPLEMENTARY INFORMATION:

Background

Section 9 of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and its implementing regulations prohibit the “take” of animal species listed as endangered or threatened. “Take” is defined under the ESA as to “harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect [listed animal species], or to attempt to engage in such conduct” (16 U.S.C. 1538). However, under section 10(a) of the ESA, we may issue permits to authorize incidental take of listed species. “Incidental take” is defined by the ESA as take that is incidental to, and not the purpose of, carrying out an otherwise lawful activity. Regulations governing incidental take permits for endangered and threatened species, respectively, are found in the Code of Federal Regulations at 50 CFR 17.22 and 50 CFR 17.32.

Applicant's Proposed Project

The applicant requests a 30-year ITP for take of the federally endangered Indiana bat (*Myotis sodalis*) and federally threatened northern long-eared bat (*Myotis septentrionalis*). The applicant determined that wind farm activities on this land are reasonably certain to result in incidental take of these federally listed species. Activity that could result in incidental take of Indiana bats and northern long-eared bats is the operation of 57 wind turbines

occurring in Logan County, Illinois across approximately 12,120 acres of private land. The estimated level of take from the project is up to 90 Indiana bats and 60 northern long-eared bats over the 30-year project duration.

The proposed conservation strategy in the applicant's proposed HCP is designed to avoid, minimize, and mitigate the impacts of the covered activity on the covered species. The biological goals and objectives are to minimize potential take of Indiana bats and northern long-eared bats through on-site minimization measures and to provide habitat conservation measures for Indiana bats and northern long-eared bats to offset any impacts from operations of the project. On-site minimization measures include feathering turbine blades until wind speeds reach 3.0 meters per second (m/s) when temperatures are above 40 degrees Fahrenheit during the spring, summer, and fall (March 15 to November 15). Additionally, on-site minimization measures include feathering of turbine blades until wind speeds reach 5.0 m/s during fall (August 1 to October 15) when temperatures are above 50 degrees Fahrenheit. Minimization measures will be implemented nightly from sunset to sunrise. To offset the impacts of the taking of Indiana bats and northern long-eared bats, the applicant proposes to protect known maternity colony habitat for both covered species. The Service requests public comments on the permit application, which includes a proposed HCP, and an EA prepared in accordance with the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*).

The applicants' HCP describes the activities that will be undertaken to implement the project, as well as the mitigation and minimization measures proposed to address the impacts to the covered species. Pursuant to NEPA, the EA analyzes the impacts the ITP issuance would have on the covered species and the environment.

National Environmental Policy Act

The issuance of an ITP is a Federal action that triggers the need for compliance with NEPA. We prepared a draft EA that analyzes the environmental impacts on the human environment resulting from three alternatives: A no-action alternative, the applicant's proposed action, and a more restrictive alternative consisting of feathering at a rate of wind speed that results in less impacts to bats.
