

prior years, as well as suffer the potentially price depressing consequence that a release of over a million pounds of spearmint oil reserves would have on the market. According to the Committee, levels for the salable quantities and allotment percentages either higher or lower than those recommended would not achieve the intended goals of market and price stability.

As stated earlier, annual salable quantities and allotment percentages have been issued for both classes of spearmint oil since the order's inception. Reporting and recordkeeping requirements have remained the same for each year of regulation. These requirements have been approved by the Office of Management and Budget under OMB Control No. 0581-0065.

Accordingly, this action would not impose any additional reporting or recordkeeping requirements on either small or large spearmint oil producers and handlers. All reports and forms associated with this program are reviewed periodically in order to avoid unnecessary and duplicative information collection by industry and public sector agencies. The Department has not identified any relevant Federal rules that duplicate, overlap, or conflict with this proposed rule.

The Committee's meeting was widely publicized throughout the spearmint oil industry and all interested persons were invited to attend and participate on all issues. In addition, interested persons are invited to submit information on the regulatory and informational impacts of this action on small businesses.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/fv/moab.html>. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

A 15-day comment period is provided to allow interested persons the opportunity to respond to the proposal, including any regulatory and informational impacts of this action on small businesses. Fifteen days is deemed appropriate because this rule would need to be effective as soon as possible to provide producers sufficient time prior to the beginning of the 2001-2002 marketing year to adjust their cultural and marketing plans accordingly. All written comments received within the comment period will be considered before a final determination is made on this matter.

RIN 2115-AE87

Drawbridge Operations Regulations; Duwamish River, WA

AGENCY: Coast Guard, DOT.

ACTION: Withdrawal of proposed rule.

SUMMARY: The Coast Guard is withdrawing the proposed rulemaking to amend the operating regulations of the dual bascule drawbridges on First Avenue South across the Duwamish River, mile 2.5, at Seattle, Washington. This rulemaking is being withdrawn because of the insufficient road traffic volume and congestion data provided by the bridge owner to justify the proposed change and because of objections made by navigational

interests. Three marine transport companies objected to the proposed addition of one hour to the existing afternoon closed period. The bridge currently is closed to vessels of less than 5000 gross tons for six hours each day Monday through Friday. These objectors are major commercial users of the Duwamish Waterway and all are engaged in various degrees with major shipping to Alaska from Seattle. One of these also observed that the dual drawspans are not operated simultaneously. Simultaneous operation could reduce the length of the operating cycle and therefore reduce the time that roadway traffic is obstructed by draw span operations.

DATES: The proposed rulemaking is withdrawn effective April 24, 2001.

FOR FURTHER INFORMATION CONTACT:

Austin Pratt, Chief, Bridge Section, Aids to Navigation and Waterways Management Branch, Thirteenth Coast Guard District, (206) 220-7282.

SUPPLEMENTARY INFORMATION: This notice withdraws the notice of proposed rulemaking for the amendment of drawbridge operations regulations, published in the **Federal Register**, August 18, 2000 (65 FR 50480, CGD13-00-029).

Dated: 10 April 2001.
