

Petitioners timely withdrew their request for the administrative review.

Rescission of Administrative Review

Pursuant to 19 CFR 351.213(d)(1), the Secretary will rescind an administrative review, in whole or in part, if the parties that requested a review withdraw the request within 90 days of the date of publication of the notice of initiation of the requested review. Petitioners timely withdrew their request before the 90-day deadline, and no other party requested an administrative review of the CVD order on certain coated paper from Indonesia for the 2012 POR. Therefore, we are rescinding the administrative review of the CVD order on certain coated paper from Indonesia covering the 2012 POR.

Assessment

The Department will instruct U.S. Customs and Border Protection (CBP) to assess CVDs on all appropriate entries. For the companies for which this review is rescinded, the CVDs shall be assessed at rates equal to the cash deposit of estimated CVDs required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i).

Notification to Importers

This notice serves as a reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of CVDs prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of CVDs occurred and the subsequent assessment of double CVDs.

Return or Destruction of Proprietary Information

This notice serves as a reminder to parties subject to the administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under the APO in accordance with 19 CFR 351.305(a)(3). We request timely written notification of return or destruction of APO materials, or conversion to judicial protective order. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

The Department issues and publishes this notice in accordance with sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.213.

Requests for Revocation in Part, 78 FR 79392 (December 30, 2013).

Dated: July 29, 2014.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Endangered Species; File No. 16436-01

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of a permit modification and termination of a permit.

SUMMARY: Notice is hereby given that the New York State Department of Environmental Conservation, 21 South Putt Corners Road, New Paltz, NY 12561 [Kathryn Hattala: Responsible Party], has been issued a permit modification (Permit No. 16436-01) to take to take Atlantic sturgeon (*Acipenser oxyrinchus oxyrinchus*) and shortnose sturgeon (*Acipenser brevirostrum*) for purposes of scientific research. Additionally, Permit No. 16439, issued to the same Permit Holder for study of shortnose sturgeon, is hereby terminated.

ADDRESSES: The permit modification and related documents are available for review upon written request or by appointment in the following office:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room

13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

FOR FURTHER INFORMATION CONTACT: Malcolm Mohead, (301) 427-8401.

SUPPLEMENTARY INFORMATION: Permit No. 16436 was issued April 6, 2012 (77 FR 21754) to the Permit Holder to capture Atlantic sturgeon life stages in the Hudson River estuary to assess juvenile abundance, characterize the adult spawning stock, and generate population estimates. Atlantic sturgeon were authorized captured with gill nets, trammel nets, and trawls; measured, weighed, tissue sampled, fin clipped for aging, PIT tagged and Floy tagged, internally and externally acoustic tagged, anesthetized with 150 ppm MS-222, and gastric lavaged.

The permit modification (Permit No. 16436-01) now consolidates takes of shortnose sturgeon issued in Permit No. 16439 with those Atlantic sturgeon authorized in Permit No. 16436. Permit No. 16439 was terminated upon issuance of the modification. The takes of both Atlantic and shortnose sturgeon were increased in the modification to meet further objectives, including understanding impacts on each species from (1) construction of the Tappan Zee Bridge; (2) laying high voltage cable in the Hudson River; and (3) measuring contaminants levels in the Hudson River. New methods authorized in the modification include contaminant research sampling by performing laparoscopic liver biopsy, and anesthetizing animals with 250 mg/l MS-222 and electro-narcosis. A total of three incidental mortalities of shortnose and Atlantic sturgeon are now authorized annually as a result of increased research activity. The modification would be valid through the original expiration date of Permit No. 16436 on April 5, 2017.

Issuance of this permit modification, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith; (2) will not operate to the disadvantage of such endangered or threatened species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: July 30, 2014.

Julia Harrison,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.
