DEPARTMENT OF THE TREASURY**United States Mint****Privacy Act of 1974; Systems of Records**

AGENCY: United States Mint, Treasury.

ACTION: Notice of systems of records.

SUMMARY: In accordance with the requirements of the Privacy Act of 1974, as amended, 5 U.S.C. 552a, the United States Mint, Treasury, is publishing its inventory of Privacy Act systems of records.

SUPPLEMENTARY INFORMATION: Pursuant to the Privacy Act of 1974 (5 U.S.C. 552a) and the Office of Management and Budget (OMB), Circular No. A-130, the United States Mint has completed a review of its Privacy Act systems of records notices to identify changes that will more accurately describe these records. The systems of records were last published in their entirety on June 13, 2005, at 70 FR 34178-34185.

The changes throughout the document are editorial in nature and consist principally of a changing the name of the Treasury bureau from "U.S. Mint" to the "United States Mint," clarification as to the types of records in United States Mint .005, a change to the title of United States Mint .009. The alterations to United States Mint .009 published on January 30, 2007, at 72 FR 4325 have also been incorporated.

On May 22, 2007, the Office of Management and Budget (OMB) issued Memorandum M-07-16 entitled "Safeguarding Against and Responding to the Breach of Personally Identifiable Information." It required agencies to publish the routine use recommended by the President's Identity Theft Task Force. As part of that effort, the Department published the notice of the proposed routine use on October 3, 2007, at 72 FR 56434, and it was effective on November 13, 2007. The new routine use has been added to each United States Mint system of records below.

Department of the Treasury regulations require the Department to publish the existence and character of all systems of records every three years (31 CFR 1.23(a)(1)). The United States Mint has leveraged this requirement to incorporate the review of its current holding of personally identifiable information required by M-07-16. With respect to its inventory of Privacy Act Systems of records, the United States Mint has determined that the information contained in its systems of records is accurate, timely, relevant, complete, and is the minimum necessary to maintain the proper performance of a documented agency function.
