[Project No. 15116–000]

#### Ocean Renewable Power Company, Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On April 29, 2021, Ocean Renewable Power Company, Inc. filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the proposed East Foreland Tidal Energy Project No. 15116–000, to be located on Cook Inlet near Nikiski and adjacent lands of the Kenai Peninsula Borough, Alaska. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary

permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) A series of proprietary turbine-generator units with a combined capacity of no more than 5 megawatts; (2) a 1- to 5-mile-long, 12.5- to 25-kV submarine transmission cable from the module site to an onshore location on the west coast of the Kenai Peninsula; (3) an approximately 0.75-mile-long, 12.5- to 25-kV above-ground transmission line leading to a substation owned by Homer Electric Association; and (4) appurtenant facilities. The estimated annual generation of the East Foreland project would be up to 13.5 gigawatt-hours.
